BUDGET MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I am transmitting my recommendations for the Budget of the United States for the fiscal year ending June 30, 1949, together with revised estimates for the fiscal year 1948. This Budget includes estimates to carry out both existing laws and proposed legislation.

The realities of our existing international and domestic requirements account for the size of this Budget. It affords essential support to the foreign policy of the United States by encouraging widespread international economic cooperation while maintaining our armed strength. It affords essential support to our domestic policies by advancing the development of human and material resources within a fiscal plan designed to help combat inflation.

The expenditures of the Federal Government are still inescapably dominated by the war and its aftermath. In the fiscal year 1949, 79 percent of our expenditures directly reflect the costs of war, the effects of war, and our efforts to prevent a future war: National Defense—International Affairs—Veterans' Benefits—Interest on the Public Debt—Tax Refunds. This should be a sobering thought to all of us as we strive for the creation of lasting peace among the nations of the world. Only 21 percent of our expenditures finance the Government's programs in the broad areas of: Social Welfare—Housing—Education—Research—Agriculture—Natural Resources—Transportation—Finance—Commerce—Industry—Labor—General Administration.

In the 2 years since the surrender of the Axis Powers, expenditures of the Federal Government have decreased sharply from 63.7 billion dollars in the fiscal year 1946, to 42.5 billion dollars in the fiscal year 1947, and an estimated 37.7 billion dollars in the current fiscal year. Were the Budget for the fiscal year 1949 to be confined solely to carrying out existing laws, there would be a further decrease to slightly below 34 billion dollars.

It would be gratifying if I could say to the American people and to their Senators and Representatives in the Congress that our existing programs fulfill our national requirements. But this is not the case. Our national and international responsibilities demand that we undertake new activities and expand some activities in which we are already engaged.

Expenditures of 5.7 billion dollars will therefore be required for the fiscal year 1949 to finance programs under proposed legislation. Of this, 4.4 billion dollars is needed for our aid to the European recovery program and for aid to other countries, including China.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Most of the remainder is for the development of our human and material resources through universal training, aid to education, expansion of social security, health insurance, housing, and scientific research.

Thus the Budget for the fiscal year 1949 calls for total expenditures of 39.7 billion dollars. Receipts during this period are estimated under existing tax laws at 44.5 billion dollars. This will balance the Budget and provide 4.8 billion dollars which should be used to reduce the public debt.

For the current fiscal year, 1948, the revised estimates included in this Budget indicate expenditures of 37.7 billion dollars and receipts of 45.2 billion dollars. This indicates a surplus of 7.5 billion dollars which should be used to reduce the public debt.

Our 1949 Budget reflects a number of important decisions involving Government policies which deserve special attention.

National defense, amounting to 11 billion dollars, accounts for 28 percent of the 1949 Budget, as it will in 1948. The net increase over 1948 is 279 million dollars, which is less than the amount needed to inaugurate the program of universal training. The total for all other defense activities has been held below the 1948 level. Increases in the most essential activities, such as aircraft procurement and civilian reserves, will be offset by economies and reductions elsewhere. This Budget emphasizes progress toward a modern and balanced armed force.

International affairs and finance, amounting to 7 billion dollars, accounts for 18 percent of Budget expenditures in 1949 as compared with 15 percent in 1948. The cost of the new aid programs will be largely counterbalanced by completion or sharp reduction of expenditures for the British loan, UNRRA, post-UNRRA relief, and certain other programs. There will therefore be a net increase in this category of less than 1.5 billion dollars. The new international program is our answer to an unprecedented challenge. We are undertaking it under conditions basically different from any which we have experienced before. I have repeatedly stressed the critical importance of our aid to European recovery, which represents the bulk of this expenditure. The sums requested are vital to the success of this program.

The budgetary implications of failure to achieve recovery in Europe and other crucial areas deserve additional emphasis. Should failure of these programs result in a further extension of totalitarian rule, we would have to reexamine our security position and take whatever steps might be necessary under the circumstances. The costs of added

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

military strength, if Europe should succumb to totalitarian rule, would far exceed the costs of the program of economic aid now before the Congress.

Expenditures for national defense and international activities constitute 46 percent of the total Budget for the fiscal year 1949. The increases in national defense and international aid programs total almost 1.8 billion dollars, which is close to the increase of the entire Budget over 1948.

All other expenditures of the Government in the fiscal year 1949 are estimated at 21.6 billion dollars, about the same as the 1948 expenditures in these categories. Within this total, which includes 6.1 billion dollars for veterans, over 5.2 billion dollars for interest, and nearly 2 billion dollars for refunds, there are a number of reductions resulting from declining programs and a number of increases to finance activities which should not be deferred.

During the fiscal year 1949, fewer veterans will be requesting educational aid and needing unemployment compensation benefits than in 1948, but expenditures for hospital construction will increase, leaving a net reduction of 530 million dollars for veterans' activities. This reduction contemplates continuation of existing veterans' programs with the same types of benefits as have been available this year. The surplus property disposal program is nearing completion, and under revised legislation should cost about 200 million dollars less than in the current year.

New legislative proposals, together with expansions in present programs necessary to carry out the intent of existing laws, account for the increases in expenditures.

Failure to improve our educational system or to expand flood-control work would mean risking the loss of precious resources—human and material. Failure to adopt a program of health insurance would mean that many families will continue to go without adequate medical care. Failure to broaden the coverage of present social insurance and to increase benefits on a permanent basis would mean too much reliance upon relief, whereas more reliance on insurance is our national objective. Failure to adopt a long-range housing program would mean further delay in achieving decent housing standards. Failure to devote needed sums to our atomic plant would mean that we would be derelict in the use of one of our most valuable resources. Each of these proposed new and expanded programs has been most carefully weighed. All these programs directly support the twofold objective of building economic and individual strength and health in this Nation, and of better preparing this Nation to discharge its increased responsibilities in the family of nations.

We are all aware of the imperative necessity for preventing further inflation. Both the expenditure and revenue proposals of this Budget are designed to avoid inflationary effects wherever possible.

To this end, Government purchases of materials in short supply are being deferred where feasible. The expansion of Government credit and of Government guarantees of private credit is being restricted. Further, I am not recommending at this time cost-of-living increases in pay for military and civilian Government personnel, nor cost-of-living increases in benefits for our veterans, social insurance beneficiaries, retired Federal employees, and other similar groups.

The rapid increase in living costs during the last 18 months has placed a serious burden on these groups. Yet, to offset the cost-of-living increase since the last time pay or benefit rates were advanced for each group would add at least 2.4 billion dollars to Budget expenditures in 1949—apart from increases that would be paid from the trust funds. This large expenditure would add greatly to the inflationary pressures in our economy.

The wiser approach, which I have proposed to the Congress, is to enact a comprehensive program to hold living costs down. Enactment of that program will give relief not only to Federal personnel and annuitants, but to our citizens generally. In the event that the Congress does not provide controls adequate for this purpose, I may have to recommend further adjustments in pay and benefit rates.

The question of taxation must be considered in the framework of the budgetary program and the danger of further inflation. One of our most effective weapons in fighting inflation is a substantial Budget surplus for reduction of the national debt. If we make this protection less effective, we shall have to rely much more heavily on direct price, wage, and rationing controls, which we all agree should be held to a minimum.

Some readjustment is required to afford relief to many families who are suffering great hardship from the present tax structure. But total receipts should not be reduced, and the surpluses for 1948 and 1949 should be used to decrease the national debt.

This Budget reveals the magnitude of the problems with which the Federal Government must deal. It demonstrates alike the heavy responsibilities of our international position and our concern for the maintenance of a sound domestic economy. The plain fact is that our Budget must remain high until we have met our international responsibilities and can see the way clear to a peaceful and prosperous

Federal Reserve Bank of St. Louis

world. Prudence demands that we plan our national finances in full recognition of this fact.

BUDGET RECEIPTS

Net tax revenues for the fiscal year 1949 are estimated at 1.3 billion dollars higher than the present estimate for 1948, and 3.7 billion dollars higher than in 1947. The estimates assume continuation of the present high levels of business activity and incomes, continued full employment, and stable prices close to the present level. These assumptions presuppose an effective anti-inflation program.

Budget receipts, however, will decline from 1948 to 1949, because of an estimated reduction of 2 billion dollars in miscellaneous receipts, most of which is due to a decline in receipts from sales of surplus property.

The tax adjustment I am proposing will mean a reduction in personal income taxes and a corresponding increase in corporation taxes. The estimates in the Budget for these taxes are based on existing legislation.

Between 1947 and 1948, revenues from corporation and individual income taxes combined increase by 5.5 billion dollars, more than

Federal Reserve Bank of St. Louis

offsetting the decline of 3.2 billion dollars in excess profits tax revenues. Between 1948 and 1949, revenues from the two types of income taxes will increase by an added 1.3 billion dollars. These increases are largely the result of inflation during the past 18 months, which has swelled corporation profits and aggregate personal incomes. Because the increase in tax collections lags behind the rise in profits and incomes, the 1948 increase in tax collections will be followed by a further rise in 1949.

Excise tax and employment tax receipts are expected to increase slightly in the fiscal year 1949 as a result of continued high levels of production and income. Receipts from customs, however, have been declining in recent months. The international trade agreements which recently became effective may cause a further slight drop in these receipts in 1949.

The expansion of existing social insurance programs and introduction of a health insurance program, under proposed legislation, will add an estimated 350 million dollars of employment taxes to gross Budget receipts, but this will all be transferred directly to the trust accounts without reflection in Budget totals.

RETIREMENT OF THE PUBLIC DEBT

The public debt on June 30, 1947, was 258 billion dollars. Budget surpluses of over 7 billion dollars in the current fiscal year and nearly 5 billion dollars next year should permit further reduction to 246 billion dollars by June 30, 1949. As long as employment and income continue at record levels—and especially while inflationary dangers threaten—we must make the most of our opportunity for debt retirement.

The retirement of public debt held by banks, other private institutions, and individuals will be considerably greater than the 12-billion-dollar reduction in the total, since trust accounts and other Government agencies will accumulate about 6 billion dollars during the two fiscal years. The investment of these accumulations in Federal securities will permit the Treasury to retire securities in the possession of other holders.

In management of the public debt, the major goal will be the achievement of the maximum anti-inflationary effect. This has been our policy since the debt reached its peak in February 1946.

Debt held by the commercial banks and the Federal Reserve banks has been repaid out of excess Treasury balances, the Budget surplus, trust fund accumulations, and the sale of savings and invest-

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

ment bonds to the public. The whole process reduces the volume of private bank deposits and so combats inflationary pressure.

At the same time, we shall do our utmost to increase voluntary savings in all forms, particularly the purchase of savings bonds.

To curtail bank credit expansion, the Federal Reserve System and the Treasury have progressively tightened the money market. This has been reflected in an adjustment in interest rates and a better balance between short- and long-term rates. However, by refunding long-term securities into short-term securities we have minimized the increase in the average interest rate paid by the Government on market debt.

BUDGET EXPENDITURES AND APPROPRIATIONS

The Budget total includes expenditures from the general and special accounts of the Treasury and also the net expenditures from checking accounts of Government corporations and enterprises. It does not include trust account expenditures.

BUDGET EXPENDITURES AND APPROPRIATIONS BY MAJOR PROGRAMS

[Fiscal years. In millions]

Total	42,505	37,728	39,669	32,930

Expenditures in relation to authorizations.—Expenditures in the fiscal year 1949 will exceed appropriations for that year by 6.7 billion dollars. Of the 1949 expenditures, 28.4 billion dollars will be made

770000—48——II

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

from appropriations recommended in this Budget, including 5.4 billion dollars under permanent appropriations. Expenditures of more than 10.5 billion dollars, including 5 billion dollars for international programs, will be financed by appropriations for 1948 or earlier years. The remaining expenditures of about 700 million dollars, principally net expenditures of Government corporations and credit agencies, will be made under other types of congressional authorizations.

The Budget also includes recommended new authority for Government agencies to make contracts amounting to 1.9 billion dollars. Before expenditures are made in payment of these contracts, the funds must be provided by appropriations, but this will not be necessary until later years. Within the 32.9 billion dollars of appropriations recommended for the fiscal year 1949, nearly 1.7 billion dollars are for the liquidation of prior contract authorizations.

Changes in expenditures.—The major reasons for the changes in the national defense, international, and veterans' programs have already been summarized.

The 1949 Budget expenditures for social welfare, health, and security involve increases for the public health and public assistance programs, and initial administrative costs of the proposed health insurance program. Trust account expenditures for benefit payments will also increase.

Expenditures for housing and community facilities decrease. Completion of veterans' re-use housing and curtailment of mortgage purchases more than offset the first-year costs of the proposed long-range housing program.

The increases for education and general research result mainly from the proposed grants by the Federal Government to the States to aid elementary and secondary education, and from the proposed establishment of the National Science Foundation.

The increase in expenditures for agriculture is accounted for mainly by decreased net receipts of the Commodity Credit Corporation. Proposed revisions in price support will bring some savings in 1949. More adequate provision for the conservation and use program is recommended for the 1949 crop year.

Natural resources expenditures will increase chiefly because of higher expenditures for atomic energy, flood control, and reclamation.

Major increases in expenditures for transportation are in grants for highway and airport construction, and direct improvement of rivers and harbors. These are offset in part by lower Maritime Commission expenditures.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

While the anti-inflation program will require higher expenditures, the total for finance, commerce, and industry will fall sharply because the current year total includes the nonrecurring payment of war damage insurance profits to the Treasury.

The increase for labor is required to carry out the provisions of the Labor Management Relations Act of 1947, to restore essential services in the Department of Labor, and to cover increased costs of the public employment offices.

General government expenditures will decrease, chiefly because of lower expenditures for the disposal of surplus property.

Although the public debt will be lower, interest payments will increase somewhat, chiefly as a result of higher accruals on savings bonds as they approach maturity.

Tax refunds will decrease mainly because of lower refunds arising from adjustment of wartime corporate tax liabilities.

In the preparation of this Budget I directed all departments and agencies to plan to continue their programs for the fiscal year 1949 at or below their operating levels in 1948. Exceptions were made only where activities could no longer be deferred. Many departmental requests to perform desirable services have been refused. Throughout the Federal Government changes in activities will be made to achieve the rigid standards of operating economy which have governed the preparation of this Budget.

Specific Programs

NATIONAL DEFENSE

Since the close of hostilities, we have reduced our armed services to a small fraction of their wartime strength. Nevertheless, national defense remains the largest single Government program. The defense of the United States and the task of administering the affairs of 140 million people in the occupied areas require heavy expenditures.

The enactment of the National Security Act of 1947 will enable us to move more rapidly toward an integrated and balanced national defense program. The amounts we can afford to spend for national defense, as for any other program, are necessarily limited. The Secretary of Defense and the coordinating agencies provided by this act are now engaged in reviewing the missions and programs of the services in order to attain the most effective defense possible within these limits.

In this Budget, we provide only for the minimum requirements of the National Military Establishment. For the Air Force, the

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Budget will permit a higher level of maintenance and operation, with a considerable increase in aircraft procurement. For the Army, it will provide for improved equipment for small, highly mobile tactical ground forces, as well as for occupation troops and their support. For the Navy, it will provide for maintaining the fleet and naval aviation at the 1948 strength, but with increased aircraft procurement.

One basic element of a balanced national security program which I have repeatedly urged—universal training—is still lacking. A national program of broad training for all young men is necessary to provide a firm base for small standing forces to be augmented, when necessary, by trained reserve components. Such training should make possible an ultimate reduction in our standing forces. In anticipation of early approval by the Congress of a program of universal training along the lines recommended by the Advisory Commission on Universal Training, I have included 400 million dollars in the expenditure estimate for the fiscal year 1949. This is the first-year cost of a program which in full operation will cost about 2 billion dollars annually.

NATIONAL DEFENSE

Expenditures.—A net increase of 279 million dollars in total national defense outlays is estimated in fiscal year 1949. Apart from readjustments in the expenditures of the Air Force, Army, and Navy, the most substantial increases are for universal training and stockpiling, and the largest decreases are in terminal-leave payments and other war liquidation expenses.

This Budget is the first to provide for a full year's operation of the facilities established by the National Security Act of 1947 for coordination and direction of our defense, both within the National Military Establishment and by the National Security Council and the National Security Resources Board.

Expenditures for Air, Army, and Naval defense are estimated at more than 10.3 billion dollars for the fiscal year 1949—slightly less than in the present year. These expenditures cover pay and maintenance of military personnel, civilian-reserve components, research and development, aircraft procurement, naval ship construction, and military and naval public works, as well as other equipment and general operating expenses. Each of these is discussed in the following paragraphs.

Pay and maintenance of military personnel, excluding civilian reserves, in the fiscal year 1949 will require an estimated 4.7 billion dollars, or 45 percent of the 10.3 billion dollars. This estimate will provide for an average military strength of 1,423,000 officers and enlisted personnel in the Air Force, Army, and Navy for the fiscal year 1949, about the same as the current strength of the armed forces. Existing recruitment inducements appear to be adequate to maintain these forces. Pay, subsistence, travel, welfare, training, clothing, and medical expenditures will average about 3,300 dollars a man in the armed forces—nearly two and one-half times the cost a decade ago.

For the civilian-reserve components, estimated expenditures for the fiscal year 1949 are nearly 600 million dollars, an increase of about one-half from the present year. This includes 13 million dollars under proposed legislation, mainly for additional drill pay. These organizations are also being provided with equipment, facilities, and supplies procured and paid for during the war.

Expenditures for military research and development—exclusive of those for atomic weapons, construction of facilities, and pay of military personnel engaged on research projects—will remain at about 550 million dollars in the coming year. A large proportion of these expenditures will be in aviation and related fields.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Increased replacement of aircraft is essential in the fiscal year 1949 to support our air arms at the planned levels. Wartime reserves of planes and parts are becoming depleted or obsolete. Expenditures for procurement of complete aircraft in fiscal year 1949 are estimated at 900 million dollars—an increase of about 150 million dollars over the current year. Expenditures in 1950 for this purpose will rise again as a result of the proposed increase of over 30 percent in 1949 authorizations. The plans for the Air Force contemplate operation of 55 combat groups and 17 separate squadrons.

Estimated expenditures for naval ship construction will amount to 312 million dollars in the fiscal year 1949, an increase of 34 million dollars over 1948. At present the Navy is required by law to complete certain ships authorized and started during the war. To assist in modernizing the fleet, I recommend that this provision be repealed. The partially completed ships would then be held in reserve. I also recommend that 230 million dollars of the money that would have been spent to complete these ships and convert them to advanced design be used for the construction, during the next few years, of improved types of vessels. This substitution will mean a more efficient fleet.

For construction of military and naval public works, expenditures for fiscal year 1949 are estimated at 334 million dollars, as compared with 409 million dollars in the current year. Both estimates include anticipated expenditures under legislation now pending before the Congress to provide essential housing for troops in the United States and overseas and other construction of high priority, such as research facilities.

The remaining expenditures of about 2.9 billion dollars for the defense activities of the National Military Establishment are for equipment, supplies, and civilian pay roll for maintenance and operation. In the fiscal year 1949 the bulk of this expenditure will be to pay civilian workers engaged in industrial, supply, maintenance, and administrative activities, overseas and in the United States, on defense programs. About 40 percent of all Federal civilian employees will be engaged in defense activities. Procurement of equipment and supplies other than aircraft will be limited chiefly to developmental and test items and some new equipment for ground force units. Limited provision is made for the maintenance of stand-by plants and facilities and for industrial mobilization planning.

Aside from the National Military Establishment, the most important expenditures for defense activities in 1949 will be for military stockpiling, particularly to build up reserves of those raw materials and

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

supplies which must be obtained from overseas sources that might be cut off in time of war. Although procurement of materials for the strategic stockpile is behind schedule, the estimated expenditures for procurement in the fiscal year 1949 are held to 285 million dollars because of the urgent need for such materials to promote world recovery, and the prevailing shortages with attendant high prices. In addition to the new procurement, transfers from Government-owned stocks to the stockpile which began in 1947 will continue, with expenditures of 20 million dollars for processing in fiscal year 1949. The value of these transferred materials will amount to an estimated 400 million dollars in all by the end of the fiscal year 1949.

Appropriations and other authorizations.—Appropriations of 10.3 billion dollars will be necessary for national defense in the fiscal year 1949. This amount includes estimates of 500 million dollars in appropriations for universal training and 61 million dollars for other proposed legislation, largely for military construction.

Excluding 565 million dollars in appropriations to liquidate obligations under prior contract authorizations, the new appropriations recommended for the fiscal year 1949 amount to 9.7 billion dollars. In addition, new contract authorizations of about 1.2 billion dollars are required—923 million dollars for aircraft procurement, 65 million dollars for public works, and 230 million dollars for naval ship construction.

Thus, I am recommending new authority to obligate totaling 10.9 billion dollars in the fiscal year 1949, which will permit expenditures both in 1949 and later years. Of this amount nearly 50 percent will be devoted to defense aviation. For 1948, the corresponding total authority to obligate is 10.4 billion dollars. The increase is mainly for the proposed universal training program and for strategic stockpiling.

I am also requesting authority to continue available for expenditure an estimated 380 million dollars of appropriations obligated in the fiscal year 1946 and earlier years, largely for aircraft procurement contracts and for military construction. This extension will permit liquidation of outstanding contracts on which deliveries have been delayed.

Appropriations for major activities of the Air Force and the Army have not yet been separated. In addition to obligations under direct appropriations to the Department of the Air Force, about half of those by the Department of the Army in the fiscal year 1949 will be for the Air Force. The complete recasting of the appropriations structure necessary to separate the accounts of these two Departments

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

is now in process, but could not be completed in the short time since the passage of the National Security Act.

INTERNATIONAL AFFAIRS AND FINANCE

Our new international programs for European aid have been fully presented to the Congress in recent messages. The appropriation already enacted will provide "stopgap" assistance through next March to the European countries in most urgent need—France, Italy, and Austria—as well as aid to China. It is essential that we move as soon as possible to a positive program for promotion of European recovery.

In addition to the European recovery program, other international-aid programs for several countries, including China, are provided for under proposed legislation. Definite recommendations on these programs will be transmitted shortly. Also, I urge again enactment of the inter-American military cooperation bill proposed last May. Estimates of appropriations and expenditures for this group of programs have been included in the Budget.

Expenditures.—By far the largest international expenditures in the fiscal year 1949 will be under the European recovery program—4 billion dollars, in addition to 500 million dollars in the fiscal year 1948. Expenditures under other proposed legislation for aid are estimated at 60 million dollars in the fiscal year 1948 and 440 million dollars in the fiscal year 1949.

The Export-Import Bank will continue in the fiscal year 1949 to make loans to expand international trade and promote economic development, particularly in the Western Hemisphere. The need for such loans will decline, however, when the dollar problem of Western Hemisphere countries is eased as a result of purchases in these countries under the European recovery program. Disbursements of the Bank's funds will also decline because its large loan authorizations to several European countries are rapidly being exhausted during the current fiscal year. Plans for the European recovery program call for use of the Bank's facilities to administer loans made under the new program.

The largest expenditures for foreign relief now fall under the occupied-areas program. These expenditures are handled by the Army and are chiefly for shipments of goods to prevent disease and unrest. They will increase in both the 1948 and 1949 fiscal years. The increase in 1948 will be caused largely by sharply higher prices, a severe German crop failure, extensive storm damage to Japanese crops, and the British dollar shortage. Since the United Kingdom is no longer able to meet dollar costs for essential supplies for the bizonal area of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Germany the United States is now assuming this expense. The British will continue to finance purchases from sterling areas. Expenditures under this program will increase still further in the fiscal year 1949 because all dollar costs of imports for relief in the bizonal area must be paid by the United States for the entire fiscal year.

Federal Reserve Bank of St. Louis

Payments to the Philippine Republic to make partial compensation for war damage and to aid in its rehabilitation are now increasing. I renew the recommendation that the Congress enact legislation to carry out our pledge to provide certain benefits to Philippine veterans.

Estimates for the fiscal years 1948 and 1949 for membership in international organizations include disbursement of part of a proposed loan to the United Nations for construction of permanent headquarters.

The budget for the Department of State includes amounts needed under proposed legislation to carry out an effective foreign informational and cultural program. This program is essential in order to present to the world an accurate picture of United States policies and to counter misleading propaganda. An adequate information program will greatly increase the effectiveness of our international political and economic policies, especially in Europe.

Appropriations.—A supplemental 1948 appropriation of 6.8 billion dollars is included in this Budget for the first 15 months of the European recovery program. This appropriation would be available for obligation through the fiscal year 1949, and would be used mainly in that year. Experience with programs involving similar procurement problems indicates that the margin between the recommended appropriation and the 4.5 billion-dollar expenditure estimate during the same period is reasonable. To permit systematic and economical placement of orders for later delivery, appropriations must be substantially greater than expenditures in the initial phase of the program. In addition, bills for a portion of the goods shipped in one fiscal year are not paid until the following year, and this lag of expenditures is particularly significant in a large new program.

Other recommended 1948 supplemental appropriations, to be spent mainly in 1949 and later years, include 300 million dollars for other foreign-aid programs, 65 million dollars for the loan to the United Nations for headquarters construction, and smaller amounts for Department of State programs.

Because of the large supplemental appropriations for international activities recommended for the fiscal year 1948, appropriations for 1949 total only 2.1 billion dollars. The two main items are 1,250 million dollars for the Army programs in occupied areas and an estimate of 450 million dollars for aid programs under proposed legislation. Recommended appropriations totaling 133 million dollars for Philippine programs are below estimated expenditures because a portion of

Digitized for FRASER

the appropriations for the current year will remain available for expenditure next year.

VETERANS' SERVICES AND BENEFITS

During the past year about 900,000 World War II servicemen returned to civilian life, increasing the number of World War II veterans to 14.7 million and the total veteran population to 18.6 million. Within a decade, veterans and their immediate dependents will constitute more than two-fifths of our entire population. Many of our veterans have rights under more than one provision of Federal law and, although the readjustment program has now passed its peak, veterans' benefits will remain a large part of the Federal Budget for many years to come.

VETERANS' SERVICES AND BENEFITS

Total	7,370	6,632	6,102	5,154

While the veterans' program has largely accomplished its original purposes, certain aspects of the Servicemen's Readjustment Act need modification. The law is being used in some cases to provide training for avocational or leisure-time activity at high cost to the Government and without commensurate benefit to veterans. The

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Veterans' Administration does not have adequate authority to limit the expenditure of funds under this act to constructive educational and vocational programs. A reexamination of the basic purposes of the law and suitable modification of its provisions should result in substantial savings. These savings should more than offset such limited increases of other benefits as may be justified.

Expenditures.—Expenditures for readjustment benefits in the fiscal year 1949 will amount to an estimated 2.6 billion dollars—a decline of 756 million dollars from expenditures in the current year.

College, school, and job training is now expected to reach its peak in the fiscal year 1948, with an average of 2,250,000 veterans enrolled. For the fiscal year 1949, average enrollment is expected to fall to 1,730,000 students and trainees. The number will decline in all programs except institutional on-the-farm training.

In recent months the number of veterans drawing unemployment and self-employment allowances has been substantially smaller than previously expected. The 1948 appropriations approved by the Congress provided for an average of 925,000 on the rolls. The present estimates provide for an average of 625,000 in the fiscal year 1948, with a further reduction to 390,000, on the average, in the fiscal year 1949.

Under the loan-guarantee provisions of the Servicemen's Readjustment Act, veterans obtained about 635,000 loans amounting to 3.6 billion dollars in the fiscal year 1947. About 90 percent of the loans are on residential property and the remainder are for business or farm purposes. The Government's obligation under the guarantee and insurance provisions runs to nearly one-half of the face value of these loans. In addition, the Government makes on behalf of the veterans a principal payment equal to 4 percent of the guaranteed portions of the loans. The estimates provide for continuation of the 1947 rate for the loan-guarantee program in both the fiscal years 1948 and 1949. However, in both years higher expenditures will be required to meet losses and to permit property acquisitions under loan defaults.

Compensation and pension payments to veterans and their dependents are estimated on the basis of an average of 2,923,000 claimants in fiscal year 1948 and 3,010,000 claimants in fiscal year 1949. The expenditure estimate of 2.1 billion dollars for 1949 includes 242 million dollars for subsistence allowances for disabled trainees and students.

New hospitals and domiciliary facilities are necessary to provide for the increasing number of veterans who apply for care. The

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

construction and improvement of facilities to cost over 1.1 billion dollars has already been authorized by the Congress, but has been delayed by unduly high bids and by shortages of materials. The present expenditure estimates assume that one-half of the work on the total authorized program will be completed by the end of the fiscal year 1949.

The operating expenses of the medical, hospital, and domiciliary-care program of the Veterans' Administration will increase substantially again in the fiscal year 1949, largely because of the steady rise in patient load, which will average 148,000 in fiscal year 1949. The out-patient care program will cost slightly less in the fiscal year 1949 than in the current year, but will provide treatment for over 6 million veterans.

Declining work loads and improvements in administrative procedures will reduce operating and administrative expenditures for other programs.

Expenditures for insurance, mostly transfers to the national service life insurance trust fund, will continue to decline in 1949. The cumulative cost to the Government of insurance due to war hazards in World War II will exceed 3.6 billion dollars by the end of the fiscal year 1949.

Trust accounts.—Premiums from veteran policyholders, supplemented by Government payments to cover war hazards, have resulted in substantial accumulations in the national service life insurance and Government life insurance trust funds. The assets of the national service life insurance trust fund will reach an estimated 7.3 billion dollars by June 30, 1949.

VETERANS' LIFE INSURANCE FUNDS

Federal Reserve Bank of St. Louis

A dividend estimated at between 1 and 2 billion dollars will probably become payable to the servicemen who hold or have held national service life insurance. This dividend cannot be paid, however, until the financial liabilities of the fund and its legal status are determined. Because of these uncertainties, the payment of the dividend is not now included in estimated trust account expenditures. The Veterans' Administration is gradually catching up on the processing of the basic insurance records. The general contingency reserve includes expenditures to administer payment of the dividend if the exact status of the fund is clarified during the fiscal year 1949.

Appropriations and other authorizations.—To cover the expenditures necessary for veterans' programs, appropriations of 5.2 billion dollars are recommended for the fiscal year 1949. The difference of about 950 million dollars between estimated expenditures and appropriations will be covered by unexpended balances from fiscal year 1948 and prior appropriations.

The appropriations estimated for the fiscal year 1949 include 230 million dollars to liquidate obligations incurred under contract authorizations for the hospital and domiciliary construction program. New contract authorizations of 43 million dollars are also requested, in part for modernization of hospital facilities and in part to cover the increased construction cost of previously authorized hospitals.

SOCIAL WELFARE, HEALTH, AND SECURITY

In the existing social security programs we have a tried and successful framework within which to construct an integrated, comprehensive system providing for all citizens some protection against the major economic hazards of our society. We have made real progress toward our objective, but it is still far from realized.

From time to time I have proposed measures which, taken together, would complete our present system to a substantial degree, and would provide protection increasingly on a social insurance basis. I intend shortly to discuss this legislative program in a special message to the Congress. Some of the proposals would have immediate fiscal effects, and I have accordingly included estimates for the following items:

Old-age and survivors insurance.—Extension of coverage to all gainful workers, including agricultural and domestic employees, farmers, and other self-employed persons.

Increases in individual benefit amounts and in the maximum amount of earnings taxable.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Health program.—Provision of a national system of health insurance and improved services and facilities for public health and medical care.

Unemployment compensation.—Extension of coverage to employees of small businesses and as many other groups as feasible.

Public assistance.—Broadening of Federal aid to include general assistance, and allotment of Federal grants for public assistance so as to relate them to the financial resources and needs of each State.

Other proposals, such as temporary and permanent disability insurance benefits, would not affect estimates for the fiscal year 1949.

SOCIAL WELFARE, HEALTH, AND SECURITY

(*Excluding trust accounts*)

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949

Expenditures.—My recommendations for legislation involve Budget expenditures estimated at 116 million dollars in the fiscal year 1949, mainly for revisions of public assistance and initial administrative costs of the medical-care program. The other proposals would be self-financed through trust accounts.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Federal grants to States for the administration of unemployment compensation—the only Budget expenditure for this Federal-State program—are projected for fiscal year 1949 at slightly above the level for the current year. This rise reflects higher State salaries and operating costs.

Railroad retirement expenditures for retirement and dependency insurance, which consist almost entirely of transfers to the railroad retirement trust account, are determined by railroad pay-roll tax receipts. These are expected to remain at their present high level throughout the fiscal year 1949. The estimate for the current year is unusually high because it includes approximately 200 million dollars properly allocable to previous years' operations which could not be transferred until the necessary appropriation was enacted early in the fiscal year 1948.

An increase in expenditures for assistance to the aged and other special groups in the fiscal year 1949 is occasioned by higher anticipated public assistance payments. Recently the Congress extended until 1950 the temporary increase in the Federal share of these payments. In view of the upward trend in both benefit levels and case loads, the Federal expenditures for this purpose under existing legislation are expected to continue to rise. An additional 100 million dollars for public assistance has been included as an estimate of expenditures under the proposed legislation for improving this program.

An increase in Federal Security Agency expenditures for public health work in 1949 results primarily from progress in the Federal-aid hospital construction program, and from some expansion in other grants-in-aid and in research activities. The expenditure estimates include 1.4 million dollars for surveys under the stream pollution abatement program now under consideration by the Congress. The rise in Federal Works Agency expenditures for health purposes is in items for construction of hospital and research facilities in and near the District of Columbia.

Trust accounts.—All social insurance benefit payments are made directly from trust funds. The handling of contributions varies. Thus, the pay-roll taxes collected by the States to finance unemployment compensation are deposited directly in a Federal trust account, as are nearly all the taxes collected for railroad unemployment insurance. For the railroad retirement system, pay-roll tax collections are included in Budget receipts and the transfers to the trust account appear as Budget expenditures. The proceeds of Federal pay-roll taxes which finance old-age and survivors insurance are trans-

Digitized for FRASER

Federal Reserve Bank of St. Louis

ferred to the trust account without affecting expenditures; the transfer is made through a deduction from receipts and an equal credit to the trust account.

SOCIAL WELFARE, HEALTH, AND SECURITY

(Major trust accounts)

Receipts from pay-roll contributions	----	----	150
Payments of benefits	----	----	----
Net accumulation	----	----	150

All major social welfare trust funds will continue to accumulate assets in the fiscal year 1949. Excepting the unemployment trust fund, they are retirement funds which will, for some time, accumulate

770000—48——III

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

reserves against future benefit payments. By the end of the next fiscal year, these assets should reach 16 billion dollars.

The unemployment insurance system is related more immediately than the others to the level of economic activity. With continuing full employment, its assets should continue to accumulate, bringing the total up to approximately 9 billion dollars by the end of fiscal year 1949.

Broader coverage under old-age and survivors insurance would be financed by extending the pay-roll tax at the rates provided by present law to the newly insured persons and their employers. These old-age pay-roll tax collections would suffice for several years to finance more liberal benefits for both present and prospective beneficiaries.

The estimates for the health insurance program assume a total initial pay-roll tax of one-half of 1 percent of individual salaries up to 4,800 dollars a year, effective January 1, 1949, to furnish a basis for establishing eligibility for benefits and to build up an operating reserve. After a year or two of accumulation at this low rate, the permanent contribution rate would go into effect and the system would begin to provide benefits on a basis which is mainly self-financing.

The recommended broadening of social insurance would increase both the receipts and expenditures of the trust accounts over what they otherwise would have been. For the immediate future, however, these increases would be greater in pay-roll contributions than in benefits. This net accumulation is useful at this time as an anti-inflation measure.

Appropriations and other authorizations.—Appropriations recommended for social welfare, health, and security exceed estimated expenditures for the fiscal year 1949 principally because the appropriation requested for the Railroad Retirement Board includes authorization to transfer to the trust account during the current fiscal year part of the taxes to be collected in this year. Wage increases in the railroad industry have resulted in higher pay-roll tax collections than were estimated when the appropriation for the current year was enacted.

Besides the appropriations, contract authorizations of 119 million dollars are recommended for public health programs. This total includes 75 million dollars for the Federal-aid hospital construction program, 26 million dollars for research and hospital facilities for the Public Health Service, and 18 million dollars for the District of Columbia hospital center. Included in the recommendations for 1949 is an appropriation of 60 million dollars to liquidate the prior year's contract authorization for Federal-aid hospital construction.

Federal Reserve Bank of St. Louis

HOUSING AND COMMUNITY FACILITIES

Since last fall the number of dwelling units built has been greater than in any comparable period in our history. But many families most in need of housing, particularly veterans, cannot afford to pay present high prices.

The Federal housing program, under present legislation, places primary emphasis upon assuring adequate credit through guarantees of mortgage loans for builders and veterans—including guarantees by the Veterans' Administration, classified under veterans' pensions and benefits. These credit aids have accelerated construction and increased the proportion of old and new homes going to veterans. These emergency aids have temporarily replaced most of the activity under the permanent mortgage insurance program.

In recent months, however, available credit has tended to outrun available production, and thus has helped to keep construction costs and housing prices at unreasonably high levels. The Housing and Home Finance Administrator, with the assistance of the National Housing Council, is tightening standards employed in administration of existing loan-guarantee programs—including guarantees of loans both on new construction and on existing homes. He is also preparing legislative proposals designed to strengthen the permanent programs and to taper off the special credit aids necessary during the war and reconversion periods. As long as inflation persists, such emergency aids should be limited to the types of construction most urgently needed, particularly rental housing and lower-cost housing.

Both private enterprise and local public agencies need a broader long-range program of assistance from the Federal Government. I again recommend enactment of comprehensive housing legislation. Besides establishing a better basis for Government assistance to private enterprise, such legislation is necessary to provide Government assistance through local public agencies for the sizable minority of our people whose incomes are insufficient to pay the full cost of decent housing. The Budget includes estimated first-year expenditures under such proposed legislation. These expenditures would largely prepare the way for later expansion in loans and grants for low-rent housing, urban redevelopment, and farm housing; for insurance of direct investments in large-scale rental housing; and for basic technical and economic research.

Fundamental to all progress in raising the housing standards of our people is a substantial reduction in the current excessive level of housing costs. While cost reductions are primarily the responsibility of private industry and labor, the Federal Government should provide

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

assistance wherever possible. The Housing and Home Finance Administrator is organizing a series of conferences with representatives of local government, industry, and labor, designed to speed the removal of existing obstacles to lower costs.

The greatest promise of additional cost reduction lies in development and use of improved materials and methods, and in revision of obsolete building codes to permit their use. With the assistance of the Bureau of Standards and other Federal agencies, the Housing and Home Finance Administrator is working out a program of technical research to supplement industry programs. The Administrator will make the results of these studies available in usable form to builders, local public agencies, and others who can translate them into actual cost savings or quality improvements.

I also urge the Congress to authorize the Federal Works Agency to make additional commitments for repayable advances to States and localities for planning community facilities and other nonhousing public works. This would revive the authority which expired on June 30, 1947. Detailed public works plans are indispensable if State and local governments are to apply public funds efficiently in construction work. Only through such advance planning can useful public works be ready to initiate when needed, and when conditions are favorable for their construction.

Expenditures.—All Federal programs to furnish financial aids to private housing will show net receipts in the fiscal year 1949. With continuing high prosperity, liquidation of previous loans will remain high, and disbursements to cover losses on guarantees of private loans will be low.

The 1949 budget of the Federal Housing Administration assumes that new insurance commitments will be limited to mortgages which do not exceed a reasonable percentage of long-run value. The emergency program permitting insurance of mortgages on the basis of current costs expires on March 31, 1948. It is my hope that, if further extension proves necessary, it will be for a very limited period and that the emergency program can be progressively curtailed. Even with more conservative operations, the Federal Housing Administration expects to aid in financing almost a quarter of the houses built in the fiscal year 1949. As long as employment and income continue high, foreclosures will be few, and receipts from insurance premiums and other sources will continue to exceed expenditures (excluding investments). Thus, further substantial additions can be made to reserves available to meet future losses.

[1] Less than one-half million dollars.

The Federal Savings and Loan Insurance Corporation, under the supervision of the Home Loan Bank Board, now insures over 7 billion dollars in share accounts of savings and loan associations. The Federal home loan banks, also under the supervision of the Home Loan Bank Board, supervise the operations of member savings and loan associations and provide a reservoir of credit to meet the needs of such associations. To minimize demands upon the Corporation and the banks in future years, extension of excessive or unsound mortgage credit must be avoided. As part of the anti-inflation program, I have requested the Housing and Home Finance Administrator to review existing regulations and policies with the Home Loan Bank Board and to propose any legislation that may be necessary to strengthen this important part of our financial structure.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Repayments are continuing on the depression loans made by the Home Owners' Loan Corporation, but at a diminishing rate as the outstanding loans decrease. By the close of the fiscal year 1949, borrowers will have repaid all but 309 million dollars of the 3.5 billion dollars advanced by the Corporation.

The new charter of the Reconstruction Finance Corporation drastically curtails the Corporation's authority to purchase mortgages. The authority to make premium payments to stimulate building-materials production has expired.

Management and disposition of war housing accounts for most of the expenditures estimated for public housing programs in the fiscal year 1949. Almost all of the 18-million-dollar increase of expenditures for low-rent housing represents net purchase of local housing authority obligations in order to refinance war-built projects on a permanent basis. Annual contributions to local authorities will increase moderately as projects are returned to low-income occupancy.

Federal expenditures for construction of public housing in the fiscal year 1949 will be limited to small amounts for resumption of a few low-rent projects authorized before the war. Construction of temporary re-use housing for veterans will be virtually completed in the current fiscal year.

Liquidation of the Defense Homes Corporation will be completed by the end of the current fiscal year. The Corporation will return to the Treasury the entire capital investment of 10 million dollars and also an estimated earned surplus of more than 2 million dollars.

This Budget provides for a small staff under the Housing and Home Finance Administrator to coordinate Government housing activities and to make technical information and assistance generally available to the housing industry and State and local officials. Except for proposed extension of rent control, classified under finance, commerce, and industry, the functions of the Housing Expediter terminate in the current fiscal year.

Repayable advances under the original authorization by the Federal Works Agency to State and local governments for planning nonhousing public works projects will amount to 16 million dollars in 1948 and 12 million dollars in 1949. The Budget provides for an additional 10-million-dollar expenditure under the proposed renewal of this authority. Other community facility programs of the Agency are relatively small.

The Reconstruction Finance Corporation, in the fiscal year 1949, will disburse an estimated 32 million dollars in excess of repayment on loans to local public agencies for public works construction,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Appropriations.—Of the 292 million dollars in appropriations required to finance existing and proposed programs in 1949, an estimated 57 million dollars will be necessary to inaugurate the proposed long-range housing program and to make advances for State and local public works planning under proposed legislation. Annual appropriations of 8 million dollars are recommended under existing legislation mainly to provide for annual contributions for low-rent housing projects.

Five permanent indefinite appropriations account for the remaining 227 million dollars. Of this total, 54 million dollars covers current expenses for management and disposition of war housing and veterans' re-use housing. The remaining 173 million dollars in the permanent indefinite appropriations is the estimated excess of current receipts from rental and sales of war housing and veterans' re-use housing over current expenses, to be deposited in miscellaneous receipts in the fiscal year 1950 without being reflected in expenditures.

EDUCATION AND GENERAL RESEARCH

The American people have long recognized that provision of an adequate education for everyone is essential in a democratic system of government. It has become evident in recent years that the financial resources of many States and their subdivisions are not sufficient to meet minimum educational standards. Therefore, I urge the Congress to take prompt action to provide grants from the Federal Government to the States for elementary and secondary education. The Budget estimates provide for beginning this program in the fiscal year 1949.

The Budget estimates also assume the creation of a National Science Foundation. In the Budget Message last year, I recommended the establishment of an agency to encourage fundamental scientific research. The Congress passed a bill to create a National Science Foundation, but the bill included unacceptable administrative provisions and I was obliged to disapprove it. I hope that the Congress in this session will pass a bill for this purpose in keeping with the principles of responsible and efficient administration.

Expenditures.—Apart from the proposed grant program, nearly all the estimated increase in 1949 in expenditures for the general promotion of education is due to the increase in vocational education grants authorized by the Congress in 1946. Expenditures of the Federal Works Agency for the maintenance and operation of schools in war-affected communities will be practically completed during the current fiscal year.

EDUCATION AND GENERAL RESEARCH

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Promotion of education:				
Office of Education (Federal Security Agency):				
Aid for education (proposed legislation)	----	----	$290	$300
Present programs	$28	$34	42	44
Federal Works Agency and other	5	4	(1)	(1)
Educational aid to special groups:				
Bureau of Indian Affairs (Interior)	11	12	12	12
Howard University (Federal Security Agency) and other	3	4	7	4
Library and museum services	8	9	10	10
General-purpose research:				
Department of Commerce:				
Radio propagation building (proposed legislation)	----	----	1	1
Other	15	15	19	20
Office of Scientific Research and Development (Office for Emergency Management)	5	(1)	----	----
National Science Foundation (proposed legislation)	----	----	5	15
Other agencies	(1)	(1)	1	1
Total	76	77	387	407

[1] Less than one-half million dollars.

The increase in expenditures for library and museum services is due to a slight expansion in activities in the Library of Congress and the Smithsonian Institution.

For general-purpose research, the principal expenditures are by the Bureau of the Census and the Bureau of Standards, both in the Department of Commerce. The increase for the fiscal year 1949 arises chiefly from preparatory work in the Bureau of the Census for the seventeenth decennial census in 1950 and from expenditures for the research and standards work of the radio propagation laboratories of the Bureau of Standards.

In addition to the expenditures for general and multipurpose programs included in this function, many agencies of the Federal Government carry on education or research activities which are a part of their specialized activities and which are, therefore, included as expenditures for other functions. For example, there are the education benefits of the Veterans' Administration, the scholarship pro-

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

grams of the State and Navy Departments, the Agricultural Extension Service, the fellowship program of the Public Health Service, and the research activities of the National Military Establishment, the Atomic Energy Commission, and the Departments of Agriculture and Interior.

Appropriations.—For the fiscal year 1949, the total of appropriations for education and general research is 407 million dollars, of which 316 million dollars is an estimate of supplemental appropriations which will be required under proposed legislation and 91 million dollars is for programs under present law. The estimated appropriation for the National Science Foundation is 10 million dollars above the estimated expenditure because contracts to be made in the first year of operation will require expenditures in later years. Only 3 million dollars of appropriations is required for Howard University, since expenditures for construction will be financed in part from earlier-year appropriations.

AGRICULTURE AND AGRICULTURAL RESOURCES

At the present time, American agriculture is in the best financial condition in history. Agricultural prices in recent months have been at an all-time high—nearly three times the level of 1940. Net farm income in 1947 was approximately 18 billion dollars—three and one-half times the average net farm income in the years 1935–39. Farm debts were reduced greatly during the war years and have remained at low levels.

The Government's present commitment to support the prices of most agricultural commodities at not less than 90 percent of parity will continue until December 31, 1948. At present, however, the world-wide shortage of food has raised the prices of all but a few agricultural commodities well above support levels.

Price support will be needed in the future, but the parity formula should be revised to reflect basic changes in price relationships and improvements in agricultural technology. Price supports should be regarded chiefly as devices to safeguard farmers against forced selling under unfavorable conditions and economic depression. However, they should be revised so as not to be so high as to encourage overproduction of particular commodities, which sometimes can occur even under conditions of full employment.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

The authority of the Commodity Credit Corporation, which is the principal agency for carrying out our price support programs, was temporarily extended to June 30, 1948. I recommended a year ago, and I recommend again, that the Corporation be rechartered by act of Congress with a Federal charter in place of its present State charter, and that its present capital and borrowing authority be renewed.

AGRICULTURE AND AGRICULTURAL RESOURCES

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Loan and investment programs:				
Department of Agriculture:				
Commodity Credit Corporation:				
Present programs	$264	−$247	$12	----------
Proposed legislation	----------	----------	−50	----------
Farmers' Home Administration (including Reconstruction Finance Corporation funds)	7	75	113	$115
Rural Electrification Administration (including Reconstruction Finance Corporation funds)	185	305	325	5
Return of capital to miscellaneous receipts	3	31	68	----------
Other corporate transactions	−93	−78	−30	7
Other	−3	−1	−2	1
Other financial aids:				
Department of Agriculture:				
Conservation and use	339	227	176	150
Exportation and domestic consumption	77	57	47	[1] 135
Sugar Act	55	55	69	72
Food subsidies (Commodity Credit Corporation and Reconstruction Finance Corporation)	222	8	----------	----------
Agricultural land and water resources	49	50	51	50
Development and improvement	142	131	125	121
Total	1,248	614	906	655

[1] Rescission of 91 million dollars of this permanent appropriation is proposed.

Expenditures.—The largest factor in the fluctuation of total agricultural expenditures is the change in the various price support, supply, and purchase programs of the Commodity Credit Corporation. Advances under the contract to purchase Cuban sugar in June 1947, for example, largely account for net expenditures of 264 million dollars in the fiscal year 1947, and likewise, the subsequent sale is largely responsible for the net receipts now expected for 1948.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

By 1949, net cash outlays for price support and supply programs will be small because agricultural prices on the whole are expected to be above support levels, and reimbursements from other agencies and cash-paying foreign governments should offset expenditures for procurement of agricultural commodities. However, price support will probably be required for commodities such as potatoes, eggs, wool, and tobacco.

Under proposed legislation, a saving of 50 million dollars has been included as an estimate of the possible effects of revision of the parity formula and the level of price support.

The programs of the Farmers' Home Administration were greatly curtailed during the war period. I am asking for a small increase in administrative funds and a 15-million-dollar increase in funds for production and subsistence loans in order to meet a small part of the need for essential production credit for low-income farmers. The increase in expenditures of the Farmers' Home Administration does not reflect changes in its program, but is due primarily to changes in the method of accounting for loan repayments by farmers. In 1949 such repayments, made directly to the Treasury, will amount to an estimated 111 million dollars.

Electrification of rural areas, held back during the war years, has greatly accelerated since 1945, and will continue to expand in the fiscal year 1949 as rapidly as materials become available. Except for administrative expenses, the entire expenditure figure represents loan disbursements to local cooperatives and other borrowers.

Other corporate transactions reflect the high level of farm prosperity, which has enabled farmers in recent years to make large repayments on their mortgage indebtedness. Repayments will continue in 1949, though at a reduced rate.

In accordance with the 1948 Agriculture Appropriation Act, commitments for payments to farmers under the conservation and land-use program will be reduced for the crop-year 1948, causing a decline in expenditures in the fiscal year 1949. It is necessary, however, that this program be restored in order to prevent a serious reduction in the fertility of our soil as a result of the high production induced by heavy foreign and domestic demands for agricultural products. I therefore ask the Congress to make more adequate provision for the conservation and use program by authorizing a 300-million-dollar program for the 1949 crop year. Expenditures under this program will occur largely in the fiscal year 1950.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

With the present high agricultural prices, expenditures for various surplus disposal programs under the permanent appropriation for exportation and domestic consumption of agricultural commodities can be reduced in the fiscal year 1949. On the other hand, expenditures under the Sugar Act of 1948 will be increased to make payments to sugar growers at the rates specified in the act and to cover payments owed to sugar producers in Puerto Rico—payments which were not made because of the appropriation limitation of 55 million dollars previously in effect.

The programs of the Federal Government to encourage research, education, and demonstration work, which are carried on by the Extension Service, the Soil Conservation Service, and the scientific research agencies of the Department of Agriculture, are included in "agricultural land and water resources" and "development and improvement." Expenditures for these two categories show a small net decline in 1949.

Appropriations and other authorizations.—To carry out our agricultural programs, I recommend that the Congress appropriate 655 million dollars for the fiscal year 1949. This includes 150 million dollars for conservation and use to carry out the commitment authorized by the Congress for the 1948 crop year. In addition, I recommend new borrowing authority of 300 million dollars to finance Rural Electrification Administration loans—an increase of 75 million dollars over the amount authorized for 1948. On the other hand, since not all of the permanent appropriation of 135 million dollars for exportation and domestic consumption of surplus agricultural commodities will be required, I recommend the return to the Treasury of 91 million dollars of this permanent appropriation.

The recommended appropriation of 121 million dollars for the various programs included in development and improvement of agriculture reflects several changes. It contemplates an increase of 10 million dollars for grants to States, marketing research, and other research under the Research and Marketing Act of 1946. This increase will be offset by a decline of 10 million dollars in the appropriation for the Bureau of Animal Industry. Other increases and decreases will be small.

NATURAL RESOURCES

The key objectives of the natural resources program in the fiscal year 1949 are to find new reserves, to reduce destruction and waste, to discover new applications of resources, to promote greater reliance

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

on resources known to be abundant, and particularly to develop the use of atomic energy.

Heavy demands on our natural resources during and since the war have made it necessary for us to take action aimed at more careful husbandry of these resources. In achieving new high levels of industrial production we have depleted our storehouse at a faster rate than ever before. In addition, our soils, water supplies, minerals, and forests available for constructive use are being diminished by avoidable wastage.

Our heritage is not so great that we can afford to overlook the growing deficiencies. Although some of our resources are practically inexhaustible, others are rapidly being depleted. Still other resources we possess only in insignificant quantity or lack completely.

The expenditures included in the Budget for 1949 are not sufficient to provide all the conservation and new development necessary to prevent a further decline in our available resources. They will, however, enable us to make moderate progress toward a more nearly sustaining basis.

NATURAL RESOURCES

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949

http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Expenditures.—Our responsibilities for safeguarding the national defense and developing peacetime applications of atomic energy require new laboratories, new production plants, and training of an increasing number of scientists and technicians. Increased expenditures in the fiscal year 1949 are required.

Last July the Congress provided for acceleration of our program for flood control and stream-flow regulation. This action was based in large part on the recommendations which I submitted at that time. The increases estimated for the Corps of Engineers in the fiscal year 1949 are needed for the orderly execution of this program. Almost all of the expenditures will be required to carry forward projects under way in the fiscal year 1948.

The reclamation program brings new resources into use. The base has already been set for this program. Even without the addition of any new major projects, expenditures of the Bureau of Reclamation will increase by 85 million dollars in the fiscal year 1949 if construction is to proceed at a rate which will yield irrigation and power benefits without undue delay.

In order to distribute hydroelectric power as it becomes available from Government dams, expansion of transmission facilities is needed by the Bonneville Power Administration and certain extensions should be made in the southwestern area, also by the Department of the Interior. These facilities, for which increased expenditures of 12 million dollars are estimated for 1949, are essential to deliver power to areas of shortage.

Net expenditures for the Tennessee Valley Authority program in 1949 will decrease from the 1948 level. Estimated net proceeds of 750,000 dollars from power operations will be paid into miscellaneous receipts in 1949, as compared with 8 million dollars in 1948. This reduced payment is recommended in order to permit the Tennessee Valley Authority to retain corporate funds urgently needed to finance facilities required to avoid power shortages.

Construction will go forward more rapidly on the Rio Grande dams provided for in the 1944 treaty with Mexico. This will mean increased expenditures by the International Boundary and Water Commission in 1949.

Ownership of large public-domain and acquired-land holdings places on the Federal Government a direct responsibility for land conservation and management. Most of the lands administered by the Department of the Interior are unforested range lands. Expenditures on these lands in the fiscal year 1948 are inadequate for proper conservation and protection. Outlays for the land-management activities

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

of the Department of the Interior increase from 10 million dollars in the fiscal year 1948 to 13 million dollars in the fiscal year 1949.

Our national forests, which are mostly under the jurisdiction of the Department of Agriculture, must be protected from fire, disease, and other losses, and administered so as to yield an assured timber supply for the future. Expenditures for these resources are continued at the 1948 level.

Depletion of our petroleum reserves is one of our most serious and far-reaching problems. Although discoveries of new oil pools are being made each year, reserves are becoming inadequate to match our rapidly growing requirements. Fortunately we have large supplies of coal and oil shale and moderate supplies of natural gas, which can be converted into liquid fuel. The Budget contemplates appropriation to the Bureau of Mines in 1949 of all the remaining funds authorized for the present 5-year synthetic liquid fuels program which expires in the fiscal year 1949. I recommend extension of this program for a period of 3 years and an additional authorization of 30 million dollars.

Knowledge of our natural resources is still far from complete, and cannot be made complete in a single year or even several years. The 1949 Budget provides for basic mapping and investigations only as part of a long-term program. An increase from 10 million dollars in 1948 to 15 million dollars in 1949 is needed for the basic surveys and mapping of the Geological Survey. Expenditures of the Bureau of Mines and Geological Survey for limited exploration and development, mostly for strategic and critical mineral supplies, will continue in 1949 at a slightly increased level. Since these efforts cannot result in the discovery of resources for all foreseeable requirements, we must supplement them by stockpiling materials likely to become deficient, as I have already stated in reviewing the national defense program.

Development and upkeep of our national parks, fish hatcheries, and wildlife reservations have been deferred because of the requirements of war and postwar adjustments. Increased expenditures are needed for administration and maintenance of the national parks as well as for improvement of roads, trails, parkways, and other facilities for public use and safety. The additional outlays for fish and wildlife are needed for the preservation and development of these valuable resources, including the salmon and fur-seal resources of Alaska.

The expenditure estimates for 1949 include increased allowances for development of the strategically important Alaskan area, where

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

proved and probable resources may help to compensate for shortages in the United States.

Appropriations and other authorizations.—Of the total 1.6 billion dollars of appropriations recommended for 1949, 338 million dollars will be required to liquidate prior-year contract authorizations, largely by the Atomic Energy Commission. New contract authorizations recommended for 1949 include 400 million dollars for the Atomic Energy Commission, 13 million dollars for the Bonneville Power Administration, and 4 million dollars for the National Park Service. Estimated expenditures for natural resources are 45 million dollars above the recommended appropriations, because of the carry-over of funds for some programs.

Additional contract authority of 200 million dollars is recommended for the Atomic Energy Commission in 1948 to supplement the part-year appropriation allowed by the Congress.

TRANSPORTATION AND COMMUNICATION

The current high level of economic activity makes heavy demands upon the Nation's transportation system. To meet these demands, the Federal Government must not only perform its regulatory functions but must provide basic facilities and services on an expanded scale for highway, air, and water transport. Most of the Government's activity in these fields since the war represents deferred maintenance. Little has been done so far to effect the long-run improvements that are needed.

The country's airways system is in urgent need of improvement. The installation of landing aids and the modernization of other aids to air navigation must be accelerated in order to assure increased safety and regularity of air transportation, and thus provide a solid foundation on which private capital investment can carry this industry forward. I strongly urge the Congress to provide the funds recommended for this purpose.

Expanding aviation activities also have rendered inadequate many existing airports and have pointed up the need for new ones. The amount in the Budget for the Federal-aid airport construction program represents the minimum level consistent with continued aviation development.

The Nation's highway system needs extensive improvement and modernization. While expenditures under the present Federal-aid program will continue at a high level through 1950, the fiscal year 1948 is the last for which new contract authorization is provided. The

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

development of an adequate highway system will require continued Federal aid. In order to assure continuity in programing, I shall submit at an early date specific proposals designed to meet this need.

New ship construction by the Maritime Commission has been limited in this Budget because of the present scarcity of steel, the large surplus of war-built tonnage, and uncertainties regarding the future economic requirements for shipping. Expenditures, though somewhat higher than in 1948, will be largely for construction previously authorized. In view of present uncertainties, it would be unwise for the Maritime Commission to start construction of ships unless it had already concluded contracts for their sale to private operators.

In the 1948 appropriation act, the Maritime Commission was placed on an annual appropriation basis and its revolving fund was abolished. As a result, the Commission has general authority to enter into long-term subsidy contracts under the Merchant Marine Act of 1936, but has neither specific authority to incur financial obligations extending into future years nor funds for payment of them. Although the Commission could still enter into long-term contracts contingent upon implementation through future appropriations, the Commission considers that this might have an adverse effect on ship construction. While restoration of the revolving fund is not recommended, I urge the Congress to provide for the financing of long-term contracts under the 1936 act. The present Budget includes an amount for operating subsidies to cover obligations under these contracts in 1949.

The subject of a sea-level canal connecting the Atlantic and Pacific Oceans and its location is under study, and my recommendations thereon will be submitted to the Congress at a later date.

The St. Lawrence waterway and power project is needed for both transportation and industry. As an important step in advance planning, the Congress should now authorize this project in order that international treaty provisions and other arrangements can be worked out.

Expenditures.—To a large extent the increase in Maritime Commission expenditures after 1947 reflects the elimination of its revolving fund, and is offset by increases in miscellaneous receipts of the Treasury.

Continued emergency conditions, including the large-scale relief shipments to Europe, make it necessary for the Maritime Commission to continue to operate, sell, and charter war-built vessels beyond February 29, 1948, when its present authority expires. The estimates for 1949 assume extension of this authority to June 30, 1949, as recommended

770000—48——IV

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

in my recent message. The drop in expenditures below 1948 is due largely to an anticipated reduction in operation under general agents. Such operation is now limited to a few specialized services, and these will be terminated as rapidly as possible. In the coastwise and intercoastal services, the Commission has entered into special chartering arrangements looking toward the eventual return to completely private operations.

The maintenance and improvement of rivers and harbors by the Corps of Engineers will call for an increase in expenditures in 1949, principally for projects already under way. Only a very few urgently needed new projects are proposed to be started in 1949.

TRANSPORTATION AND COMMUNICATION

Federal Reserve Bank of St. Louis

The reduction in Coast Guard expenditures is due principally to a lower level of construction activity in 1949. Pending legislation, for which expenditures are included in this Budget, would give the Coast Guard specific authority to operate additional ocean weather stations. This program is important to safe and regular overseas air operations and is provided for in an international agreement to which the United States is a party. I urge the Congress to take early action.

The postwar highway aid program, which has been retarded by high costs and material shortages, is now more fully under way, as is evident in the sharp increase in expenditures above the 1947 level. To avoid bidding up costs, however, the expenditures contemplated for 1949 are at a level somewhat lower than could be supported by existing authorizations.

The Budget provides for additional highway construction in Alaska and for the improvement of the Alaska Railroad. These transportation facilities are essential in the development program for the Territory.

An increase is required in expenditures of the Department of Commerce for civil aviation in keeping with the growing importance of this industry to the Nation's economy and security. The establishment and operation of air navigation facilities, and grants-in-aid for airport construction, account for most of this increase.

A moderate increase is recommended in expenditures for the National Advisory Committee for Aeronautics. The basic aeronautical research program of the Committee is of vital importance to the development of advanced types of civilian as well as military planes. The 1949 estimates also include first-year expenditures of 2 million dollars under a proposed program for construction of additional facilities required for research in supersonic aeronautics.

The many economic problems faced by all forms of transportation and communication since the end of the war have imposed an unusually heavy work load upon the regulatory agencies in this field. Moderate increases in staff are provided in order to permit more rapid handling of regulatory proceedings.

The postal deficit is running higher in the current year than was previously anticipated. This results from a larger volume of mail, much of which is carried at rates which do not cover operating costs. Recent price advances for supplies and services have also added to the postal deficit. In addition to the deficit specifically included in the Budget, provision is made in the contingency reserve for 1948 and 1949 to cover pending increases in rail and air charges. I strongly urge early action on the recommendation contained in last year's

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Budget Message that postage rates be revised so as to permit operation of the postal service without a deficit.

Appropriations and other authorizations.—For carrying out the transportation and communication programs, I am recommending appropriations of 1,549 million dollars for fiscal year 1949, including 28 million dollars in supplemental appropriations which will be submitted upon passage of proposed legislation. Appropriations are running somewhat lower than expenditures principally because of the carryover of funds in the Maritime Commission shipbuilding program and the liquidation of prior years' obligations by the Commission. In 1948, a supplemental appropriation of 89 million dollars will be needed for the postal service, in addition to the amount included in the contingency reserve for the increase in rail and air charges.

The Budget for the fiscal year 1949 includes recommended contract authorizations of 15 million dollars for shipbuilding, about 7 million dollars each for Alaska highways and the Alaska Railroad, 11 million dollars for Alaska airports under proposed legislation, and 48 million dollars for construction of facilities for the National Advisory Committee for Aeronautics (including 30 million dollars under proposed legislation). The appropriation recommended for Public Roads Administration and part of the appropriation for the Department of the Interior are for liquidation of prior years' contract authorizations.

FINANCE, COMMERCE, AND INDUSTRY

The need to control inflation has made it impossible to eliminate the few wartime controls that still remain in force. Consequently I have requested legislative authority for their extension and for the provision of additional, more effective, and urgently needed anti-inflation measures.

Legislation is now under consideration to extend rent controls, to restore controls over consumer credit, and to provide on a limited basis for mandatory allocations, price controls, rationing, and wage controls. The Congress has already extended export and import controls. Budget expenditures for administering all these controls are reflected in the estimates for this function.

While the immediate emergency of inflation demands our primary attention, we must not neglect our programs for protecting and encouraging competition and individual initiative through the established regulatory and promotional programs.

Payment of profits to miscellaneous receipts		210		
Other	1	20		
Control of private finance (Securities and Exchange Commission)	6	6	6	6
Total	238	372	190	171

[1] Less than one-half million dollars.

Expenditures.—Expenditures for finance, commerce, and industry will fall sharply in the fiscal year 1949, primarily because of the 210-million-dollar payment in 1948 of war damage insurance profits to miscellaneous receipts. The proposed anti-inflation program accounts for the major increases.

The Office of Temporary Controls was abolished June 1, 1947. All remaining wartime controls administered by this Office have been transferred to other departments or agencies. Estimates for these programs for the 1948 and 1949 fiscal years are included principally in the budgets of the Housing Expediter and the Department of Commerce.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

With the housing shortage still acute, the extension of rent control beyond the present expiration date of February 29, 1948, is essential. The estimates assume that these controls, administered by the Housing Expediter, will be strengthened and will remain effective throughout the rest of the current fiscal year and for the fiscal year 1949.

In addition to expenditures of 33 million dollars for rent and export controls, an estimated 80 million dollars will be required to administer and enforce the rest of the anti-inflation program. Price and rationing controls, together with allocation and inventory controls, account for almost all of this total, with minor amounts for wage control and the regulation of speculative trading on the commodity exchanges.

I am requesting further increases for the Antitrust Division of the Department of Justice and the Federal Trade Commission to strengthen enforcement of the antitrust laws, and resist the growing concentration of economic power in many important industries. The increased funds requested for the Federal Trade Commission will also permit inauguration of a new research program designed to develop more effective techniques for identifying and combating monopolistic practices.

I repeat my earlier recommendation for passage of legislation authorizing the Department of Commerce to conduct a new census of business and other surveys. Legislation embodying this recommendation has been approved by the Senate and now awaits consideration in the House. Up-to-date information in this area is essential to assure intelligent action by both business and Government.

New authorizations of Reconstruction Finance Corporation business loans and participations in private bank loans, while somewhat higher than in the fiscal year 1947, are being held down to levels consistent with the anti-inflation program. It would be inappropriate for the Government to restrain inflationary increases in private credit while permitting a substantial expansion in its own credit aids. The Board of Directors of the Corporation has instructed its loan agencies to scrutinize all applications in order to avoid direct loans or guarantees of private loans which create inflationary pressures.

The Corporation is also continuing to press for the early retirement of preferred stock and capital notes in banks and trust companies. Repayment of defense loans made to business is progressing. Prompt repayment of these loans and investments is not only sound business practice, but is also anti-inflationary.

Accumulated profits of the War Damage Corporation totaling 210 million dollars have already been paid to the Treasury. All remaining obligations, including those owed to participating insurance com-

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

panies, will be liquidated and the Corporation dissolved before June 30, 1948.

The Budget provides for a small increase in personnel for the Securities and Exchange Commission to improve handling of its continuing heavy work load.

Appropriations.—Appropriations of 171 million dollars for the fiscal year 1949 are recommended for these programs. This total includes 133 million dollars in supplemental appropriations—5 million dollars for export and import controls under legislation recently enacted, 115 million dollars for rent control and other proposed anti-inflation activities, and 13 million dollars for new censuses of business and mineral industries. Expenditures for loans and investments by the Reconstruction Finance Corporation do not require appropriations.

During the current fiscal year, supplemental appropriations of 29 million dollars are recommended to continue some of the anti-inflation controls and to initiate others.

LABOR

The training and placement of workers, the promotion of sound labor relations, and the maintenance of safe and healthful working conditions are of special importance in this period when uninterrupted full production is so vital to the United States.

The reduced appropriations to the Department of Labor in the fiscal year 1948 have impaired its capacity to perform some of its statutory functions. I am recommending increases in the Department's total appropriation for the fiscal year 1949 sufficient to enable it to carry out efficiently its statistical and labor information services to the general public and to the labor mediation and regulatory agencies, and also to carry out adequately its functions in connection with the administration of the State employment offices.

As I have previously indicated to the Congress, there is a need for legislation to establish a Federal program for the elimination of discriminatory employment practices based on race, religion, color, or national ancestry. A year ago I recommended to the Congress that funds be authorized for grants to States for a program fostering safe working conditions. This Budget includes estimates for this proposed legislation.

Expenditures.—Expenditures of the National Labor Relations Board will rise considerably from the fiscal year 1948 to 1949, because

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

of the expanded responsibilities placed upon this agency by the Labor Management Relations Act of 1947.

LABOR

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Mediation and regulation:				
Department of Labor:				
Present programs	$12	$6	$6	$6
Industrial safety program (proposed legislation)	----	----	6	6
National Labor Relations Board	5	6	9	9
Federal Mediation and Conciliation Service	----	2	3	3
National Commission Against Discrimination in Employment (proposed legislation)	----	----	1	1
Other	3	4	5	5
Training and placement:				
Public employment offices	87	69	77	77
Other	2	2	2	2
Labor information, statistics, and general administration	11	9	8	8
Total	120	97	116	117

Expenditures by the State public employment offices, which are fully financed by Federal funds through the fiscal year 1949, will rise by about 10 percent, or 7 million dollars. More than 2 million dollars of the increase is required to finance on a full-year basis the operation of the farm placement program. In addition, State salaries, rentals, and other costs have increased materially.

The apparent decrease for 1949 in the estimated expenditures for "labor information, statistics, and general administration" results from reclassification to specific programs of certain expenditures which for 1948 are shown under general administration.

Appropriations.—The 117-million-dollar appropriation recommended for fiscal year 1949 includes 6.2 million dollars for proposed legislation, of which 5.6 million dollars is for the safety program.

Because of the expanding activities of the National Labor Relations Board and the difficulty of forecasting the size of its case load, I am recommending that the Congress appropriate 9.4 million dollars at the present time, with the entire amount made available for obligation if needed prior to April 1, 1949.

When the Federal Mediation and Conciliation Service came into existence in August 1947 it was granted a part-year appropriation,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

which will be exhausted during February 1948. The appropriations recommended in this Budget include a supplemental appropriation of 1 million dollars for the remainder of the 1948 fiscal year.

GENERAL GOVERNMENT

"General government" comprises most of the expenditures of the legislative and the judicial branches of the Federal Government, as well as some expenditures of the executive branch. The costs of financial management, the Government payment toward the civilian employees' retirement system, and nonrecurring expenditures for certain war liquidation programs make up the greater portion of the total.

The major legislative recommendation in this category relates to surplus property disposal. By the end of the present fiscal year the disposition of war surpluses will have been nearly completed. The inventories of surplus personal property will then have been so reduced that costs connected with the disposal of this property under the provisions of existing legislation will approach and may even exceed proceeds from their sale. There will remain, however, certain surplus real properties which will present problems in lease and property management and require a continuing disposal program.

The time is now at hand to liquidate the temporary disposal agencies, further consolidate and improve the central supply services of the Government, and establish a permanent, modern, and economical system of property management. A program for the accomplishment of these objectives will be submitted to the Congress at an early date.

Expenditures.—In view of the administrative changes to be recommended, no estimates are included in the 1949 Budget for the continued operation of the present surplus property disposal agencies. Instead, 94 million dollars is included under proposed legislation as an estimate of the expenditures that will be required for surplus disposal activities in the fiscal year 1949 under the new system of property management and disposal. Of this amount, 81 million dollars is for domestic and 13 million dollars for foreign disposal programs. In addition, 56 million dollars will be spent to liquidate obligations incurred during the current year by the present disposal agencies.

The Bureau of Internal Revenue still has a large volume of work, not only in handling current collections, but also in reviewing wartime tax returns before statutory limitations intervene. Expenditures for tax collection are presently estimated at the same level as in the current

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

fiscal year. I am confident that this level of expenditures is not sufficient to assure complete and equitable application of the tax laws, but the matter is now under investigation by congressional committees as well as by staff of the executive branch. I hope that these studies will result in recommendations for improving tax administration.

GENERAL GOVERNMENT

[Fiscal years. In millions]

Program or agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Legislative functions	$28	$34	$33	$33
Judicial functions	16	19	19	19
Executive direction and management	7	7	7	7
Federal financial management:				
Bureau of Internal Revenue	200	189	187	188
Other Treasury bureaus	171	136	130	132
General Accounting Office	39	37	33	33
Other	5	4	4	1
Government payment toward civilian employees' general retirement system	220	244	259	259
Other general government:				
Surplus property disposal, foreign and domestic:				
Present disposal programs (mainly War Assets Administration)	440	357	56	----
Proposed legislation	----	----	94	105
Deposits and transfers of receipts, foreign sales (Army, clearing account)	−19	75	30	----
Federal Works Agency (mainly Public Buildings Administration)	67	78	75	65
Reconstruction Finance Corporation:				
Payment of interest to miscellaneous receipts	91	97	2	----
Other	−76	−17	−12	----
Cemeteries and return of war dead (Army, civil functions):				
Present programs	12	80	75	46
Proposed legislation	----	----	2	2
Other:				
Present programs	118	133	164	174
Proposed legislation	----	----	1	1
Total	1,318	1,473	1,157	1,065

Estimated expenditures of the other Treasury bureaus engaged in financial management are reduced slightly for the fiscal year 1949. The organization and operating procedures of the Customs Bureau are the subject of a special survey which will soon be completed. The findings should be helpful to both the Bureau and the Congress.

The cancellation of notes of the Reconstruction Finance Corporation, which I recommend elsewhere in this Message, will almost

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

eliminate payments of interest by the Corporation to miscellaneous receipts.

The estimate for the Government contribution to the Federal employees' retirement system for the fiscal year 1949 is based on an increase in the number of Federal civilian employees who have served in the Government for 5 years and have thereby become potential applicants for benefits.

Expenditures estimated for other general government activities in the fiscal year 1949 include an increase of over 6 million dollars in expenditures of the Civil Service Commission to verify the loyalty of persons entering the Federal service. Also included is 10 million dollars to augment the working capital in the general supply fund of the Bureau of Federal Supply.

Appropriations.—Anticipated supplemental appropriations based on proposed legislation amount to 108 million dollars of the appropriation total for general government for the fiscal year 1949. The total of estimated expenditures for the year is considerably above the appropriation total, principally because it includes expenditures to liquidate obligations against appropriations of prior years for the disposal of surplus property and for bringing home our war dead.

INTEREST ON THE PUBLIC DEBT

Interest on the public debt represents a fixed obligation of the Federal Government, subject to change only as securities are retired or refunded and interest rates changed. Assuming continued high employment and present tax rates, debt retirement will be substantial during the fiscal years 1948 and 1949. However, other factors will cause some increase in interest payments.

INTEREST ON THE PUBLIC DEBT

[Fiscal years. In millions]

Agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Treasury Department	$4,958	$5,200	$5,250	$5,250

Expenditures.—The increase in interest costs in 1948 and 1949 is the net result of divergent trends in payments on the various types of debt. Interest on nonmarketable obligations, principally savings

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

bonds, and special issues to Government trust funds is rising. Interest on marketable debt is declining.

Increasing numbers of savings bonds purchased during the war are now reaching higher accrual brackets. At the same time net accumulations of Government trust funds will cause further increases in the amount of special issues outstanding. The relatively high rates on these issues are for the most part fixed by statute. Interest payments on nonmarketable debt during 1948 also reflect nonrecurring interest payments on the large volume of armed forces leave bonds redeemed during the year.

The decline in interest payments on the marketable debt arises from two factors. In addition to the substantial debt-reduction program, maturing bonds with high coupon rates of interest are being paid off where possible, or are being refunded into issues with lower rates. On the other hand, short-term interest rates have increased. About 40 percent of short-term Treasury bills, certificates, and notes are held by the Federal Reserve banks. A considerable part of the interest costs on these securities will come back to the Government, since in effect about 90 percent of Federal Reserve bank earnings are currently being paid into the Treasury as miscellaneous receipts.

Appropriations.—Interest payments represent contractual commitments which are financed by permanent indefinite appropriations not requiring annual congressional action.

REFUNDS OF RECEIPTS

The principal items under refunds of receipts are corporate profits tax refunds and individual income tax refunds.

REFUNDS OF RECEIPTS

[Fiscal years. In millions]

Agency	Expenditures			Appropriations, 1949
	Actual, 1947	Estimate, 1948	Estimate, 1949	
Treasury Department	$2,897	$2,049	$1,990	$1,990

Expenditures.—Estimated refunds for the fiscal years 1948 and 1949 are more than 800 million dollars below actual refunds in 1947. This decline results principally from the estimated drop in corporate income and profit tax refunds arising out of the adjustment of wartime tax liabilities. These corporate refunds, which were 1.1 billion dollars in

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

the fiscal year 1947, are not expected to exceed one-third of this total during each of the fiscal years 1948 and 1949. Estimated refunds to individuals—mainly due to overpayment of individual income tax under the current payment system—which totaled 1.7 billion dollars in 1947, are estimated to be slightly less in 1948 and 1949. This decrease is due to accelerated refund payments in the fiscal year 1947.

Appropriations.—The specific appropriations of 1,254 million dollars for refunds in the fiscal year 1948 will be inadequate and a supplemental appropriation of 800 million dollars will be required.

GOVERNMENT CORPORATIONS

The Government Corporation Control Act requires that no wholly owned Government corporation not now possessing a Federal charter shall continue after June 30, 1948, unless reincorporated by act of Congress. Two of the State-chartered corporations, the Export-Import Bank and the Institute of Inter-American Affairs, have already been reincorporated by the Congress. I recommend early action by the Congress on pending legislation to reincorporate the Commodity Credit Corporation and the Virgin Islands Company, and on legislation which will be introduced to recharter the Panama Railroad Company.

I recommend extension of the Reconstruction Finance Corporation beyond the present expiration date of June 30, 1948. In revising the Corporation's charter last year, the Congress restricted its lending authority mainly to business and financial institutions, the area of its major prewar activities. I also recommend that the Congress authorize cancellation of an estimated 9.3 billion dollars in the notes of the Corporation held by the Treasury Department. This cancellation, representing in amount the unrecovered costs to the Corporation of its wartime and reconversion operations through June 30, 1947, will permit a clearer appraisal of its active programs. Since the cancellation is merely a bookkeeping operation, it will have no net effect on the Budget.

In accordance with the provisions of section 107 of the Government Corporation Control Act, the Bureau of the Budget will soon complete studies of all wholly owned Government corporations to determine in which cases, if any, their fiscal affairs could be handled more appropriately as regular agencies. The Bureau is also studying agencies engaged in business-type activities to determine whether they might administer their programs more effectively and provide better service to the public if they had some or all of the attributes of corporations. These and future studies are designed not only to develop specific

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

recommendations for submission to the Congress, but also to establish guides for determining when the corporate form of organization should be used.

As a part of the program to secure a more uniform approach to the Government's business activities, I recommend legislation to place the Federal Housing Administration under the Government Corporation Control Act. Under existing law, this agency possesses many of the significant attributes of a corporation and, in nearly all major respects, is treated as such by both the executive branch and the Congress.

PROPOSED LEGISLATION—A SUMMARY

Expenditures and appropriations for proposed legislation—apart from the extensions of authority for Government corporations—are listed in the following table. Expenditures under extensions of existing legislation are included. The proposed extensions of old-age and survivors insurance and unemployment compensation would be financed through trust accounts.

PROPOSED LEGISLATION

(Summary of amounts included in Budget)

[Fiscal years. In millions]

Function and program	Expenditure estimate, 1949	Anticipated supplemental appropriations

INTRODUCTION TO PART I

Part I of the Budget consists of three sections, the contents of which are indicated below. Unless otherwise noted, all tables have a 3-year coverage—actual data for the last completed fiscal year, 1947; revised estimates for the fiscal year in progress, 1948; and estimates and Presidential recommendations for the budgeted year ahead, 1949. Fiscal years begin on July 1.

Section A (tables 1–10) consists of five over-all summary tables and five supporting tables. The former summarize Budget receipts by source, and both expenditures and appropriations and other authorizations by function and organization unit, respectively. Section B (tables 11–13) consists of an over-all summary table of trust receipts, expenditures, and appropriations, and of two supporting tables. Section C (table 14) consists of a single table which summarizes receipts from and payments to the public, after excluding intragovernmental and noncash transactions.

Government-Type and Business-Type Budgets

Part I of the Budget discontinues the practice of segregating general and special accounts from checking accounts of Government corporations and enterprises in the various summary and supporting tables. Thus, summary tables 1 and 2 show only total Budget expenditures by function and organization unit, respectively, regardless of the type of account involved. Table 8 follows the chapter arrangement of parts II and III of the Budget. Part II consists of "Government-type" budgets submitted in conformance with the Budget and Accounting Act of 1921 for all unincorporated agencies except the Federal Housing Administration which is included in part III with the rest of the Housing and Home Finance Agency; part III consists of the "business-type" budgets submitted for Government corporations in conformance with the Government Corporation Control Act of 1945. The budget programs of unincorporated agencies are financed almost entirely through general and special accounts and the Government corporations are financed through both general and special accounts and checking accounts, primarily the latter.

Fund Structure

The tables in part I deal with transactions of (1) general and special accounts, (2) checking accounts of Government corporations and enterprises with the Treasurer of the United States, and (3) trust accounts. The general and special accounts and the checking accounts of Government corporations combined, excluding debt transactions, are referred to as the Budget accounts of the Government. Statutory public debt retirements are shown in a memorandum section at the end of the Treasury Department chapter in table 8; they are made from either the cumulative sinking fund, or, under special provisions of law, from specified receipts. The issue or redemption of public holdings of securities of Government corporations and enterprises by the Treasurer of the United States as fiscal agent are shown in trust account tables 11 and 13.

General and special accounts.—General accounts are credited with receipts not designated by Congress for specific purposes and cover most appropriations and expenditures. Special accounts are credited with receipts earmarked by Congress for specified purposes, and are identified in tables 6 and 8.

Corporation checking accounts.—Wholly owned Government corporations and enterprises finance a substantial portion of their cash requirements from revenues arising from the sale of products and services, collections on loans, interest on loans and investments, and receipts from the sale of collateral security acquired by foreclosure. Additional funds are obtained by borrowing or from capital subscriptions. These receipts are usually carried in checking accounts with the Treasurer of the United States.

Some Government corporations and enterprises are financed in whole or in part from general and special account appropriations. The expenditures from these general and special accounts are brought together in the Budget with the expenditures from the checking accounts for these Government corporations and enterprises. The expenditures from checking accounts are shown net of their receipts and exclude any borrowings or repayments thereof.

Trust accounts.—In general, trust accounts relate to moneys received by the Government for the special benefit of individuals or classes of individuals and to moneys transferred from general and special accounts. Such moneys are held in trust for beneficiaries and invested in securities issued by the United States Government.

Tables 11 and 13 on trust accounts include net expenditures from special deposit accounts; and, when the Treasurer of the United States serves as fiscal agent, net expenditures for issue or redemption of public holdings of securities of Government corporations and enterprises.

Postal accounts.—Postal accounts are credited with the postal receipts and with any moneys appropriated from general and special accounts to meet postal deficiencies. The revenues and the appropriations, obligations, and expenditures of the postal accounts are shown in part II. Only the postal surplus or deficit is included in part I.

Receipts and Expenditures

Receipts.—The receipts for fiscal year 1947, shown in part I, are those deposited and covered into receipt accounts with the Treasurer of the United States. Tax receipts for fiscal years 1948 and 1949 are estimated by the Treasury Department, and are discussed by that Department in part IV. Miscellaneous receipts are estimated by the various collecting agencies, subject to review by the Bureau of the Budget.

Receipts of Government corporation checking accounts maintained with the Treasurer of the United States are treated as deductions from expenditures, and are not reported separately; consequently, only net expenditures from such accounts are shown in part I.

Expenditures.—Estimates of expenditures for fiscal years 1948 and 1949, shown in part I, are prepared by the Bureau of the Budget on the basis of information furnished by the agencies. Actual expenditures for fiscal year 1947 represent the amount of checks issued as reported in the Treasury "Combined statement of receipts, expenditures, and balances of the United States Government" except for a few items taken from the "Daily statement of the United States Treasury." The total expenditures for fiscal year 1947 are adjusted in each table to the amount shown in the daily Treasury statement.

Appropriations and Other Authorizations

Appropriations.—Appropriations authorize employment of personnel, purchase of supplies and equipment, awarding of contracts, and withdrawal of funds from the Treasury for these and other specified purposes. They are of two general types—annual and permanent. An annual appropriation is one which is made by current action of Congress, usually once a year. A permanent appropriation is automatically renewed each year, pursuant to prior legislative enactment, without new action by Congress.

Appropriations may be either definite or indefinite in amount. A definite appropriation appropriates a specific sum of money. An indefinite appropriation is one the amount of which is not stated in the appropriation act as a specific sum of money, but is determined at some future date; e. g., an appropriation based on certain financial requirements such as the interest on the public debt or the receipts from a specified source. Most special or trust account appropriations are in the permanent-indefinite category. Indefinite appropriations for fiscal years 1948 and 1949 must be estimated, since the amounts involved cannot be determined until after the close of the fiscal year.

Appropriations may be available for obligation for a definite or indefinite period of time. Most appropriations are only available for obligation during a single fiscal year, but some appropriations are available for obligation for a longer period of years. Appropriations for construction are generally available for incurring obligations until the project covered by the appropriation is completed or terminated.

There is generally a difference—sometimes a considerable difference—between the amounts of appropriations and of expenditures of general and special accounts for any one fiscal year, due to the time lag between the enactment of an appropriation, the incurring of obligations thereunder, and the subsequent expenditures to liquidate the obligations.

Reappropriations.—Reappropriations of unobligated balances of appropriations continue the availability of unused balances of appropriations which would otherwise expire for obligation purposes. Information regarding reappropriations is shown in tables 3 and 4.

Contract authorizations.—A contract authorization is a statutory authorization by Congress—generally in an appropriation act—empowering the designated agency to enter into contracts and incur obligations for a stated purpose prior to the enactment of an appropriation. A contract authorization, however, does not authorize the payment of the bills arising from the obligations incurred. In order to pay these bills, an appropriation to liquidate the contract authorizations must first be enacted by Congress. Such appropriations to liquidate contract authorizations are included under general and special account appropriations.

Contract authorizations for the naval expansion program are based on tonnage and are indefinite in amount. The financial significance of the indefinite contract authorizations included in this section must therefore be estimated. As the program progresses and unit costs change, the estimates are revised accordingly.

The areas which lend themselves most readily to the use of contract authorizations are long-range procurement programs, activities requiring advance planning, and activities requiring a long period for completion. Contract authorizations permit long-range planning and procurement, yet the annual appropriations thereunder result in annual review by the President and Congress, which in turn introduces some flexibility in the timing of work to be done. Contract authorizations and appropriations to liquidate contract authorizations are summarized in tables 3 and 4 and itemized in table 9.

Authorizations treated as public debt transactions.—In lieu of direct appropriations, Congress in some instances authorizes expenditures in basic legislation by providing that the expenditures shall be treated as public debt transactions. Borrowings from the Treasury by Government-owned corporations and enterprises are treated as public debt transactions. Other withdrawals have been authorized in this manner in a few instances in recent years. Authorizations treated as public debt transactions are shown in tables 1, 3, and 4.

Cancellation of notes.—Cancellation of notes payable to the United States Treasury by some of the Government corporations has been authorized from time to time by the Congress. Note cancellations have been authorized in the past for restoration of capital impairment or as reimbursement for cash advances or transfers of assets to other Government agencies. Such cancellations have the same effect as if an appropriation were made for the same purpose, and paid from the general accounts into a checking account of the corporation, thus creating an offsetting expenditure and receipt, with no change in Budget totals. Cancellation of notes are shown in memorandum form at the end of table 4, and the charges and credits resulting therefrom (in general accounts and checking accounts, respectively) are shown in table 8.

Functional Classification

To improve the presentation of budgetary programs of the Federal Government, a revised functional classification of expenditures and appropriations was introduced in the 1948 Budget, as explained on page 1353 of that document. This revised classification, with minor modifications, is continued in this Budget. By grouping together items which are functionally related, regardless of the agency which is responsible, this classification provides for the Congress and the public a useful summary of what the Government is doing, or expects to do, and in general focuses upon the ultimate purpose which the Government programs are designed to serve. A convenient listing of all functions and subfunctions is presented by the stubs at the left of appendix 6.

Functional categories are utilized in the discussion of programs in the Budget message. Tables 1 and 3 present functional summaries of Budget expenditures, and Budget appropriations and other authorizations, respectively. Table 7 provides supporting detail by adding for each function and subfunction the amounts relevant to each major organization unit. Functional code numbers are shown for each appropriation title in table 8. Historical perspective is provided by a 10-year comparison of expenditures by function in appendix 6.

TABLE 1

BUDGET RÉSUMÉ

Based on existing and proposed legislation

[For the fiscal years 1947, 1948, and 1949]

PART A—BUDGET RECEIPTS AND EXPENDITURES

Description	Actual, 1947	Estimate, 1948	Estimate, 1949
BUDGET RECEIPTS (see table 6 for detail):			
Direct taxes on individuals	$20,408,102,758	$22,793,000,000	$23,322,000,000
Direct taxes on corporations	9,676,458,680	9,548,000,000	10,158,000,000
Excise taxes	7,270,474,741	7,320,000,000	7,476,000,000
Employment taxes:			
Existing legislation	2,038,546,516	2,409,500,000	2,493,000,000
Proposed legislation			350,000,000
Customs	494,078,260	394,000,000	378,000,000
Miscellaneous receipts	4,830,664,155	4,372,886,347	2,321,862,051
Deduct:			
Appropriation to Federal old-age and survivors insurance trust fund:			
Existing legislation	1,459,491,921	1,627,000,000	1,672,000,000
Proposed legislation			200,000,000
Appropriation to health insurance trust fund: Proposed legislation			150,000,000
Total Budget receipts	43,258,833,189	45,210,386,347	44,476,862,051
BUDGET EXPENDITURES (see table 7 for detail):			
National defense	14,280,559,774	10,746,163,435	11,025,021,298
Veterans' services and benefits	7,369,780,099	6,631,707,018	6,102,011,398
International affairs and finance	6,540,379,201	5,533,185,268	7,008,615,376
Social welfare, health, and security	1,379,304,039	1,959,727,703	2,028,102,127
Housing and community facilities	402,836,130	113,390,213	37,815,694
Education and general research	75,522,155	77,185,864	387,038,071
Agriculture and agricultural resources	1,247,867,306	613,710,668	905,600,942
Natural resources not primarily agricultural	627,613,436	1,178,722,432	1,626,210,300
Transportation and communication	587,121,650	1,563,261,696	1,645,726,034
Finance, commerce, and industry	237,535,817	371,632,613	190,037,253
Labor	119,677,731	97,266,306	116,123,084
General government	1,317,704,938	1,473,115,050	1,156,604,906
Interest on the public debt	4,958,026,896	5,200,000,000	5,250,000,000
Refunds of receipts	2,897,260,878	2,048,707,095	1,990,087,500
Reserve for contingencies		120,000,000	200,000,000
Adjustment to daily Treasury statement basis	+463,855,479		
Total Budget expenditures	42,505,045,529	37,727,775,361	39,668,993,983
Excess of Budget receipts over expenditures	753,787,660	7,482,610,986	4,807,868,068

PART B—PUBLIC DEBT

Public debt at beginning of year	$269,422,099,173	$258,286,383,109	$250,900,000,000
Reduction through excess of Budget receipts over expenditures	−753,787,660	−7,482,610,986	−4,807,868,068
Reduction through change in Treasury cash balance	−10,929,746,366	−772,409,861	−51,410,729
Other changes in debt	+547,817,962	+868,637,738	+159,278,797
Public debt at end of year	258,286,383,109	250,900,000,000	246,200,000,000

PART C—BUDGET APPROPRIATIONS AND OTHER AUTHORIZATIONS

Appropriations[1]	$36,931,513,958	$31,014,228,828	$32,930,442,226
Deduct appropriations to liquidate contract authorizations	534,397,528	274,976,645	1,672,346,854
Appropriations, excluding appropriations to liquidate contract authorizations	36,397,116,430	30,739,252,183	31,258,095,372
Anticipated supplemental appropriations for 1948		8,740,502,122	
New contract authorizations	511,500,000	2,236,886,025	1,929,869,750
Anticipated supplemental contract authorizations for 1948		384,185,460	
Authorizations treated as public debt transactions	2,058,274,066	963,933,940	869,725,827
Reappropriations	526,447,742	58,236,477	1,263,723
Total Budget appropriations and other authorizations	39,493,338,238	43,122,996,207	34,058,954,672

[1] Includes permanent appropriations.

TABLE 2

SUMMARY OF BUDGET EXPENDITURES

BY ORGANIZATION UNIT

Based on existing and proposed legislation

[For the fiscal years 1947, 1948, and 1949]

Description	Actual, 1947	Estimate, 1948	Estimate, 1949
BUDGET EXPENDITURES (see table 8 for detail):			
Legislative branch	$39,584,898	$47,053,340	$49,751,580
The Judiciary	17,537,097	20,099,807	20,825,100
Executive Office of the President:			
Office for Emergency Management	127,654,806	2,962,816	764,269
Other	5,745,509	7,033,470	10,733,228
Funds appropriated to the President: [1]			
Assistance to Greece and Turkey	[a] [2] 100,000,000	200,403,350	75,000,000
European recovery program		500,000,000	4,000,000,000
Relief assistance to war-devastated countries	[a] [2] 75,000,000	118,051,000	25,000,000
Other foreign aid		435,000,000	605,000,000
Payments, Armed Forces Leave Act of 1946		26,000,000	3,000,000
Other	46,895,513	38,576,154	174,000,000
Independent offices:			
Atomic Energy Commission	170,211,260	455,724,419	660,000,000
Civil Service Commission	236,575,045	265,573,644	287,311,607
Export-Import Bank of Washington	937,159,915	735,507,500	499,963,391
General Accounting Office	39,767,549	36,910,680	33,753,000
National Advisory Committee for Aeronautics	35,190,095	42,500,000	51,000,000
Railroad Retirement Board	316,456,043	778,537,266	592,509,081
Tennessee Valley Authority	17,508,306	45,771,020	34,654,600
United States Maritime Commission	614,257,766	432,037,759	228,694,726
Universal training			400,000,000
Veterans' Administration	7,325,362,666	6,498,899,577	5,810,895,278
Other independent offices	501,619,121	488,502,599	291,121,760
Federal Security Agency	925,803,696	1,051,790,302	1,593,537,879
Federal Works Agency	346,847,541	584,194,896	621,963,085
Housing and Home Finance Agency	280,904,993	92,012,467	[a] 20,994,221
Reconstruction Finance Corporation and subsidiaries	592,857,008	[a] 442,620,378	[a] 29,100,000
Department of Agriculture	1,529,489,503	1,499,527,339	1,086,118,376
Department of Commerce	164,073,370	200,237,192	263,503,482
Department of the Interior	273,485,115	355,373,671	500,076,699
Department of Justice	118,172,603	123,381,285	117,097,031
Department of Labor	114,394,658	86,066,422	99,278,416
National Military Establishment:			
Office of the Secretary of Defense		1,215,500	6,214,000
Department of the Air Force [3]		43,851	686,577,000
Department of the Army:			
Military functions	8,021,896,688	6,584,575,825	5,571,897,197
Civil functions	794,296,142	1,669,687,649	2,292,885,289
Department of the Navy	5,763,661,189	4,230,003,915	4,166,407,634
Post Office Department (general fund)	245,619,089	326,672,930	325,115,336
Department of State	318,748,808	451,735,266	319,970,535
Treasury Department:			
Refunds of receipts	2,897,260,878	2,048,707,095	1,990,087,500
Interest on the public debt	4,958,026,896	5,200,000,000	5,250,000,000
Other	4,426,126,284	2,358,025,733	762,381,125
District of Columbia (Federal contribution)	8,000,000	12,000,000	12,000,000
Reserve for contingencies		120,000,000	200,000,000
Adjustment to daily Treasury statement basis	+463,855,479		
Total Budget expenditures	42,505,045,529	37,727,775,361	39,668,993,983

[a] Excess of credits, deduct.

[1] Expenditures from allocations made prior to Nov. 1, 1947, are shown under the various agencies to which funds are allocated.

[2] Represents advance from Reconstruction Finance Corporation which was repaid in 1948.

[3] Includes only expenditures from appropriations to be made direct to the Department of the Air Force in 1949, primarily for procurement and operation of aircraft and research and development. A total of $605,000,000 is included in the 1949 expenditures for the Department of the Army for liquidation of prior year obligations for such purposes. Other expenses for 1949, including military pay and maintenance, are still shown under the Department of the Army.

Treasury Department:				
Refunds of receipts	2,928,385,565	1,254,203,500	800,000,000	1,990,094,500
Interest on the public debt	4,958,026,896	5,200,000,000		5,250,000,000
Other	659,752,059	547,316,650	2,021,700	816,901,283
District of Columbia (Federal contribution)	8,000,000	12,000,000		12,000,000
Reserve for contingencies			125,000,000	225,000,000
Total, appropriations	36,931,513,958	31,014,228,828	8,740,502,122	32,930,442,226
DEDUCT APPROPRIATIONS TO LIQUIDATE CONTRACT AUTHORIZATIONS (See table 9 for detail):				
Atomic Energy Commission				325,000,000
National Advisory Committee for Aeronautics				2,143,000
Veterans' Administration				230,000,000
Federal Security Agency				60,000,000
Federal Works Agency	270,438,792	262,250,000		459,588,854
Department of the Interior	9,418,449	1,710,944		30,345,000
National Military Establishment:				
Department of the Air Force				250,000,000
Department of the Army, military functions				24,000,000
Department of the Navy	250,000,000	2,900,701		216,270,000
Department of State	4,540,287	8,115,000		
Treasury Department				75,000,000
Total, appropriations to liquidate contract authorizations	534,397,528	274,976,645		1,672,346,854
Total, appropriations excluding appropriations to liquidate contract authorizations	36,397,116,430	30,739,252,183	8,740,502,122	31,258,095,372

[1] Includes estimate of $200,000,000 for liquidation of prior obligations incurred against appropriations subsequently rescinded.

[2] Of which $40,023,930 was rescinded in 1948 and $91,000,000 is proposed for rescission in 1949.

[3] Includes only appropriations and authorizations to be made direct to the Department of the Air Force in 1949, primarily for procurement and operation of aircraft and research and development. Appropriations for other expenses for 1949, including military pay and maintenance, are still shown under the Department of the Army.

[a] Excess of credits, deduct.

[1] Includes only expenditures from appropriations to be made direct to the Department of the Air Force in 1949, primarily for procurement and operation of aircraft and research and development. The 1949 expenditures for the Department of the Army provide for liquidation of prior year obligations for such purposes. Other expenses for 1949, including military pay and maintenance, are still shown under the Department of the Army.

TABLE 14

RECEIPTS FROM AND PAYMENTS TO THE PUBLIC

Excluding major intragovernmental and noncash transactions

[For the fiscal years 1947, 1948, and 1949. In millions]

Description	Actual, 1947	Estimate, 1948	Estimate, 1949
RECEIPTS FROM THE PUBLIC			
Budget accounts:			
Direct taxes on individuals	$20,408	$22,793	$23,322
Direct taxes on corporations	9,676	9,548	10,158
Employment taxes [1]	579	783	821
Excise taxes and customs	7,765	7,714	7,854
Miscellaneous receipts	4,502	3,701	2,167
Trust accounts [1]	3,707	3,712	4,008
Total receipts from the public	46,637	48,251	48,330
PAYMENTS TO THE PUBLIC			
Budget accounts:			
National defense	12,435	11,912	11,220
International affairs and finance	5,172	5,955	7,486
Veterans' services and benefits	6,556	6,489	6,057
Social welfare, health, and security	1,066	1,190	1,441
Housing and community facilities	315	83	17
Education and general research	76	77	387
Agriculture and agricultural resources	1,243	582	836
Natural resources not primarily agricultural	617	1,170	1,625
Transportation and communication	587	1,563	1,646
Finance, commerce, and industry	102	147	185
Labor	120	97	116
General government	997	1,119	882
Interest on the public debt	3,811	3,907	3,835
Refunds of receipts	2,936	2,061	1,996
Reserve for contingencies		120	200
Deductions from Federal employees' salaries for retirement fund	−260	−222	−202
Trust accounts	3,270	3,094	3,539
Exchange stabilization fund	1,026	774	
Clearing account for outstanding checks and telegraphic reports from Federal Reserve banks	−555	+400	
Adjustment to daily Treasury statement basis	+464		
Total payments to the public	39,978	40,519	41,264
Excess of receipts from the public	6,659	7,732	7,066
BORROWING FROM AND REPAYMENT OF DEBT TO THE PUBLIC			
Excess of receipts from the public	6,659	7,732	7,066
Decrease in stabilization fund balance	1,800		
Decrease in Treasury cash balance	10,930	772	51
Repayment of debt to the public (net)	19,389	8,505	7,117

[1] Appropriation to Federal old-age and survivors insurance trust fund is excluded from employment taxes, but included as a trust account receipt.

NOTE.—Detail may not add to totals because of rounding.

Table 14, "Receipts from and payments to the public," presents a picture of the flow of money between the Federal Government as a whole and the public. Other tables, on budget receipts and expenditures, do not do so; they are designed for other purposes. The public is defined to include individuals; banks; businesses; private corporations; State, local, and foreign governments; and international organizations.

Budget receipts and expenditures include many transactions within the Federal Government itself and exclude some cash transactions between the Federal Government and the public. Some of these intragovernmental transactions are payments from various agencies of the Federal Government to the Treasury. These are included both in budget expenditures and in budget receipts (within the miscellaneous-receipts category). Examples are payments of interest and earnings or repayments of capital stock by Government enterprises to the Treasury. Others of the intragovernmental transactions are payments from budget accounts to trust accounts. Examples are payments from the general fund of the Treasury to some of the trust funds; for example, to the Federal employees' retirement funds and the veterans' life insurance funds. These payments are budget expenditures. There are also certain payments from trust accounts to budget accounts, which are included in budget receipts. None of these intragovernmental payments is included in receipts from the public or payments to the public.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

On the other hand, trust-account receipts, which are not included in budget receipts, include receipts from the public. One such group of receipts consists of employment taxes collected under the old-age and survivors insurance provisions of the Social Security Act, as amended. These are treated in the budget as receipts, but simultaneously an equal amount is deducted from receipts and transferred to the old-age and survivors insurance trust fund, so that the amount is not included in the total figure for budget receipts. Another group of trust-account receipts is received directly from the public; examples are premiums on veterans' life insurance policies and employment taxes collected by the States and deposited by them in the unemployment trust fund.

Another source of difference between budget expenditures and payments to the public is the inclusion as budget expenditures of noncash items which represent an obligation of the Federal Government to make a cash payment in the future. Examples of such items include interest accruing on savings bonds held by the public which will not be paid until the bonds are redeemed, subscriptions to the International Monetary Fund in the form of non-interest-bearing notes which would later be exchanged for cash, and terminal-leave bonds which are to be redeemed for cash at a later date. On the other hand, at the time actual cash payments to the public are made for these recorded noncash expenditures, no expenditure is recorded in the budget, the expenditure having been recorded previously when the obligation was issued. Payments to the public not included in budget expenditures also include payments from trust accounts, such as unemployment compensation payments and payments of old-age annuities.

Table 14 eliminates intragovernmental transactions and noncash expenditures from the budget and trust accounts and adds payments made when the noncash items eventually become cash expenditures. In this way table 14 shows the financial transactions between the Federal Government as a whole and the public. It is therefore useful in judging the effect of Federal finances on the incomes of private individuals and businesses.

Receipts from the public are shown under the accounts to which the collections from the public are initially deposited except in one case; namely, the appropriations from budget receipts to the Federal old-age and survivors insurance trust fund are treated as trust-account receipts, and an equal amount of employment-tax revenues is excluded from "Employment taxes," as noted above. Payments to the public are shown in this presentation under the accounts from which the disbursements to the public are made.

Payments to the public from the budget and trust accounts, respectively, as listed in table 14, cannot properly be compared with receipts from the public for the same accounts because some receipts of budget accounts are transferred to trust accounts and payments to the public are made by the latter accounts.

Because trust-account receipts from the public total several billion dollars annually, receipts from the public are typically considerably larger than budget receipts. Trust-account payments to the public are typically smaller than trust-account receipts; part of receipts is held in trust for payment to the public in future years. This accumulation of funds in trust accounts, which is now expected to continue for some years, is a major reason why at present the excess of receipts from the public over payments to the public tends to exceed the budget surplus.

In the fiscal year 1948, the budget surplus is estimated at $7.5 billion. The excess of receipts from the public over payments to the public, however, will be slightly greater, $7.7 billion. This difference would have been still greater had not most veterans cashed their terminal-leave bonds during the 1948 fiscal year. It is estimated that in 1949 the Federal Government will take in $7.1 billion more from the public than it pays out. This amount exceeds the budget surplus by almost $2.3 billion. The estimates make no allowance for possible payment of a dividend of between one and two billion dollars out of the national service life insurance trust fund.

Repayment of debt to the public differs from the reduction in the public debt shown in table 5. Repayment of debt to the public consists of repayment of moneys previously borrowed from the public (the public being defined as indicated above). Changes in the public debt arise from issuance and redemption of United States securities, regardless of whether the securities were issued in return for money borrowed and regardless of whether the holder is a member of the public or is an agency of the Federal Government. These differences between the two concepts result in three important differences in the magnitudes: (1) Sales and redemptions on the market of obligations of Government corporations are combined with other Federal debt transactions to arrive at net repayment of debt to the public, but are not included in changes in the public debt; (2) investments of Federal enterprises and trust funds in United States securities permit the repayment of debt to the public, without decrease in the total public debt; (3) the redemption of notes which had previously been noncash expenditures (such as terminal-leave bonds) reduces the public debt but does not affect repayment of debt to the public (because the latter is defined as including only repayment of moneys previously borrowed).

A supporting schedule, showing the derivation of the figures in table 14, and their relation to budget receipts and expenditures, will be furnished on request to the Bureau of the Budget.

INTRODUCTION TO PART II

Part II consists of the official estimates of appropriation recommended by the President in the form of proposed language of appropriations and supporting schedules. The detailed schedules for each appropriation title give data on a comparative basis for the fiscal years 1947, 1948, and 1949. In order to make the data for 1948 more nearly comparable to 1949, tentative estimates of supplemental appropriations for 1948 are included in those instances where the need for additional funds is definitely known and the amounts can be determined with reasonable accuracy.

Excluded from part II are supplemental appropriations probably required where the amount cannot be estimated accurately at this time, and appropriations to carry out new legislation or extension of existing legislation which will otherwise expire. (One-line tentative estimates for such items generally appear in table 8 of part I.)

The contents of part II are arranged in chapters, each one usually covering a department or major agency. Each chapter begins with a summary table which compares the amounts of appropriations and contract authorizations estimated for 1949 with the 1948 figures, including as a separate column certain estimated supplemental appropriations as explained above. This table is followed by an explanatory statement, describing briefly the functions and programs provided for in the budget estimates. The remaining portion of each chapter consists of the proposed appropriation language and supporting schedules, arranged by major organizational groupings, and within such groupings by annual appropriations from general accounts and special accounts, permanent appropriations, and trust accounts. The general content of the schedules is explained in the following illustration:

EXPLANATORY ILLUSTRATION OF ESTIMATES AND SCHEDULES IN PART II

APPROPRIATION LANGUAGE.

Roman type shows the language in the last annual appropriation act (or an explanatory note for permanent appropriations).

Actual appropriation for 1948. If the appropriation was indefinite, the latest estimate is shown.

SCHEDULE SHOWING SOURCE OF FUNDS.

Appropriation provided for 1947 and 1948, and *recommended* for 1949.

Adjustment between appropriations to reflect changes in financing activities and to place all three years on a comparable basis.

SCHEDULE SHOWING TOTAL OBLIGATIONS BY PURPOSE OR ACTIVITY.

SCHEDULE SHOWING TOTAL OBLIGATIONS BY UNIFORM OBJECT CLASS.

SCHEDULE SUPPORTING OBLIGATIONS FOR PERSONAL SERVICES.

Obligations for personal services cover (a) employment in "permanent" positions, broken down as to "departmental" (central office) and "field," by Civil Service grade, and in the higher grades by title, (b) employment in temporary positions and special categories, and (c) additional compensation for overtime, night work, etc.

Maintenance and Operation, Washington National Airport, Civil Aeronautics Administration—

Maintenance and operation, Washington National Airport: For expenses incident to the care, operation, maintenance, and protection of the Washington National Airport, including not to exceed $2,900 for the purchase, cleaning, and repair of uniforms, and [not to exceed $124,900 for the installation of runway lighting, repairs to existing paving, and to pave parking lot, $1,102,500] *arms and ammunition; $1,185,000*; and the [War and Navy] Departments *of the Air Force, Army and Navy*, are authorized to transfer to the Administrator without payment therefor [a heavy duty fire-crash truck, crane, and] such [other] equipment as is commonly used in ground operation at airports for use of the Washington National Airport. (*Departments of State, Justice and Commerce, and the Judiciary Appropriation Act, 1948.*)

Appropriated 1948, **$1,102,500** Estimate 1949, **$1,185,000**

	Actual, 1947	Estimate, 1948	Estimate, 1949
FUNDS AVAILABLE FOR OBLIGATION			
Appropriation or estimate	$869,500	$1,102,500	$1,185,000
Reimbursements for services performed	44,672	52,000	52,000

Grade 7. Range $2,695 to $3,272	25	69,632	34	95,227	43	121,292
Grade 6. Range $2,469 to $2,921	33	83,427	55	139,026	56	142,788
Grade 5. Range $2,244 to $2,695	23	54,249	9	21,168	9	21,543
Grade 4. Range $2,020 to $2,469	28	59,769	33	71,836	39	85,409
Grade 3. Range $1,822 to $2,168	12	22,656	18	34,680	18	35,368
Grade 2. Range $1,690 to $2,020	23	41,109	26	46,742	26	47,401
Total permanent, field	215	556,752	252	657,816	272	719,340
Deduct lapses	9.3	23,968	6.5	16,993	7	18,554
Net permanent, field (average number, net salary)	205.7	532,784	245.5	640,823	265	700,786
W. A. E. employment, field		1,011		1,994		1,994
Regular pay in excess of 52-week base, 5 U. S. C. 944				9,000		2,500
Overtime and holiday pay, field		11,813		11,178		13,388
Night-work differential, field		12,050		17,631		18,200
01 Personal services		557,658		680,626		736,868

Official title of the appropriation account.

Brackets enclose material proposed for omission in 1949.

Italic type indicates proposed new language.

Citations of relevant laws and latest appropriation acts are in parentheses.

Appropriation recommended for 1949. If the appropriation is indefinite, the latest estimate is shown.

Adjusting entries show sources of obligational authority other than appropriations, and the use of such authority for transfers, etc.

Balances not available after end of the year; to be lapsed.

Total obligations represent financial liabilities incurred for contracts awarded, personal services rendered, etc., whether or not actually paid or to be paid within the fiscal year.

Number and total salary represent for permanent employment the positions estimated to be required and the salaries thereof.

Deduct lapses represents savings in average numbers and amount of permanent positions resulting from delay in filling positions, leave without pay, etc., as offset by terminal leave payments.

Government Printing Office	2,000,000		2,000,000	2,200,000	+200,000
Total, trust accounts	2,317,700		2,317,700	2,313,000	−4,700

EXPLANATORY STATEMENT

The estimates for the legislative branch provide for the salaries and expenses of the Members and staffs of the Senate and the House of Representatives, and for the operation and maintenance of the Capitol, the Senate and the House Office Buildings, the Botanic Garden, the Library of Congress, and the Government Printing Office. The 1949 estimates for the legislative branch reflect a net increase of approximately 8 percent over total estimates for 1948.

The estimates for the United States Senate provide salaries for 96 Members and the regular employees and for travel and contingent expenses of the Senators. The 1949 estimates indicate a net decrease of approximately 1 percent under estimates for 1948.

The estimates for the House of Representatives provide salaries and expenses for 435 Members, Territorial Delegates, and the regular employees. The 1949 estimates indicate a net decrease of approximately 2 percent under estimates for 1948.

The Architect of the Capitol is responsible for the operation and maintenance of the Capitol, the Senate and House Office Buildings, and the Library of Congress. The net increase of approximately 23 percent in these estimates is accounted for largely in the following items: Capitol Building and repairs, maintenance of the House Office Building, Capitol power plant, and the Library buildings and grounds.

The Botanic Garden, which is also under the jurisdiction of the Architect of the Capitol, shows a 4 percent increase in its estimates due to salary advancements and plant materials.

The Library of Congress provides library and reference service not only to Members of Congress but for the entire Federal Government and for many thousands of private citizens. The 1949 estimates for the Library of Congress are approximately 20 percent larger than those for 1948. These increases are due largely to proposed increases in staff, salary advancements, and expansion of such services as distribution of printed cards, union catalogues, and printing and binding.

The Government Printing Office is the printer for the entire Federal Government. Costs of printing included in this estimate are for the legislative branch only. The amount included in the 1949 estimates shows a 15 percent increase over the 1948 appropriations due to increased legislative printing.

ESTIMATES OF APPROPRIATION

SENATE

SALARIES, MILEAGE, AND EXPENSES OF SENATORS

Salaries of Senators—

For compensation of Senators, $1,200,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$1,200,000** Estimate 1949, **$1,200,000**

Mileage of President of Senate and of Senators—

For mileage of the President of the Senate and of Senators, $51,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$102,000** Estimate 1949, **$51,000**

Expense Allowance of Senators—

For expense allowance of Senators, $240,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$240,000** Estimate 1949, **$240,000**

SENATE—Continued

SALARIES, MILEAGE, AND EXPENSES OF SENATORS—Continued

Total, salaries, mileage, and expenses of Senators:

Appropriated 1948, **$1,542,000** Estimate 1949, **$1,491,000**

SALARIES, OFFICERS AND EMPLOYEES

Salaries, Officers and Employees, Senate—

For compensation of officers, employees, clerks to Senators, and others, as authorized by law, including increased and additional compensation provided by the "Federal Employees Pay Act of 1945", as amended by the "Federal Employees Pay Act of 1946", as follows:

OFFICE OF THE VICE PRESIDENT

For compensation of the Vice President of the United States, $20,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $20,000 Estimate 1949, $20,000

For clerical assistance to the Vice President, at rates of compensation to be fixed by him, $32,385. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $32,385 Estimate 1949, $32,385

CHAPLAIN

Chaplain of the Senate, $2,520. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $2,520 Estimate 1949, $2,520

OFFICE OF THE SECRETARY

For office of the Secretary, $306,815. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $306,815 Estimate 1949, $306,815

COMMITTEE EMPLOYEES

For professional and clerical assistance to standing committees, $1,335,785. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $1,335,785 Estimate 1949, $1,335,785

CONFERENCE COMMITTEES

For clerical assistance to the Conference of the Majority, at rates of compensation to be fixed by the chairman of said committee, $26,380. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $26,380 Estimate 1949, $26,380

For clerical assistance to the Conference of the Minority, at rates of compensation to be fixed by the chairman of said committee, $26,380. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $26,380 Estimate 1949, $26,380

ADMINISTRATIVE AND CLERICAL ASSISTANTS TO SENATORS

For administrative and clerical assistants and messenger service for Senators, $4,482,555. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, $4,482,555 Estimate 1949, $4,482,555

OFFICE OF SERGEANT AT ARMS AND DOORKEEPER

For office of Sergeant at Arms and Doorkeeper, $822,225, including fifteen additional privates, Capitol Police force, as authorized by Public Law 299, Eighteith Congress: *Provided,* That the salaries of pages shall cover the periods from July 1 to July 31, 1948, inclusive, and from January 1 to June 30, 1949, inclusive, at the basic salary rate of $1,800 per annum each. (*Legislative Branch Appropriation Act, 1948; The Supplemental Appropriation Act, 1948; Second Supplemental Appropriation Act, 1948.*)

Appropriated 1948, $802,585 Estimate 1949, $822,225

OFFICES OF THE SECRETARIES FOR THE MAJORITY AND THE MINORITY

For the offices of the secretary for the majority and the secretary for the minority, $43,620. (*Legislative Branch Appropriation Act, 1948; The Supplemental Appropriation Act, 1948.*)

Appropriated 1948, $43,620 Estimate 1949, $43,620

Total, salaries, officers and employees, Senate:

Appropriated 1948, **$7,079,025** Estimate 1949, **$7,098,665**

CONTINGENT EXPENSES OF THE SENATE

Legislative reorganization: For salaries and expenses, legislative reorganization, including the objects specified in Public Law 663, Seventy-ninth Congress, $100,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$100,000** Estimate 1949, **$100,000**

Salaries and Contingent Expenses, Senate Policy Committees—

Senate policy committees: For salaries and expenses of the Majority Policy Committee and the Minority Policy Committee, $41,000 for each such committee; in all, $82,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$82,000** Estimate 1949, **$82,000**

Salaries and Contingent Expenses, Senate, Joint Committee on the Economic Report—

Joint Committee on the Economic Report: For salaries and expenses of the Joint Committee on the Economic Report, $70,000. (*Legislative Branch Appropriation Act, 1948.*)

Appropriated 1948, **$70,000** Estimate 1949, **$70,000**

Salaries and Contingent Expenses, Senate, Joint Committee on Atomic Energy—

Joint Committee on Atomic Energy: For salaries and expenses of the Joint Committee on Atomic Energy, including the objects specified in Public Law 20, Eightieth Congress, $150,000. (*Legislative Branch Appropriation Act, 1948.*)

Total, Library of Congress, annual appropriations, general accounts:

Appropriated 1948, **$6,711,625** Estimate 1949, **$8,081,900**

Permanent appropriations:

Bequest of Gertrude M. Hubbard, Library of Congress, Interest Account—

The act of August 20, 1912, appropriates out of any money not otherwise appropriated a sum equivalent to interest at 4 percent per annum on a principal fund of $20,000 held in trust by the Treasury under the will of Gertrude M. Hubbard. The amount so appropriated, together with any unexpended balances from prior years, is available each year for the purchase of engravings and etchings to be added to the Gardiner Greene Hubbard collection. *(37 Stat. 319.)*

Appropriated 1948, **$317,700** Estimate 1949, **$113,000**

Not to exceed ten positions in the Library of Congress may be exempt from the provisions of section 202 of the Independent Offices Appropriation Act, [1948] *1949*, but the Librarian shall not make any appointment to any such position until he has ascertained that he cannot secure for such appointment a person in any of the three categories specified in such section 202 who possesses the special qualifications for the particular position and also otherwise meets the general requirements for employment in the Library of Congress. (*Legislative Branch Appropriation Act, 1948.*)

GOVERNMENT PRINTING OFFICE

WORKING CAPITAL AND CONGRESSIONAL PRINTING AND BINDING

Public Printing and Binding, Government Printing Office—

To provide the Public Printer with a working capital for the following purposes for the execution of printing, binding, lithographing, mapping, engraving, and other authorized work of the Government Printing Office for the various branches of the Government: For salaries of Public Printer and Deputy Public Printer; for salaries, compensation, or wages of all necessary officers and employees additional to those herein appropriated for, including employees necessary to handle waste paper and condemned material for sale; to enable the Public Printer to comply with the provisions of law granting holidays and half holidays and Executive orders granting holidays and half holidays with pay to employees; to enable the Public Printer to comply with the provisions of law granting leave to employees with pay, such pay to be at the rate for their regular positions at the time the leave is granted; rental of buildings and equipment; fuel, gas, heat, electric current, gas and electric fixtures; bicycles, motor-propelled vehicles for the carriage of printing and printing supplies, and the maintenance, repair, and operation of the same, to be used only for official purposes, including operation, repair, and maintenance of motor-propelled passenger-carrying vehicles for official use of the officers of the Government Printing Office when in writing ordered by the Public Printer; freight, expressage, telegraph and telephone service, furniture, typewriters, and carpets; traveling expenses, including not to exceed $3,000 for attendance at meetings or conventions when authorized by the Joint Committee on Printing; stationery, postage, and advertising; directories, technical books, newspapers, magazines, and books of reference (not exceeding [$750] *1,250*); adding and numbering machines, time stamps, and other machines of similar character; purchase of uniforms for guards; rubber boots, coats, and gloves; machinery (not exceeding $300,000); equipment, and for repairs to machinery, implements, and buildings, and for minor alterations to buildings; necessary equipment, maintenance, and supplies for the emergency room for the use of all employees in the Government Printing Office who may be taken suddenly ill or receive injury while on duty; other necessary contingent and miscellaneous items authorized by the Public Printer; for expenses authorized in writing by the Joint Committee on Printing for the inspection of printing and binding equipment, material, and supplies and Government printing plants in the District of Columbia or elsewhere (not exceeding $1,000); *payment of claims pursuant to section 403 of the Federal Tort Claims Act (28 U. S. C. 921);* for salaries and expenses of preparing the semimonthly and session indexes of the Congressional Record under the direction of the Joint Committee on Printing (chief indexer at $4,951, one cataloger at $4,537, two catalogers at $3,544 each, and one cataloger at $3,047); and for all the necessary labor, paper, materials, and equipment needed in the prosecution and delivery and mailing of the work; in all, [$14,520,000] *$16,700,000*; to which sum shall be charged the printing and binding authorized to be done for Congress including supplemental and deficiency estimates of appropriations; the printing, binding, and distribution of the Federal Register in accordance with the Act approved July 26, 1935 (44 U. S. C. [301, 317] *301–310*) (not exceeding $450,000); [for] *the printing and binding of an edition of the Code of Federal Regulations as authorized by the Act of July 26, 1935, as amended (44 U. S. C. 311) (not exceeding $500,000);* the printing and binding of the supplements to the Code of Federal Regulations, as authorized by the Act of July 26, 1935 (44 U. S. C. 311) (*not exceeding* $100,000); the printing and binding for use of the Government Printing Office; the printing and binding (not exceeding $5,000) for official use of the Architect of the Capitol upon requisition of the Secretary of the Senate; in all to an amount not exceeding [$4,520,000] *$6,700,000*: *Provided*, That not less than $10,000,000 of such working capital shall be returned to the Treasury as an unexpended balance not later than six months after the close of the fiscal year [1948]

Printing and binding for Congress chargeable to the foregoing appropriation, when recommended to be done by the Committee on Printing of either House, shall be so recommended in a report containing an approximate estimate of the cost thereof, together with a statement from the Public Printer of estimated approximate cost of work previously ordered by Congress within the fiscal year for which this appropriation is made.

During the fiscal year [1948] *1949* any executive department or independent establishment of the Government ordering printing and binding or blank paper and supplies from the Government Printing Office shall pay promptly by check to the Public Printer upon his written request, either in advance or upon completion of the work, all or part of the estimated or actual cost thereof, as the case may be, and bills rendered by the Public Printer in accordance herewith shall not be subject to audit or certification in advance of payment: *Provided*, That proper adjustments on the basis of the actual cost of delivered work paid for in advance shall be made monthly or quarterly and as may be agreed upon by the Public Printer and the department or establishment concerned. All sums paid to the Public Printer for work that he is authorized by law to do; all sums received from sales of wastepaper, other waste material, and condemned property; and for losses or damage to Government property; shall be deposited to the credit, on the books of the Treasury Department, of the appropriation made for the working capital of the Government Printing Office and be subject to requisition by the Public Printer.

No part of any money appropriated in this Act shall be paid to any person employed in the Government Printing Office while detailed for or performing service in the executive branch of the public service of the United States unless such detail be authorized by law. (*Legislative Branch Appropriation Act, 1948.*)

GENERAL PROVISIONS—LEGISLATIVE BRANCH

SEC. 102. Purchases may be made from the foregoing appropriations under the "Government Printing Office", as provided for in the Printing Act approved January 12, 1895, and without reference to section 4 of the Act approved June 17, 1910 (41 U. S. C. 7), concerning purchases for executive departments.

SEC. 103. In order to keep the expenditures for printing and binding for the fiscal year [1948] *1949* within or under the appropriations for such fiscal year, the heads of the various executive departments and independent establishments are authorized to discontinue the printing of annual or special reports under their respective jurisdictions: *Provided*, That where the printing of such reports is discontinued the original copy thereof shall be kept on file in the offices of the heads of the respective departments or independent establishments for public inspection.

SEC. 104. No part of the funds appropriated in this Act shall be used for the maintenance or care of private vehicles.

SEC. 105. Whenever any office or position not specifically established by the Legislative Pay Act of 1929 is appropriated for herein or whenever the rate of compensation or designation of any position appropriated for herein is different from that specifically established for such position by such Act, the rate of compensation and the designation of the position, or either, appropriated for or provided herein, shall be the permanent law with respect thereto: *Provided*, That the provisions relating to positions and salaries thereof carried in House Resolutions 628, 691, and 693 (Seventy-ninth Congress) and House Resolutions 42, 54, 74, 78, 96, 113, and 183 (Eightieth Congress) shall be the permanent law with respect thereto.

SEC. 106. No part of any appropriation contained in this Act shall be paid as compensation to any person appointed after June 30, 1935, as an officer or member of the Capitol Police who does not meet the standards to be prescribed for such appointees by the Capitol Police Board: *Provided*, That the Capitol Police Board is hereby authorized to detail police from the House Office, Senate Office, and Capitol Buildings for police duty on the Capitol Grounds.

SEC. 107. No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided*, That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or that such person does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further*, That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation contained in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law. (*Legislative Branch Appropriation Act, 1948.*)

EXPLANATORY STATEMENT

GENERAL STATEMENT

In accordance with law, estimates for The Judiciary are included in the Budget without revision, in the amounts approved by the Judicial Conference of Senior Circuit Judges, except that estimates for the Supreme Court and the three lower courts having special jurisdiction in customs, patents, and claims litigation are included in the amounts approved by the respective courts.

Appropriations for The Judiciary provide funds for operation of all Federal courts, including the payment of salaries of judges and judicial officers and employees, and for their miscellaneous expenses. Provision is also made for the staff and expenses of the Administrative Office of the United States Courts.

Estimates for the fiscal year 1949 anticipate the employment of additional personnel in various judicial functions, and increased cost of travel and other expenses of The Judiciary.

UNITED STATES SUPREME COURT

The principal increase reflected in the estimates for the Supreme Court is an amount of $185,000 for additional air-conditioning equipment and for alterations to the Court library. Small increases are included for additional personnel, salary adjustments, within-grade promotions, and miscellaneous expenses. These increases are offset in part by a reduction in the estimate for printing and binding because of transfer of part of the estimate to an appropriation under the general heading, "Other Federal courts." Also, the Supreme Court Advisory Committee on Rules for Civil Procedure, which received a small appropriation in the current year, is requesting no further appropriation for 1949.

OTHER FEDERAL COURTS

The increases under this heading include $384,615 for additional personnel, of which $180,000 is to provide additional court criers, some of whom will be in lieu of bailiffs formerly paid from a Department of Justice appropriation which is eliminated from the 1949 estimates. Within-grade promotions of employees are estimated to require an addition of $194,880 and, largely because of the general rise in prices of services, supplies, and equipment, an additional amount of $323,750 is included for travel, printing and binding, and miscellaneous expenses. Partly offsetting these increases are the elimination of the nonrecurring amount of $370,000 for preparation of plans and specifications for a new courthouse in the District of Columbia, and a reduction of $61,000 in miscellaneous salaries of the courts in accordance with the elimination of certain language from the text of the estimate.

The estimates also anticipate that during the fiscal year 1949 the general fund of the Treasury will be reimbursed in the amount of $700,000 from the special accounts for the salaries and expenses of referees in bankruptcy, which amount equals the appropriations from the general fund to establish these special accounts at the beginning of the fiscal year 1948.

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

This Office is responsible to the Judicial Conference of Senior Circuit Judges for the performance of administrative services to The Judiciary, the preparation and reporting of statistical data relating to the activities of the courts, and similar matters. The increase reflected in the 1949 estimates for the Office is to provide additional personnel required because of added responsibilities and duties placed upon the Office, principally by the act of June 28, 1946, providing a system for the payment of salaries and expenses of referees in bankruptcy.

GENERAL PROVISIONS—THE JUDICIARY

SEC. 402. As used in this title, the term "circuit court of appeals" includes the United States Court of Appeals for the District of Columbia; the term "senior circuit judge" includes the chief justice of the United States Court of Appeals for the District of Columbia; the term "circuit judge" includes associate justice of the United States Court of Appeals for the District of Columbia; and the term "judge" includes justice.

SEC. 403. The reports of the United States Court of Appeals for the District of Columbia shall not be sold for a price exceeding that approved by the court and for not more than $6.50 per volume: *Provided*, That all books purchased hereunder for United States judges and other judicial officers shall be marked plainly "The Property of the United States", and such books shall in all cases be transmitted to their successors in office. (*Departments of State, Justice and Commerce, and the Judiciary Appropriation Act, 1948.*)

Permanent appropriation, special account:

Payments From Proceeds of Sales, Motor-Propelled Vehicles, Etc., Judiciary—

Under the act of August 2, 1946, proceeds of sales of vehicles equipment, accessories, and other items, the exchange of which is authorized by law, may be applied in whole or in part payment toward the purchase of similar items. The receipts from this source are set up in a special appropriation account, available for the fiscal year in which the obligation to purchase the new equipment is incurred; any unobligated balance is subsequently adjusted to miscellaneous receipts. (*5 U. S. C. 118d–1.*)

Appropriated (estimate) 1948, **$4,000** Estimate 1949, **$1,500**

Obligations: 09 Equipment—1947, $3,128; 1948, $4,000; 1949, $1,500.

EXPLANATORY STATEMENT

EXECUTIVE OFFICE OF THE PRESIDENT

The White House

These appropriation estimates provide for the compensation of the President, the salaries and expenses of the White House Office, an emergency contingent fund for the President, and the cost of maintaining the Executive Mansion and grounds. The appropriations for the President's immediate office provide for the handling of documents and correspondence, in addition to maintaining communication with Congress, heads of the executive departments and agencies, the press, the radio, and the general public.

Bureau of the Budget

The Bureau of the Budget assists the President in the preparation and administration of the Federal Budget covering the entire fiscal program of the Government. In addition, as a staff agency of the Federal Government, the Bureau makes studies to improve the organization and procedures of Federal agencies; clears departmental recommendations regarding pending legislation, Executive orders, and proclamations; and coordinates Federal statistical services. The Bureau also provides staff and services for the Federal Board of Hospitalization. The small net increase in the estimates for the fiscal year 1949 will provide for automatic salary increases and for additional printing.

Federal Reserve Bank of St. Louis

Council of Economic Advisers

The Council of Economic Advisers was established by the Employment Act of 1946 (15 U. S. C. 1021). Members took office in August 1946. Three hundred and fifty thousand dollars was appropriated for salaries and expenses in the current year. The increase recommended for fiscal year 1949 will provide a slight increase in staff and full-year services of personnel provided in the 1948 appropriation. In addition, a small increase will be made available for economic research contracts.

Section 2 of the Employment Act sets forth as goals of national policy, the maintenance of "conditions under which there will be afforded useful employment opportunities for those able, willing, and seeking to work," and the promotion of "maximum employment, production, and purchasing power."

Implementation of these goals within the executive branch centers around the economic report to the Congress submitted by the President at the beginning of each session and supplemented by interim reports from time to time.

Under the provisions of the act, the Council of Economic Advisers assists the President in the preparation of the annual economic report. It also analyzes and interprets economic trends and appraises Federal economic programs in light of the goals set forth in the act. As a result of these studies, the Council makes recommendations to the President on national economic policies and programs. In addition it makes such special studies as he may request from time to time.

In accordance with the terms of the act, the Council utilizes to the maximum the services, facilities, and information of other Government agencies and private research agencies. In making its studies and recommendations, it obtains the advice and counsel of representatives of State and local governments, labor, industry, agriculture, consumers, and others. In consequence, the staff of the Council is and will remain very small.

National Security Council

The establishment of the National Security Council was authorized by section 101 of the National Security Act of 1947, Public Law 253, approved July 26, 1947. Under the provisions of that law, the function of the Council is to advise the President with respect to the integration of domestic, foreign, and military policies relating to the national security, and is to be composed of the President, the Secretary of State, the Secretary of Defense, the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, the Chairman of the National Security Resources Board, and such of the following-named officers as the President may designate: The Secretaries of the other executive departments, the Chairman of the Munitions Board, and the Chairman of the Research and Development Board. The law also provides that the Council shall have a staff, headed by a civilian executive secretary appointed by the President with such other personnel as may be necessary.

The expenses of the Council for the fiscal year 1948 will be financed by the transfer of $115,000 from appropriations for the Department of the Army under authority contained in the Second Supplemental Appropriation Act, 1948, Public Law 299, approved July 31, 1947. The executive secretary is now recruiting a staff which is expected to reach a total of 31 persons by June 30, 1948. The estimate of $200,000 for the fiscal year 1949 provides for the pay of this staff and for other expenses.

National Security Resources Board

The National Security Resources Board was established by the National Security Act of 1947, approved July 26, 1947, to advise the President concerning the coordination of military, industrial, and civilian mobilization to meet the foreseeable eventualities of modern war. The Board is specifically charged with (1) studying the relationships between potential supplies of, and potential requirements for, manpower, resources, and productive facilities in time of war; (2) programs for the effective use in time of war of the Nation's natural and industrial resources for military and civilian needs, for the maintenance and stabilization of the civilian economy in time of war, and for the adjustment of such economy to war needs and conditions; and (3) making policies for establishing and maintaining strategic reserves of critical materials. Executive Order 9905, dated November 13, 1947, established the membership of the Board as the Chairman and the Secretaries of the Treasury, Defense, Interior, Agriculture, Commerce, and Labor.

The Board held its first meeting November 13, 1947, to organize and to plan a program of gradual development for the effective discharge of its statutory responsibilities. During the fiscal year 1948, the Board's activities will be financed by the transfer of funds from the Departments of the Army and Navy under authority contained in the Second Supplemental Appropriation Act, 1948.

The Board in the fiscal year 1949 will utilize the cooperative efforts of representatives from the fields of government, industry, agriculture, labor, and scientific research. Efforts are now being made to recruit a highly qualified staff to give continuity to, and evaluate the reports and recommendations of, advisory committees composed of leaders in the various fields relating to the problem of the mobilization of the Nation's resources in time of war. The estimate of $4.5 million provides for the pay and other expenses of the staff and for per diem and travel expenses of members of advisory panels.

Office for Emergency Management

Office of Defense Transportation

The Office of Defense Transportation was created by Executive Order 8989 on December 18, 1941. Its basic responsibility was to insure maximum utilization of the Nation's domestic transportation system during the war.

A greatly curtailed organization has, since the war, met emergency transportation needs arising from materials and freight car shortages. Much of the work is performed by the Interstate Commerce Commission on a reimbursable basis. Because of continuing shortages, the Second Decontrol Act of 1947 extended the agency's functions to February 29, 1948. The President recommended further extension to the Congress on November 17, 1947 (H. Doc. 430, 80th Cong., 1st sess.).

The agency's 1948 appropriation contemplated termination of its activities by the end of February 1948, and a small staff to complete its liquidation thereafter. Appropriations required to permit continued operations are included elsewhere in the Budget.

Office of Scientific Research and Development

The 1948 Budget made no provision for the Office of Scientific Research and Development in the expectation that the liquidation of this wartime agency would be completed by the end of fiscal year 1947. It subsequently became necessary to continue the agency into fiscal year

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

1948 with an appropriation of $90,000 in order to complete the program for voluntary renegotiation of its research and development contracts. Now that this has been accomplished, with the recovery to the Treasury of approximately $700,000 during 1948, the Office of Scientific Research and Development is being terminated and the supervision of a few residual liquidation matters transferred to the Secretary of Defense.

PHILIPPINE ALIEN PROPERTY ADMINISTRATION

This agency operates under a limitation on administrative expenses, with funds derived from property vested in the Philippine Islands. The estimate is the same as the amount for 1948. Considerable progress has been made in the vesting program, and it is expected that the agency will substantially complete its program in 1949, including transfers of assets to the Philippine Government in accordance with law.

OFFICE OF GOVERNMENT REPORTS

The Congress provided funds for limited operation and liquidation during the fiscal year 1948. Accordingly, no funds for the agency are recommended for 1949.

FUNDS APPROPRIATED TO THE PRESIDENT

ASSISTANCE TO GREECE AND TURKEY

In response to the President's message of March 12, 1947, the Congress authorized assistance to Greece and Turkey to enable these countries to maintain their economies and their political integrity. Under this program, food and essential agricultural and industrial supplies have been made available to Greece to prevent widespread human suffering and further economic deterioration. In addition, military supplies have been sent to Greece and Turkey to assist these countries to train and equip their respective armed forces.

DEFENSE AID, LIQUIDATION LEND-LEASE PROGRAM

The purpose of this appropriation is to complete the liquidation by the Treasury Department of activities under the Lend-Lease Act of 1941, except for billing and collections under lend-lease settlement agreements, which will be a continuing function for years to come. The liquidation activities, which will be completed in 1948, consist of remaining pipe-line shipments to 10 countries and adjustment of remaining obligation and expenditure documents.

FOREIGN AID

Although European production has risen substantially since the end of the war, it became increasingly clear during the spring and summer of 1947 that general European economic recovery would take a far longer time than had previously been anticipated. For this reason the suggestion was made that the European countries jointly review their situation and develop a cooperative program of recovery. It had been thought that the considerable amounts still available from previously authorized assistance from the United States, from international agencies and from other countries would allow adequate time for such a program to be developed. However, the financial and economic situation of France, Italy, and Austria had by late fall become so serious that immediate assistance from the United States was needed to alleviate widespread human suffering and prevent serious economic retrogression which would gravely jeopardize any general economic recovery program.

The adverse developments which necessitated interim aid were as follows: (1) the severe losses in agricultural production caused by the extraordinarily cold winter followed by the summer's drought; (2) the higher cost of essential imports caused by a rise in prices, particularly in the United States; and (3) the effects of the unexpected suspension of convertibility of sterling, which itself was caused to a great extent by the first two factors.

Without assistance from the United States the peoples of France, Italy, and Austria would have faced a winter of hunger and cold. Their consumption of food would have been so sharply reduced that serious malnutrition and suffering would occur. They would have lacked the necessary fuel, fertilizer, and other essential commodities to prevent immediate and dangerous deterioration in industrial and agricultural production. A rapid contraction in the flow of trade with other countries would have ensued with serious economic consequences throughout Europe which might have destroyed the foundations upon which a general European recovery program could be built. Interim aid will provide the supplies to prevent economic retrogression and will preserve the basis for a future recovery program for Europe.

In addition to aid to France, Italy, and Austria, the Third Supplemental Appropriation Act, 1948, made funds available for assistance to China, as authorized by Public Law 84, Eightieth Congress.

RELIEF ASSISTANCE TO WAR-DEVASTATED COUNTRIES

In response to a resolution adopted by the General Assembly of the United Nations urging members to assist in meeting the residual relief needs following the liquidation of United Nations Relief and Rehabilitation Administration, and to a recommendation by the President, the Congress authorized a program of relief assistance to peoples of countries devastated by war. In addition to assisting in the relief of human suffering, the program is designed to foster the economic recovery of the countries receiving assistance and to preserve democratic institutions.

Under the provisions of the act of May 31, 1947 (Public Law 84, 80th Cong.), assistance has been extended to Austria, China, Greece, Italy, and Trieste, largely in the form of food, fuel, fertilizer, seeds, pesticides, and medical supplies.

SURPLUS PROPERTY, CARE AND HANDLING OVERSEAS

Although the Department of State is the disposal agency for surplus property located overseas, the care and handling of this property is the responsibility of the respective owning agencies pending sale and transfer to the purchaser. The types of activities performed in care and handling of surplus property include guarding, packing and crating, transporting, and the maintenance of necessary records. Funds have been made available to the President for transfer to the Army and Navy to reimburse them for their services in this connection. Estimated appropriations to defray such costs in fiscal year 1949 have been combined with surplus disposal costs shown elsewhere in this Budget, pending reassignment of responsibility for the remaining foreign surplus activities.

INDEPENDENT OFFICES

AMERICAN BATTLE MONUMENTS COMMISSION

The American Battle Monuments Commission maintains and operates 8 World War I cemeteries and 12 memorials in France and Belgium, and the Mexico City National Cemetery recently transferred from the Depart-

ment of the Army. The Commission is also responsible for the permanent design and construction of World War II cemeteries and memorials. The appropriation for salaries and expenses provides for maintenance of existing cemeteries and memorials, completion of repairs of World War I properties, other than the completely destroyed Brest Naval Memorial, and the planning of World War II installations. The appropriation estimate of $1 million plus $2 million in contract authorization for construction of memorials and cemeteries contemplates the letting of contracts for construction on 7 cemeteries, 4 in France, 1 in England, 1 in Italy, 1 in Tunis, and preliminary construction in the Philippines, plus architects' fees and half the cost of 10 monuments.

Atomic Energy Commission

The Atomic Energy Commission, established pursuant to the Atomic Energy Act of 1946, received its first independent appropriation in fiscal year 1948. The functions of the Commission are a continuation and expansion of the research and development inaugurated under the Manhattan Engineer District of the Department of the Army. Classified operations are carried on under stringent safeguards for the security of information. The Commission is charged with development and production of fissionable materials and atomic weapons, with research leading to beneficent uses of atomic energy to improve the public welfare, with control of scientific and technical information to safeguard the national security and with dissemination of nonrestricted data to encourage scientific progress.

The Commission itself operates no plants or laboratories directly, but relies instead upon contracts for the services or facilities of industrial, educational, and research institutions and organizations. The largest plant and laboratory facilities engaged in the atomic energy program are owned by the Commission, and are operated on a contractual basis. To keep pace with new developments and replace temporary wartime facilities, the Commission has under way a substantial program of new construction. Development and production of atomic weapons is conducted in close cooperation with the National Military Establishment through the Military Liaison Committee and the Armed Forces special weapons project.

During the past fiscal year, the Commission has largely completed the establishment of its own organization following the transfer of functions from the Department of the Army. The administration of production and research activities has been substantially decentralized to five area offices. Three national laboratories have been established in order to encourage the participation of qualified educational and private organizations in the research program. A major program calling for the widespread distribution of radioactive isotopes for research and medical uses has been approved and put into effect. Steps have been taken for the improvement of the three communities adjacent to the production centers under the control of the Commission. Important new departures have been made in the fields of research and process improvement. Improvements have been made in the provisions for safeguarding security of restricted data. The process of disseminating declassified and unclassified data has been speeded.

The budget estimate for the fiscal year 1949 is comprised of $625 million of cash appropriation and $400 million of contractual authority. The cash appropriation figure is comprised of $300 million of new obligational authority and $325 million to liquidate obligations incurred against prior year contractual authorization; the latter amount is based in part upon anticipation of provision of contractual authority in fiscal year 1948 to supplement the amount provided in the Independent Offices Appropriation Act of 1948. The total of new obligational authority requested for fiscal year 1949 is, therefore, $700 million consisting of $300 million of cash appropriation and $400 million of contractual authority. The increase in obligational authority requested both in 1948 and 1949 arises from the necessity for improving technical processes, expanding both basic and applied research programs, advancing research in radiobiology and medicine, replacing obsolete production and community facilities, and expanding essential plant facilities.

Civil Service Commission

The Civil Service Commission recruits, examines and certifies persons for employment in the executive branch of the Government. Normally, selections are made as a result of competitive examinations. During the war years the Commission discontinued competitive examinations because of the urgency of filling a large number of vacancies in a scarce labor market. Persons who were appointed during this period received war-service indefinite appointments. The program for the replacement of war-service and temporary appointments with permanent-status personnel, initiated in fiscal year 1946, will continue throughout fiscal year 1949. The program entails the examining and certifying of a large number of persons who may wish to compete for available positions. Persons holding war-service appointments who wish to be retained in their positions will be required to compete with applicants from both within and outside Government.

The Commission is continuing its policy of decentralizing certain phases of recruitment and placement activities to the agencies and their field establishments. This function is accomplished through committees and boards of examiners, operating under the control of the Civil Service Commission, who are authorized to examine and select personnel for the more technical positions in a particular agency and for the mechanical and trade positions in the field service. The members of the committees and boards are appointed by and composed of employees of the establishments of the respective departments and agencies and operate under the supervision of the Civil Service Commission in accordance with procedures and rules established by it. The selection of personnel involves, particularly with regard to applicants for the more responsible Government positions, investigations of character and suitability.

Through the promulgation of rules and regulations and the issuance of standard procedures, the Commission to a large extent provides direction to all Federal personnel activities. It is responsible for the administration of the Classification Act which requires that the duties and responsibilities assigned Government positions be the basis for equitable salary allocations. The 1949 program contemplates issuing and establishing approximately 3,000 additional position standards to cover classified positions of the Federal service. Preparation of such standards will assure similar pay for similar work for employees of the Government.

Responsibility for the administration of the retirement laws for Federal employees, including the employees of the Panama Canal and the Alaska Railroad, is vested in the Commission. There is a slight increase in the amount provided for this project. This increase is necessary to enable the Commission to process the additional work load of applications for annuities and inquiries from employees.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

The Commission, during fiscal year 1949, will continue to conduct open competitive examinations which will result in the replacement of war-service and temporary appointees by permanent-status employees. It is estimated that approximately 418,000 probational placements will be made by the Commission in 1949 as contrasted with approximately 436,000 in 1948 and 329,000 in 1947.

The increase of $6,936,450 in the estimate for general administrative expenses over the amount available for 1948 provides for expansion of the loyalty program to assure that persons employed in the Federal service are loyal to the United States and to afford protection to loyal employees of the Government from unfounded accusations of disloyalty.

Executive Order 9835 assigned to both the Federal Bureau of Investigation and the Commission specific responsibilities in effectuating the loyalty program. The Commission's responsibilities include, among others, the establishment of a master index file for all loyalty investigations of applicants and employees; investigation of applicants for positions in the Federal service; full field investigation of applicants for so-called sensitive positions and the establishment of boards to provide a channel for appeals from employees who are dismissed because of disloyalty. A central review board also is maintained in Washington for the purpose of reviewing decisions of the regional boards and to prescribe necessary regulations for agencies to follow in carrying out provisions of the Executive order.

Retirement and disability funds.—Appropriations are made annually toward the Government share of providing benefits to participants in the retirement and disability funds provided by law for employees of the Federal service. These appropriations and the contributions made by the participating employees provide the trust funds from which benefits are paid.

The 1949 estimate of the Government's share of retirement funds and the Panama Canal construction annuity fund represents a net increase of $15,349,098. The additional amount is made up of an increase of $15 million in the estimated amount required for the Civil Service retirement and disability fund resulting from an increase in the number of Federal employees who are eligible to participate in the fund by virtue of having five or more years of Federal employment and from an increase in the Government accrued liability in the fund. It is estimated that some 668,000 employees will have acquired eligibility for such benefit rights by the end of fiscal year 1949. The increase of $349,098 for the Panama Canal construction annuity fund is to provide payments to additional annuitants as authorized by the act of August 7, 1946 (Public Law 619).

Commission on Organization of Executive Branch of the Government

The Commission on Organization of Executive Branch of the Government was created by the Eightieth Congress, July 7, 1947, to study and investigate the present organization and methods of the executive branch of the Government and report its findings and recommendations to the Eighty-first Congress. The amount of $750,000 was appropriated in the Second Supplemental Appropriation Act of 1948 for salaries and expenses of the Commission, but estimates for the fiscal year 1949 are not presently available.

770000—48——4

District of Columbia Redevelopment Land Agency

The District of Columbia Redevelopment Land Agency was established to administer the District of Columbia Redevelopment Act of 1945 which provides for the acquisition and assembly by purchase or condemnation of real property in slum or blighted areas in the District of Columbia and the sale or lease of such property for redevelopment in accordance with general and project plans. The sum of $20 million is authorized to create a special trust fund for these purposes. The estimate of $3.4 million will provide $100,000 for administrative expenses, $25,000 of which is for expenditure during the fiscal year 1948, and the purchase of two tracts of land totaling 320 acres and presently containing 1,100 dwellings, $1.4 million to be available for purchase of one tract in 1948.

Federal Communications Commission

The Federal Communications Commission regulates interstate and international communications by wire and radio. It administers the Communications Act of 1934, as amended, and international treaties, conventions, conferences, and agreements relating to electric communications. The Commission also handles technical matters for the Interdepartmental Radio Advisory Committee, which advises the President on the assignment of frequencies for use by Government agencies.

The Commission's activities include regulation of radio (broadcast, and safety and special services), and common carriers using radio or wire. Radio regulation requires allocation of the radio spectrum among the many services and licensing the use of frequencies, prescribing of engineering standards for use of the radio spectrum, surveillance of transmissions to protect freedom from interference and to secure compliance with the law, and licensing of operators. Common carrier regulation applies to interstate and international tariffs, physical connections, through routes and charges, construction and abandonments, mergers, accounting, valuation, and service.

Continuous expansion in types of radio services and number of transmitting stations is following new and improved services made possible by extraordinary developments in electronics. The expansion is most pronounced in safety and special services, i. e., aviation, marine radio, police, fire, railroad, intercity busses, taxicabs, utilities, and industrial. Accompanying this growth, estimates indicate that 70,000 new commercial operator licenses will be issued in fiscal year 1948, as compared with the 330,000 operator licenses outstanding on June 30, 1947, while issue of 75,000 new licenses is estimated for fiscal year 1949.

In the broadcasting services, television, as a result of remarkable strides in radio engineering, is coming rapidly into its own as a broadcasting medium. As of November 30, 1947, 72 stations were authorized as compared with 6 authorizations on June 30, 1945. Growth in frequency modulation, although somewhat less spectacular, has been nonetheless significant, with 1,008 stations authorized on November 30, 1947, as contrasted with 53 authorized stations on June 30, 1945. Standard broadcasting, directly affected by frequency modulation and television developments, has expanded from 955 authorized stations on June 30, 1945, to 1,944 as of November 30, 1947. This continuing expansion in the three broadcast services adds to the Commission's work load in three ways: (*a*) through the processing of increasing numbers of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

applications for new facilities, (*b*) increasing numbers of existing stations result in an increasing volume of applications for modification of facilities, transfer of control, and license renewals, and (*c*) the increase in operating stations requires greater continuing regulatory activity.

Common carrier regulation poses formidable problems for the Commission. Electronic developments are carrying over to this area, where intensive experimentation with radio by domestic carriers is being applied to commercial use. Here, regulation of common carriers in the public interest demands careful supervision by the Commission in matters of spectrum allocation, resolution of competitive conflicts, development of rate structures and determination of service characteristics. With the Bell system undertaking a $3 billion expansion program and Western Union undertaking the most comprehensive modernization program in its history, the Commission's most diligent efforts must be directed toward fulfilling its statutory functions.

The budget estimate for the fiscal year 1949 is $6,540,000, an increase of $300,000 over the 1948 appropriation. The increase is required chiefly to provide implementation of recent comprehensive revisions of international agreements pertaining to telecommunications, and to meet increasing work load in the nonbroadcast radio services.

Federal Mediation and Conciliation Service

The Federal Mediation and Conciliation Service was created as an independent agency by title II of the Labor-Management Relations Act, 1947 (Public Law 101, June 23, 1947). The act provided for the transfer to the Service of "all mediation and conciliation functions of the Secretary of Labor or the United States Conciliation Service under section 8 of the act entitled 'An Act to create a Department of Labor', approved March 4, 1913 (29 U. S. C. 51), and all functions of the United States Conciliation Service under any law * * * together with the personnel and records of the United States Conciliation Service."

The principal duty of the Service is to prevent or minimize interruptions of the free flow of commerce growing out of labor disputes by assisting the parties to settle such disputes through conciliation and mediation. In addition to the traditional function of attempting settlement of specific disputes, the Service has, under the act, the general responsibility of preventing labor-management differences from developing to the critical point where they require outside help. The effectiveness of the Service can best be measured by the absence of strikes in any area during a given period of time and not simply by the number of disputes handled and settled.

To further effectuate the purposes of the act, a national labor-management panel is authorized. It is the duty of this panel, at the request of the director, to advise in the avoidance of industrial controversies and the manner in which mediation and voluntary adjustment shall be administered, particularly with reference to controversies affecting the general welfare of the Nation. The act also authorized boards of inquiry to be appointed by the President to assist in settlement of disputes involving substantially an entire industry and which he believes will imperil the health or safety of the Nation. A separate item of $150,000 is recommended for 1949, which is available to this Service solely for the expenses of such special fact-finding boards.

With respect to its own mediation efforts, the Service estimates that it will receive 100,000 notices per year from employers or unions who are obliged by the act to report disputes arising from a desire to terminate or modify existing agreements. It is estimated that the Service will provide conciliation or mediation services in only 10,000 of these cases during the year. In addition, the Service estimates that it will participate in the settlement of 2,000 other dispute cases involving initial agreements, grievances, or other matters. To the extent that its staff resources permit, the Service will place increased emphasis on the preventive aspects of its program.

To provide for the immediate needs of the newly created agency, Congress made available an interim appropriation to permit the agency to operate until February 15, 1948. It is estimated that the Service, therefore, will require a supplemental appropriation of $1,050,000 for the period February 16, 1948, to June 30, 1948. The 1949 estimated total appropriation amounts to $3,090,000. This amount is not comparable to the estimated appropriations for 1948 because the agency was established on August 22, 1947, and, therefore, did not operate throughout the fiscal year. The increase of $630,000 over the total estimated appropriation for 1948 is due almost entirely to the necessity for providing for a full year's operation.

Federal Power Commission

The Federal Power Commission administers the Federal Power Act of 1935 and the Natural Gas Act of 1938 and has certain duties under the provisions of several other acts relating to Federal power developments such as Tennessee Valley Authority Act, Bonneville Act, Fort Peck Project Act, and the flood-control acts.

Large expansion programs are under way in both the gas and electric utilities industry involving large amounts to be expended for new construction. The impact of these programs on the work of the Commission is being felt particularly in the fields of certificates of public convenience and necessity for natural gas pipe-line companies, licensing of hydroelectric projects, and the issuance of securities. The expansion of the natural gas companies in securing new markets as result of the greatly increased industrial and domestic demand for gas is not only producing a marked increase in the number, but also in the complexity, of applications for certificates of public convenience and necessity.

The work of the Commission has increased materially also because of the inability of the electric utility industry to expand their generating facilities to meet increased power demands and must rely more and more on interconnections to forestall power shortages in certain areas.

A major function and responsibility of the Commission under both the Federal Power Act and the Natural Gas Act is the regulation of all wholesale rates and services for electricity and natural gas sold for resale in interstate commerce. In addition to the formal rate cases heard and determined by the Commission, this function embraces the analysis of hundreds of rate schedules filed by electric and gas utilities subject to Commission jurisdiction; the problem of simplifying and standardizing rate and tariff forms; and handling complaints and protests regarding the adequacy of service and the supply of natural gas.

New and additional work is being brought about by the accelerated water conservation and development programs of the Corps of Engineers and the Bureau of Reclamation. The Commission's work in the field of river basin surveys is primarily a problem relating to the control and development of the water resources of the river as contrasted to its work under other functions, such

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

as power market surveys, which are largely an electrical problem relating to the utilization of the water power that could be developed. In other words, the river basin survey is a study of the power potentialities of the river and the power market survey is a study of the manner in which these potentialities could be utilized.

The estimate for the fiscal year 1949 ($4,220,000) represents an increase of $267,000 over total estimated appropriations for 1948. The increase reflected is due mainly to the additional contemplated work in licensing hydroelectric projects, for making power market surveys and handling special power problems, river basin surveys, rate regulation, enforcement of uniform accounting practices, and the issuance of certificates of public convenience and necessity.

Federal Trade Commission

The Federal Trade Commission is charged with the responsibility of administering acts which are designed to accomplish the following purposes: (1) To promote free and fair competition in interstate trade in the interest of the public through prevention of price-fixing agreements, boycotts, combinations in restraint of trade, unlawful price discriminations, and other unfair methods of competition and unfair and deceptive acts and practices; (2) to safeguard life and health of the consuming public by preventing the dissemination of false and fraudulent advertisements of food, drugs, cosmetics, and devices which may be injurious to health; (3) to protect producers, manufacturers, distributors, and consumers from unrevealed presence of substitutes and mixtures in manufactured wool products; (4) to supervise the registration and operation of associations of American exporters engaged solely in export trade; and (5) to gather and make available to the President, the Congress, and the public, factual data concerning economic and business conditions as a basis for remedial legislation where needed, and for the guidance and protection of the public.

The $3,975,000 recommended for the fiscal year 1949 includes $118,000 which is to be transferred to the Securities and Exchange Commission to provide for that agency's participation in a joint program for the collection and compilation of business financial statistics. The remaining $3,857,000 estimated for expenses of the Federal Trade Commission in the fiscal year 1949 represents an increase of 30.5 percent above the amount appropriated for 1948.

An increase of $100,000 is included to enable the Commission to conduct legal and economic investigations and the initial case work pertaining to the business transactions of insurance companies in interstate commerce. A decision rendered June 5, 1944, by the Supreme Court of the United States held such transactions to be in interstate commerce, but the Congress postponed until June 30, 1948, the operation of existing laws which, under the Court's decision, became applicable to insurance companies. In the fiscal year 1949, therefore, the Commission will be required to administer the Clayton, Robinson-Patman, and Federal Trade Commission Acts as applicable to the insurance companies of the United States.

An increase of $384,000 is included to provide for a more intensive program of industry-wide investigations of practices involving combinations in restraint of trade, price-fixing agreements, unlawful price discriminations, and other unfair methods of competition. These investigations are expected to result in the promotion of free and fair competition in interstate commerce.

One of the most important current domestic economic problems is that of administered prices, which occur in many industries where a substantial proportion of the output is accounted for by a few large companies. Economic studies of industries following administered price practices should be initiated in order to determine and evaluate their effect upon the national economy. Subsequent publication of industry reports is expected to produce a deterrent effect on practices which adversely affect the economy. To permit the Commission to initiate and conduct such studies an increase of $185,000 is recommended.

The coordinated Federal program for the collection, compilation, and publication of business financial statistics is to be effectuated by the Federal Trade Commission and the Securities and Exchange Commission jointly. The Securities and Exchange Commission will develop data already being submitted to it by listed corporations pursuant to existing law, while the Federal Trade Commission will obtain similar data from a sampling of other corporations. These data will be consolidated and made available to other Government agencies and to the public. An increase of $175,000 has been included for the Federal Trade Commission's share of this work and, as previously indicated, the total recommendation includes an additional $118,000 for transfer to the Securities and Exchange Commission.

The remaining increase of $57,880 is for periodic promotions required to be made under existing law.

General Accounting Office

The General Accounting Office, which was created by the Budget and Accounting Act of 1921, makes independent audits of the Government's receipts and expenditures, prescribes uniform accounting systems, maintains appropriation accounts, settles claims, and construes and interprets laws.

During 1947 the settlement of over 107,000 disbursing and collecting officers' accounts was accomplished, representing about two and one-half times the number received. Nearly 35 million vouchers were audited, resulting in a decrease in inventory from 32 million to about 18 million vouchers. A closing inventory for 1948 of 11.5 million vouchers is contemplated with a further decrease in 1949.

The 1949 estimates for the General Accounting Office reflect a decrease of about 10 percent as compared with 1948 appropriations. By far the greater portion of the appropriations is required for the performance of auditing functions, including the audit of the accounts of Government corporations.

The work will be relatively current by the end of 1949. Although work loads continue to be heavy, the only serious backlog at this time is the check reconciliation work. Further reductions in 1950 are indicated.

Housing Expediter

The Office of Housing Expediter was first established by the President in December 1945, in the Office of War Mobilization and Reconversion, and administration of certain functions relating to housing were provided by Executive Order 9686 of January 26, 1946. In February 1946, the duties of Housing Expediter and National Housing Administrator were combined. Executive Order 9820 of January 11, 1947, segregated the functions of the Housing Expediter from the National Housing Administrator and by Executive Order 9841 of April 23, 1947, the

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

rent-control functions of the Office of Temporary Controls were transferred to the Housing Expediter.

Certain functions pertaining to the expediting of housing under the provisions of the Veterans' Emergency Housing Act of 1946 (Public Law 388, approved May 22, 1946), were repealed by the Housing and Rent Act of 1947 (Public Law 129, approved June 30, 1947), and the Office of Housing Expediter was continued until February 29, 1948. Subsequent appropriations provided for final liquidation by June 30, 1948.

No estimate for the fiscal year 1949 for the Housing Expediter is included in this chapter but is included elsewhere in this Budget under proposed legislation in connection with the extension of rent control.

Indian Claims Commission

By the act of August 13, 1946, an independent commission of three members was created to hear and determine claims of American Indian tribes, bands, or other identifiable groups of Indians residing within the territorial limits of the United States or Alaska. Claimants are allowed a period of 5 years after the date of the approval of the act within which to submit their claims. The act provides that no claim existing before August 13, 1946, but not presented within 5 years, may thereafter be submitted to any court or administrative agency for consideration, nor will such claim thereafter be entertained by the Congress. The act also provides that no claim accruing after the date of the approval of the act shall be considered by the Commission. The Commission is required to complete its work within 10 years. The three Commissioners took office on April 10, 1947. For 1948, $150,000 was appropriated, and an appropriation of $172,000 is recommended for 1949.

The Commission's general rules of procedure were issued in July 1947. With the issuance of the general rules, it is anticipated that the volume of cases received will increase materially but that it will not be possible to schedule a substantial volume of claims for hearings during fiscal year 1949.

Interstate Commerce Commission

The Interstate Commerce Commission regulates those railroads, motor carriers, pipe lines, stockyards, water carriers, private freight car lines, and freight forwarders, operating in interstate commerce. In general, its jurisdiction covers matters of tariffs, finance, operating authority, service, safety, accounting, and valuation. Regulation, in accordance with the national transportation policy, is performed in such a way as to recognize the inherent economic advantages of each type of carrier; to promote safe, adequate, economical, and efficient service; to encourage the establishment of reasonable charges; and to encourage fair wages and equitable working conditions.

Postwar readjustments in the transportation system continue to impose an unprecedented burden on the Commission. Effective January 1, 1947, for example, railroads were granted a general rate increase after extensive hearings and investigations. Within the year, the Commission again conducted exhaustive Nation-wide hearings for 3 months, on a request by the railroads for a second general rate increase. More Nation-wide and regional proceedings covering rates, charges, and practices of all types of carriers, are now pending before the Commission than at any time in its history. Following decisions in such proceedings, an additional work load is imposed on the Commission in handling controversies and issues over their application to individual situations.

To keep pace with the increasing importance of motor carriers in the transportation system, it is necessary to restore enforcement of the Interstate Commerce Act to prewar levels. Shippers and carriers are filing a growing number of complaints involving violations of laws, regulations, and published tariffs. In keeping with the growing number of proceedings requiring accurate cost data, more frequent field accounting investigations are required to ascertain that carriers' accounts are kept in accordance with Commission regulations. Highway hazards, too, have become a national problem; the Budget includes funds for additional motor vehicle safety inspectors to work with the States in the promotion of highway safety.

The Budget estimate for the fiscal year 1949 is $11,229,000, an increase of $486,000 over 1948 appropriations. Of this 4½-percent increase, $276,643, or 57 percent, is for the Bureau of Motor Carriers. The remainder of the increase is distributed to meet increasing work load among the other bureaus whose work is directly affected by Commission proceedings.

Interstate Commission on the Potomac River Basin

The Interstate Commission on the Potomac River Basin is an agency concerned with pollution problems in the Potomac River and its tributaries. It was established under a compact between Maryland, West Virginia, Pennsylvania, Virginia, and the District of Columbia, approved by Congress July 11, 1940. The compact provides that the Federal Government shall contribute to the expenses of the Commission. No such contribution has been made during the formative period of the Commission's program. The Commission, strengthened by recent increases in contributions from the signatory bodies to the compact, is now prepared to carry on a broad program of planning and coordination of activities for pollution control in the Potomac River Basin. The initial Federal contribution of $9,000 provided in the 1949 estimate approximates one third of the total budget of the Commission for 1949.

National Advisory Committee for Aeronautics

The National Advisory Committee for Aeronautics is the agency of the Government responsible for the scientific study of the problems of flight and for the conduct of research and experiments in aeronautics. The Committee, which consists of officials of the Government directly concerned with military and civil aviation and private citizens qualified in aeronautical fields, carries on research mainly at its three laboratories: The Langley Memorial Aeronautical Laboratory at Langley Field, Va.; the Ames Aeronautical Laboratory at Moffett Field, Calif.; and the Flight Propulsion Research Laboratory at Cleveland, Ohio. It also has flight research stations at Wallops Island, Va.; and at the Air Force's flight test base at Muroc, Calif. The research work performed directly by the staff of the Committee is supplemented through contracts with private institutions having facilities or personnel capable of assisting in the solution of special technical problems.

While civil aviation will ultimately benefit from much of the Committee's work, over 90 percent of the present program is now directed toward problems of immediate or future military concern and is an integral part of the aeronautical development programs of the military services. The appropriations recommended for 1949, totaling $48 million, represent an increase of $4,546,000 over the appropriations for 1948 to provide additional personnel,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

power, supplies, and equipment to accelerate progress in the Committee's research programs by making effective use of newly constructed facilities. They will also provide, together with the recommended contract authorization of $18.2 million, for the construction of additional research facilities that are required for the work of the Committee.

National Archives

The National Archives is charged with the preservation and servicing of inactive Federal records of permanent value and historical interest for use of Government officials and scholars. In addition, it authorizes agencies to dispose of useless records when Congress has previously approved the disposal of records of similar form and character, recommends to Congress the approval of schedules listing records for future disposal at the source, and after appraising records declared worthless by heads of agencies, makes recommendations to Congress for their disposal. This agency likewise publishes the Federal Register, containing interdepartmental orders of general effect and applicability, and administers the Franklin D. Roosevelt Library at Hyde Park, N. Y., which is the designated repository for the late President's official papers. The increase of approximately 11 percent in the 1949 estimates is primarily for analysis and description of records, rehabilitation of records and films badly in need of care, and preparation of the 1948 Code of Federal Regulations.

National Capital Housing Authority

The National Capital Housing Authority is the public housing agency for the National Capital and, under title I of the District of Columbia Alley Dwelling Act, operates 112 dwelling units and 5 nonresidential properties located in reclaimed slum areas in the District. All receipts derived from sales, leases, or other sources in connection with the operation of these properties are covered into the Treasury monthly.

The amount in the 1949 Budget is required to protect and conserve the Government's investment of some $555,000 in the title I properties.

Other activities of the National Capital Housing Authority, which are financed from other appropriations, include the operation and management of war and other housing projects and the disposition of war-housing projects.

National Capital Park and Planning Commission

The functions of the National Capital Park and Planning Commission are of an advisory and operating character. Its advisory activities, which include preparation and maintenance of a comprehensive plan for the development of the National Capital and its environs, are charged against District revenues and therefore appear in the District of Columbia chapter of the Budget. The operating function of the Commission includes acquisition of land for the development of the National Capital's park, parkway, and playground system and the George Washington Memorial Parkway on both sides of the Potomac River, and for the extension of the District park system into nearby Maryland and Virginia. Appropriations for these purposes are charged against the United States Treasury but are subsequently repaid either in whole or in part by the jurisdiction benefited: 100 percent by the District of Columbia; 50 percent by Virginia and Maryland for development of the George Washington Memorial Parkway; and 66⅔ percent by Maryland for extension of the park system in territory adjacent to the District. The Commission has the further responsibility of making a comprehensive plan and project area redevelopment plans under the District of Columbia Redevelopment Act, for which appropriations of Federal funds are authorized.

The total estimates of $1,796,500 for 1949 include $241,000 for acquisition of land in the District of Columbia, $1,494,000 for advances and contributions to the Maryland National Capital Park and Planning Commission for acquisition of land, and $61,500 for redevelopment planning and surveys.

National Labor Relations Board

The National Labor Relations Board administers the provisions of the National Labor Relations Act (29 U. S. C. 151–166), as amended by the Labor-Management Relations Act, 1947 (Public Law 101, June 23, 1947).

Like a court of law, the Board has little or no control over the number of actions brought before it but is under a statutory mandate to process all cases which are properly filed. Moreover, the Board's objective is comparable to that of a court: To resolve as rapidly as possible, consistent with careful investigation of the facts and due process of law, the issues brought before it for determination. It is assumed, however, that in the future, as in the past, the great majority of petitions and charges will be adjusted informally through the 19 regional offices, which are now responsible to the general counsel.

The amended act continues the established policy of guaranteeing the right of employees to self-organization; to form, join, or assist labor organizations; and to bargain collectively through representatives of their own choosing. The agency remains responsible for the investigation of questions concerning the representation of employees for bargaining purposes, and the certification of majority representatives of employees in appropriate bargaining units. The act defines five specific types of employer unfair labor practices which constitute interference with employees' defined rights.

In addition to continuing the foregoing policies and responsibilities, the Labor-Management Relations Act brought the agency new duties and responsibilities and required substantial changes in procedure and organization. The law provides legal remedies for six specified types of unfair labor practices committed by labor organizations or their agents. Three of the six designated unfair labor practices represent practices formerly chargeable against employers only. A fourth makes unlawful certain types of sympathy strikes, secondary boycotts, and jurisdictional disputes, as well as strikes designed to force an employer to violate a Board certification. The remaining two unfair labor practices forbid excessive or discriminatory membership fees and the exaction of pay for services not performed. Investigations of charges of prohibited sympathy strikes, secondary boycotts, or strikes against Board certification must be given priority and, if the evidence supports, must be made the subject of applications to court for injunctive relief.

On all types of alleged unfair labor practices, the agency investigates charges that are filed and, if after appropriate notice and hearing it finds that such practices have been committed, the Board is empowered to issue cease-and-desist orders against the parties found to have committed such acts. An order of the Board may be enforced, modified, or set aside by a United States Circuit Court of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

Appeals upon proper petition by the Board or an aggrieved party.

In addition to the handling of new varieties of unfair labor practice cases, the agency as reconstituted is responsible for the conduct of elections to determine whether employees desire to authorize labor organizations to bargain for union-shop agreements with their employers; for the receipt of affidavits and other documents as evidence of compliance with the act which requires, as a condition precedent to the use of Board machinery by a labor organization for its benefit, the filing of financial and other data with the Secretary of Labor and the filing with the agency of non-Communist affidavits by union officers; for the maintenance of current files on the status of compliance with such provisions by all local, national, and international labor organizations; for the conduct of elections on the question of whether employees wish to accept the last offers made by their employers in labor disputes which are subject to the national emergency provisions of the act; and for the determination by the Board of certain types of jurisdictional disputes.

The major change in the organizational structure of the agency and in the duties and responsibilities of the Board members has resulted from the statutory creation of the office of general counsel of the Board. The general counsel is appointed by the President, by and with the advice and consent of the Senate, for a term of 4 years. Under the Labor-Management Relations Act the general counsel has final authority, on behalf of the Board, respecting the investigation of charges and issuance of complaints and the prosecution of such complaints before the Board. The Board has responsibility for the handling of representation issues, but has delegated to the general counsel the field task of handling such cases, because the act requires his general supervision over all field personnel. These delegations of major sectors of the Board's administrative responsibility to the general counsel, both as required by the act and as a consequence of voluntary Board action, have emphasized the separateness of the Board as a quasi-judicial body.

The act also abolished the review section of the legal division and required this work to be performed by legal assistants to individual Board members. Approximately 40 assistants per Board member are estimated to be necessary to carry out the work of the Board.

The 1949 Budget estimates are based on estimated case intake and estimated staff necessary to process those cases. The agency plans to process cases on a current basis, to the end that labor-management difficulties may not be further hampered by delays on the part of Government. The agency forecasts a total of 60,000 of all types of cases (including 30,000 cases involving the holding of union shop elections). This forecast is necessarily speculative because there is little experience as yet on which to predict the extent to which labor and management will use the machinery of the new act, which only went into effect August 22, 1947.

On the basis of case-load forecasts, an estimated $12,875,000 would be needed for the Board's work during the fiscal year 1949. The estimate of $9.4 million, together with appropriation language making the entire appropriation available for obligation prior to April 1, 1949, if found necessary by the Bureau of the Budget for effective administration, gives recognition to the indefinite nature of the case-load estimates and the difficulty of accurately estimating financial needs.

National Mediation Board

The National Mediation Board and the National Railroad Adjustment Board are two administrative agencies created under the Railway Labor Act of 1926, as amended. The purpose of the act is to promote and maintain order in the labor relations of rail and air carriers and the organizations representing their employees.

Under the act, the National Mediation Board has the duty, with respect to rail and air carriers and express and sleeping-car companies, and their employees and employees' representatives: (1) To mediate disputes concerning rates of pay, rules, or working conditions, or any matter not referrable to the National Railroad Adjustment Board; (2) to investigate disputes over representation, and to determine through conduct of secret ballots or other appropriate methods, the freely chosen and authorized representatives of the employees involved; (3) to induce the parties to submit unresolved disputes to arbitration when mediation fails; (4) to notify the President whenever an unadjusted dispute threatens substantially to interrupt interstate commerce to a degree which would deprive any section of the country of essential transportation, and to service emergency boards which may be created by the President in such instances; and (5) to perform certain functions in connection with the National Railroad Adjustment Board.

The National Railroad Adjustment Board consists of 36 members equally representative of and compensated by the rail carriers and related national labor organizations. This Board operates through four independent, bipartisan divisions, each of which has exclusive jurisdiction over specified crafts of employees. It is the duty of the several divisions of the Board to act on appropriate petitions for adjustment of unresolved disputes between an employee or group of employees and a carrier or carriers, growing out of grievances or out of interpretation or application of agreements concerning rates of pay, rules, or working conditions. Secretaries to the Board members, administrative personnel, and incidental expenses are paid from appropriations authorized by the Railway Labor Act.

Although the transportation industry was not entirely free from work stoppages in the past year, the agency has contributed materially to stable labor relations in its field. No crucial labor problems in the industry are anticipated in 1948 or 1949, although considerable unrest is expected to continue. Mediation and representation annual case loads are estimated at 480 for 1948 and 1949, but arbitration and emergency board requirements are expected to diminish. The case backlogs of the National Railroad Adjustment Board are still high, but this Board hopes to achieve reasonable currency in its work during fiscal year 1949.

The 1949 estimates would provide $862,550 for the agency, an over-all decrease of $6,850. Minor cost increases for within-grade promotions and travel, and a larger volume of Adjustment Board awards partially offset the reduced needs for arbitration and emergency boards.

Office of Selective Service Records

Public Law 26, Eightieth Congress, approved March 31, 1947, established the Office of Selective Service Records and charged it with three functions, (a) liquidating by March 31, 1948, the Selective Service System, (b) establishing and operating Federal records depots, and (c) preserving the records, knowledge, and methods of Selective Service. Principal functions of the depots are the servicing of requests for information and preparation for States of statements of service on all veterans.

By the end of fiscal year 1948 the Selective Service System will have been completely liquidated, Federal records depots will have been established and will be in operation in all States, and a planning and training program will be well under way.

The Budget for 1949 provides for operation of the Office at the approximate level of the latter part of fiscal year 1948.

Philippine War Damage Commission

To implement the policies of the United States toward the Philippines as embodied in the Tydings-McDuffie Act of 1934, the Philippine Rehabilitation Act of 1946 authorized the appropriation of $400 million in partial restitution of property losses resulting from the war. The Philippine War Damage Commission was established pursuant to Public Law 370, Seventy-ninth Congress, to adjudicate and pay such war damage claims to persons qualified under the law. The Commission began operation with an appropriation of $10 million carried in the Third Deficiency Appropriation Act of 1946, and received $70 million for the fiscal year 1948.

During fiscal year 1947 the Commission completed organization of a staff designed for large-scale handling of claims, distributed one and one-quarter million sets of claim forms throughout the 7,000 islands of the Philippine Archipelago, and on March 1, 1947, began the receipt, adjudication, and payment of claims. The year provided by law within which claims may be filed with the Commission will be completed on February 29, 1948, at which time an estimated 900,000 claims will have been received. All claims must be adjudicated and paid prior to April 30, 1951, the date set by law for the dissolution of the Commission.

It is estimated that approximately 160,000 claims will be adjudicated during the fiscal year 1948. In order to complete adjudication of all claims within the time limit set by law, it is planned to adjudicate approximately 400,000 claims in the fiscal year 1949. An expansion of 58 percent in the staff of the Commission is requested to process this 150 percent increase in work load. The increased staff will increase the rate of payment from 730 claims per working day to 1,600. The appropriation of $95 million requested for the fiscal year 1949 is required to cover the accelerated rate at which claims will be adjudicated and paid. The sum of $225 million of the total authorization will remain to be appropriated in the fiscal years 1950 and 1951.

Railroad Retirement Board

The review of previous claims awards and disallowances required by the amendments to the Railroad Retirement Act in Public Law 572, Seventy-ninth Congress, will be completed in 1948 thus enabling the Board to return to a more normal operating level. Because of the new insurances added and the more liberal basis for determining rights under the old insurances provided by the foregoing amendments, the retirement program will operate at a substantially higher level than in 1946. The estimates for salaries, miscellaneous expenses, printing and binding, and penalty mail, totaling $4,430,000 for 1949, a decrease of 22.5 percent from 1948, reflect the completion of the review program and the anticipated volume of claims expected in that year.

The railroad retirement appropriated account is made up of the estimated taxes to be collected from carriers and their employees, to provide, after deduction for annual administrative costs, for retirement, pension, disability, and survivor benefits. It also includes Federal contributions for military service which represent, as provided by law, the total tax which would have been received had the worker entering military service continued in railroad employment with earnings of $160 per month. The high level of the estimate ot taxes for 1948 reflects the effect of the increased tax rates beginning with the calendar year 1947 on a high level of taxable wages increased somewhat by wage awards effective in 1948.

By reason of the continued receipt of taxes in excess of benefit payments and administrative costs, the railroad retirement trust fund at the close of 1947 continues to show an improved position. It is anticipated that this favorable trend will continue for a number of years thereby bringing the trust fund into a stronger actuarial position.

The railroad unemployment insurance administration fund annually receives 10 percent of the taxes collected for railroad unemployment insurance. It is used for the administrative costs of operating the railroad unemployment insurance system. The unexpended balance of the fund in excess of $6 million at the close of each fiscal year together with 90 percent of the taxes collected goes into the railroad unemployment insurance trust fund which is used to pay unemployment, sickness or temporary disability benefits. By reason of the additional insurances and more liberal benefits provided by Public Law 572, Seventy-ninth Congress, withdrawals from the fund will tend to be larger than in past years. Nevertheless, the annual accumulations to the trust fund continue to improve its already strong position to meet any demands that may be made upon it in 1949.

Securities and Exchange Commission

The functions of the Securities and Exchange Commission include the supervision of registration of security issues and suppression of fraudulent practices in the sale of securities; regulation of transactions in securities, both on the stock exchanges and in the over-the-counter markets; regulation of public-utility holding companies; registration and regulation of investment companies and investment advisers; and the preparation of advisory reports on plans and participation as a party in corporate reorganizations.

The over-all volume of work coming to the Commission in 1947 continued at the increased postwar rate. Corporate financing, as reflected in the registration of securities with the Commission, remained at a high level. More financing was involved for new money purposes in 1947 than in the previous fiscal year when the total financing was at its highest peak. This has required a close scrutiny of disclosures made with respect to many new promotions. The Commission's work in connection with the surveillance of securities markets was performed in 1947 on about the same basis as in the previous year.

Progress is being made in conforming the structures of electric and gas holding company systems with the

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

patterns set forth by Congress in the Public Utility Holding Company Act of 1935. It is expected that further progress in this respect will be made in 1948 and 1949. More financing for new money purposes was accomplished by the public utility industry in 1947 than the aggregate for the 12 preceding years.

The $6 million estimated for expenses for the fiscal year 1949 together with a transfer of $118,000 from the Federal Trade Commission for corporate financial statistics, represents an increase of approximately 6.6 percent above the amount available for 1948. The additional funds are for (1) additions to the staff engaged in processing registration statements covering securities issues for new financing and for other purposes; (2) for a broader surveillance of securities markets, including the inspection of the books and records of brokers and dealers transacting business in the over-the-counter markets; (3) for servicing formal dockets; (4) for bringing up-to-date the printing of the Commission's decisions and reports which fell in arrears during the war years; and (5) for participation with the Federal Trade Commission in the coordinated Federal program for the collection, compilation, and publication of business financial statistics. In regard to the latter item, the Securities and Exchange Commission will develop data already being submitted to it by listed corporations pursuant to existing law, while the Federal Trade Commission will obtain similar data from a sample number of other corporations. These data will be consolidated and made available to other Government agencies and to the public.

Smithsonian Institution

The Smithsonian Institution, founded in 1846 for "the increase and diffusion of knowledge among men," carries on fundamental research in the natural sciences, and administers the United States National Museum, the Astrophysical Observatory, the National Collection of Fine Arts, the Bureau of American Ethnology, the International Exchange Service, and the Canal Zone Biological Area. The Institution establishes the standards which control a large proportion of the scientific inquiries of mankind. Much of its basic research is of great benefit to the oil, mining, manufacturing, and fishing industries, to engineering enterprise, and to medical research. The increase of approximately 21 percent in the 1949 estimates is required to overcome serious backlogs throughout the Institution's scientific divisions and for operation and maintenance of the assembly center for the National Air Museum.

The National Gallery of Art is a quasi-independent branch of the Smithsonian Institution. Here are displayed free to the public world-famous paintings and other art objects. An increase of approximately 2 percent in the 1949 estimates is required for within-grade salary advancements and one new position.

Tariff Commission

The Tariff Commission collects, organizes, and interprets economic and trade data relating to industry, commodities, and foreign trade for governmental use in formulating and implementing United States tariff policy. The Commission does not determine trade policies nor does it have regulatory functions. Its investigations and reports provide a basis for action by the Congress, the President, and the executive departments.

The total appropriated funds available to the Commission during fiscal year 1948 are $1,150,532. The proposed appropriation for the fiscal year 1949 totals $1.2 million, an increase of $49,468, which is largely to care for certain uncontrollable increased costs.

The Tariff Commission is currently engaged in studies made at the request of the committees of Congress respecting provisions of the charter for the International Trade Organization, and the tariff position of all commodities in international trade, as well as reports on the critical commodities included in the programs for the rehabilitation of the European economy.

The Commission's basic studies on tariffs will continue throughout the fiscal year 1949. It will also be concerned with the conduct of hearings, and the preparation of reports to the Congress and the President on the effect of the recent reciprocal trade agreements, as required by Executive Order 9832, dated February 25, 1947. The whole field of international trade as it may be affected by United States legislation and international agreements will continue to require close attention by the Tariff Commission if all branches of the Government are to have available the factual data needed for decision and action.

The Tax Court of the United States

The function of the Tax Court is to review administrative determinations of tax deficiencies made by the Commissioner of Internal Revenue and to finally decide whether there is a deficiency or an overpayment in income, profits, estate, gift, and unjust enrichment taxes, and personal holding company surtaxes; to adjudicate controversies relating to excess profits on Navy contracts and Army aircraft contracts; and to review the action of the Commissioner in deficiency and refund cases founded on claims of abnormalities under excess-profits statutes. The Court also has jurisdiction in cases involving refunds of processing taxes, and in determining the amount of excessive profits on war contracts when contractors appeal determinations made under the Renegotiation Act.

The 1949 estimates for the Tax Court of the United States are in the same amount as the 1948 appropriations. During 1947 a total of 3,223 cases were closed, of which number 827 were closed by trial. A somewhat greater accomplishment is anticipated for 1948 and 1949. At the beginning of fiscal year 1948 there was a backlog of about 6,300 cases including about 500 renegotiation cases.

United States Maritime Commission

The Merchant Marine Act of 1936 declared a merchant marine to be "necessary for the national defense and development of * * * foreign and domestic commerce." The act represented a compromise after 150 years of controversy, departing from previous legislation by accepting the principle of open subsidization of both construction and operation, regulated to prevent abuses. To administer the act, Congress created the United States Maritime Commission and entrusted it with broad discretionary authority to define and establish "essential" trade routes; to administer construction- and operating-differential subsidies; to purchase, construct, and operate vessels either directly or by contract under certain conditions; to train officers and seamen, and to establish working conditions, wages, and manning scales for inclusion in subsidy contracts; to provide ship-mortgage insurance; to regulate trade practices and prevent discrimination among shippers; and to promote both foreign trade and the employment of American vessels.

On December 1, 1947, the President transmitted a message to Congress recommending that the Commission's

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

authority relating to the charter, sale, and operation of Government-owned vessels be extended from its present expiration date of February 29, 1948, to June 30, 1949 (H. Doc. 468). Accordingly, amounts have been included for fiscal years 1948 and 1949 to provide funds necessary as a result of this recommended extension of authority. The need for such extension is brought about by the continuation in Government ownership of approximately two-thirds of the active American-flag fleet. Over 1,200 dry-cargo vessels are under charter to American citizens, chiefly for the purpose of carrying relief cargoes such as coal, grain, and fertilizer to Western Europe. Other portions of the chartered fleet are engaged in essential coastwise and intercoastal services. Under its authority to operate vessels through agents for Government account, the Commission is now operating emergency passenger vessels and tankers.

Estimates of appropriations for fiscal year 1949 total $121.5 million, including funds for extension of the sales, charter, and operating functions of the Commission.

Salaries and expenses.—Long-range promotional activities of the Commission are provided for in the amount of $75.4 million under this head. Included is $24 million for new ship construction (plus $15.3 million in contract authorization), $30 million for operating-differential subsidies, $7.5 million for reserve fleet expense, $11.6 million for administrative expenses, and lesser amounts for maintenance of shipyard facilities, operation of warehouses, operation of terminals, and miscellaneous expenses.

Maritime training.—The budget provision of $6.9 million for the training of merchant seamen contemplates continuation of schools at King's Point, N. Y.; Sheepshead Bay, N. Y.; St. Petersburg, Fla.; and Alameda, Calif.; as well as pay and subsistence for cadets in four State marine schools.

State marine schools.—In addition to the direct training activities of the Commission, grants are made to established State marine schools. The appropriation for State marine schools is to provide for matching grants and per capita payments for out-of-State students, and for repairs for vessels loaned by the Federal Government to these schools.

Vessel operating activities.—Continuation of these activities from March 1, 1948, to June 30, 1948, will require supplemental appropriations in the current fiscal year estimated at $19.7 million. For 1949, because of a gradual decrease in the level of chartering operations, it is estimated that only $38.8 million will be necessary. Approximately half of the amount included for 1949 relates to continued operation of 10 emergency passenger vessels. Of the remaining $18 million for charter activities, approximately $8 million is for the exchange of an estimated 100 vessels under charter with a like number from the reserve fleets. The remaining expenses are incidental to the continued charter operation, including funds for the gradual withdrawal of about 200 vessels from charter operations prior to the end of the fiscal year 1949.

Veterans' Administration

The Veterans' Administration furnishes to the veterans of all wars and of the peacetime National Military Establishment services consisting mainly of medical and hospital care under specified conditions, the payment of compensation and pensions, and the administration of Government life insurance. The agency also administers a number of programs for World War II veterans, including vocational rehabilitation for disabled veterans and the programs authorized by the Servicemen's Readjustment Act of 1944. This act provided for the guaranty of loans for the purchase of homes, farms, or business properties; the provision of subsistence allowances, tuition, books, fees, and educational supplies to veterans wishing to obtain additional education, or desiring to undertake vocational training; and the payment of readjustment allowances to veterans seeking employment, or attempting to establish themselves as self-employed, during the period following their discharge from military service.

Congress has previously authorized an extensive hospital construction program consisting of 99 new hospitals and additions to existing hospitals to provide 53,500 beds for the care of the greatly expanded veteran population. It is anticipated that 91 new hospitals and additions consisting of 46,900 beds will be completed or under construction by the end of fiscal year 1949.

Funds estimated for operating expenses of the medical, hospital, and domiciliary care program are premised on the use of an average of 135,473 beds in 135 hospitals and homes to provide hospital and domiciliary care for an estimated average patient and member load of 125,600, an increase of 14,841 over the fiscal year 1948 estimate. In addition, an average patient and member load of 21,950 will be cared for in other Federal, State, and private hospitals and homes. The out-patient activities at field stations will provide medical and dental care for an estimated 4 million veterans in its own facilities and approximately 2⅓ million veterans are expected to receive such care on a fee basis through the agency's home town medical care program. Funds recommended will permit considerable expansion of the programs for education and training of medical personnel and for medical research in connection with the care of veterans hospitalized in the agency's facilities.

The administration of national service life insurance is complicated by the great number of policies issued—approximately 20 million—and the fact that over 10 million veterans were demobilized in a period of less than a year, necessitating transfers from a deduction-from-pay basis to an individual direct-payment basis. The agency has in the past quite naturally concentrated its efforts on rendering the best possible service to veterans who have maintained their insurance. It is estimated that approximately 4,250,000 veterans have continued their insurance. An additional 1¾ million policies are in effect covering members of the armed forces.

The progress in getting records on a current basis with respect to veterans continuing their insurance has been such that it is now possible to plan the preliminary steps of determining the period of time each veteran maintained his insurance, whether or not he subsequently allowed it to lapse. This information is essential to the payment of dividends. Work on this project is scheduled to begin in the near future and will be completed some time during the 1949 fiscal year.

The next step then will be the actual calculation of dividends payable to veterans who maintained their term insurance for a minimum period. It is uncertain that such payments will be begun in the fiscal year 1949. Such a process will involve the receipt and review of 18 million applications. Because of the size and complexity of the operation and the difficulty of foretelling at this time the extra costs involved, it is planned to submit an estimate of appropriation for the administrative expenses attached to the actual processing of ap-

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

plications and payment of dividends when the time schedule and the financial requirements are more precisely known.

Of the benefits provided under the Servicemen's Readjustment Act of 1944, the most extensively used have been those provided under the education and training program. It is estimated that the average number of veterans engaged in this program in the fiscal year 1948 will be approximately 2,250,000, with approximately 1,730,000 during the 1949 fiscal year. In addition, the number of disabled veterans receiving vocational rehabilitation is estimated at approximately 246,000 in the 1948 fiscal year and 216,000 in the 1949 fiscal year. The estimated decrease in the load for 1949 under 1948 is, of course, accompanied by estimated reductions in the benefit payments and administrative expenses.

The payment of readjustment allowances to veterans while seeking employment, or while attempting to establish themselves as self-employed, has been declining markedly as veterans have been increasingly successful in locating suitable employment. The numbers of veterans receiving such payments during the fall of 1947 has been at the lowest point since December of 1945. It is estimated that the average numbers of veterans receiving unemployment allowances will be 500,000 in the 1948 fiscal year and 325,000 in the 1949 fiscal year, while the number of veterans receiving payments while attempting to establish themselves as self-employed will be 125,000 in 1948 and 65,000 in 1949.

The processing of new applications for compensation and pensions has been decreasing. Sixty percent of the review of all cases under the 1945 disability rating schedule was completed as of September 30, 1947, and the balance of this work is scheduled for completion not later than September 30, 1948. Additional work in connection with compensation and pension claims will consist mainly of the periodical review of cases now on the rolls. Although the administrative load involved in processing applications is decreasing, the compensation and pension rolls are estimated to reveal some increase, as follows: June 30, 1947 (actual), 2,920,769; June 30, 1948 (estimated), 2,946,229; June 30, 1949 (estimated), 3,063,160.

The loan guaranty program is estimated to remain at the 1947 level of approximately 635,000 loans guaranteed throughout the fiscal year 1948 and fiscal year 1949. However, the losses resulting from the accumulated number of loans guaranteed have recently increased and this increase is expected to continue through both the current and the coming fiscal year, thus increasing somewhat the amounts payable for this program from the appropriation "Readjustment benefits."

The contact program (providing information and referral services to veterans) has been decreasing. As work loads caused by the Servicemen's Readjustment Act decline, and as more efficient operation becomes possible in other programs, a further decrease is anticipated in this program.

The general administrative program of the agency, including the maintenance of the files and the payment of the various types of awards, will be decreased in 1949 from the 1948 level, largely due to the decrease in volume of the various benefit programs, especially those authorized by the Servicemen's Readjustment Act.

The appropriation estimate for "Salaries and expenses" is $937 million, an increase of $39 million over the amount available in 1948. The medical, hospital, and domiciliary activities are estimated to cost $639 million, an increase of approximately $100 million over the amount available for 1948. The estimate for the administration of all other programs is $298 million, or $61 million less than the estimated 1948 cost.

Estimates for "Printing and binding" and "Penalty mail costs" reflect the decline in the general administrative load.

The recommended appropriation for "Army and Navy pensions" reflects a decrease under the amount for 1948, although expenditures are estimated to increase from $2,055 million in the 1948 fiscal year to $2,105 million in the 1949 fiscal year. The decrease in the appropriation estimate is caused by the availability of unexpended balances at the end of the 1948 fiscal year.

The recommended appropriation for "Readjustment benefits" shows a considerable reduction in 1949 from the amount appropriated in 1948. This is partially accounted for by reduced estimates for the current fiscal year resulting in unexpended balances at the close of this fiscal year, which may be used in 1949. The expenditure estimates under this head, including expenditures for education and training, unemployed and self-employed allowances, and the loan guaranty program are estimated at $3,280 million in the 1948 fiscal year and $2,528 million in the 1949 fiscal year.

The hospital construction program for 1949 under "Hospital and domiciliary facilities" provides no authorization for additional new beds but includes recommended additional contract authorization of $15 million to meet the increased construction costs of new hospitals previously authorized and $28 million for the repair, alteration, and renovation of existing hospitals and homes. The $230 million estimate of appropriated funds is for liquidation of obligations against contractual authority previously provided for repairs, alterations, and renovations of existing facilities and for approximately 91 new hospitals with 46,900 beds, estimated to be completed or under construction by June 30, 1949.

No estimate is included for the appropriation "Operation of canteens" since canteens have now been established in substantially all of the existing hospitals and homes. Funds previously appropriated for use as a revolving fund are estimated to be adequate for the installation of canteens in new hospitals to be completed in 1949.

The recommended appropriation for the Government's share of war-risk losses under the National Service Life Insurance Act of $49 million as compared to $62 million in fiscal year 1948 indicates the virtual completion of war-risk transfers to the insurance trust fund. While such transfers will continue indefinitely, the amounts will gradually decrease.

The appropriation for "Soldiers' and sailors' civil relief," estimated at $65,000 for 1949 as compared to $833,000 in fiscal year 1948, also reflects the virtual completion of the program of protecting veterans from loss of commercial insurance policies during their war service.

While the appropriation for "Veterans' miscellaneous benefits" is estimated at $52 million for the 1949 fiscal year compared to $85 million in the 1948 fiscal year, the expenditure estimates are $71 million in 1948 and $67 million in 1949. The availability of unexpended balances at the end of the fiscal year 1948 will decrease the appropriation needs for 1949.

Not included in this chapter but included in the Budget as a contingency is an estimated appropriation for the administrative expenses of making the initial dividend payment of national service life insurance, as previously

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

discussed. The estimate will be submitted at a later date when actual needs can be determined more exactly.

War Assets Administration

Handling and disposition of property surplus to the needs of Federal agencies in the continental United States and in the Territories and island possessions (except Guam) is the responsibility of the War Assets Administration. Under the authority of the Surplus Property Act of 1944, 12 Government agencies have from time to time been designated to assist in the disposal of surplus property, but nearly 98 percent of the property now available for disposal is carried in War Assets Administration inventories.

Existing statutory objectives governing the disposal of surplus property include the following: To promote the reestablishment of a peacetime economy of free private enterprise; to strengthen and preserve the competitive position of small business; to establish returning veterans in agriculture, business, and professions; to effect broad and equitable distribution of surplus property; to dispose of surpluses rapidly without fostering monopoly; and to obtain fair value for the Government.

In disposing of personal property the Administration is required by the act to observe purchasing priorities in the following order: Federal Government agencies, veterans, small business, State and local governments, and nonprofit institutions. In addition, a number of surplus items especially desired by veterans are designated by the Administrator and set aside for exclusive sale to them. The act also provides for discounting the sale or lease value of property disposed of to health and educational institutions, to the extent of benefits thereby accruing to the United States, and for the donation to such institutions of any property having no commercial value or entailing care and handling expenses greater than estimated proceeds.

Certain objectives as well as priority and preference provisions contained in the Surplus Property Act have retarded the disposal of surpluses and have constituted a substantial cost factor in the operations of the agency. These effects are becoming more pronounced as the inventory available for disposal shrinks. Moreover, as disposals diminish in volume and the discount and donation programs are used more widely, cash recoveries by the Government will further decline. The combined effect of these factors will be a progressively less favorable relationship between program costs and the proceeds from sales.

It is estimated that the total volume of surplus property which has been and is yet to be acquired by the War Assets Administration and its designated disposal agencies will amount to $29.4 billion by June 30, 1948. Disposals through September 30, 1947, amounted to $20.5 billion at original cost. Thus, about 70 percent of the total job had been completed at that date.

Of the total inventory remaining for disposal on October 1, 1947, about half or $3.7 billion consisted of real property. Disposal of real property presents many problems not encountered in the disposal of other types of surplus, and a number of years will be required to effect complete liquidation.

It is anticipated that personal property surpluses resulting from the war will be largely liquidated by June 30, 1948, and that sometime in fiscal year 1949 the remaining inventories of such property and amounts currently being declared surplus by Government agencies will approach peacetime proportions. This will be made possible through the increased use of summary disposal methods such as bid solicitations, auctions, and negotiated sales, and through special disposal programs, including the extension of credit to foreign governments and the transfer of industrial equipment to the military establishment under Public Law 364, 80th Congress.

In view of the disproportionate effect which any slippage in current year disposal operations might have on fiscal year 1949 budget requirements, and in view of the difficulty in foreseeing at this time the form that disposal organization and operations may take, no 1949 estimate of appropriation for the surplus property function is included in this chapter. An estimate of appropriation for this function will be transmitted to the Congress later, however, and a provisional forecast of the amount is included elsewhere in this Budget.

ESTIMATES OF APPROPRIATION

EXECUTIVE OFFICE OF THE PRESIDENT

COMPENSATION OF THE PRESIDENT

Salary of the President—

For compensation of the President of the United States, $75,000. *(3 U. S. C. 42; Independent Offices Appropriation Act, 1948.)*

Annual appropriation, general account:

Appropriated 1948, **$75,000** Estimate 1949, **$75,000**

Obligations: 01 Personal services—1947, $75,000; 1948, $75,000; 1949, $75,000.

THE WHITE HOUSE OFFICE

Salaries and Expenses, The White House Office—

Salaries and expenses: For expenses necessary for The White House Office, including compensation of the Secretary to the President, the two additional secretaries to the President and the six administrative assistants to the President at $10,000 each, and other personal services in the District of Columbia; not to exceed [$2,000] *$3,000* for deposit in [the general fund of] the Treasury for [cost of] penalty mail [as required by the Act of June 28, 1944] *(39 U. S. C. 321d)*; automobiles; printing and binding; *services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), at rates for individuals not in excess of $50 per diem;* and travel and official entertainment expenses of the President, to be accounted for on his certificate solely; [$952,500] *$969,612: Provided,* That employees of the departments and independent offices of the executive branch of the Government may be detailed from time to time to The White House Office for temporary assistance. *(3 U. S. C. 43, 45; 31 U. S. C. 588; 60 Stat 811; Independent Offices Appropriation Act, 1948.)*

Annual appropriation, general account:

Appropriated 1948, **$952,500** Estimate 1949, **$969,612**

EMERGENCY FUND FOR THE PRESIDENT

Emergency Fund for the President—

For expenses necessary to provide additional assistance to the President and to enable him, through such agents or agencies of the Government as he shall designate, to provide for emergencies affecting the national interest or security, without regard to such provisions of law regulating the expenditure of Government funds or the employment of persons in the Government service as he shall specify, [$500,000, of which not to exceed $70,000 may be allocated for the President's Amnesty Board, and] *$1,000,000*, of which $100,000 may, when authorized by the President, be expended for objects of a confidential nature and in any such case the certificate of the expending agency as to the amount of the expenditure and that it is deemed inadvisable to specify the nature thereof shall be deemed a sufficient voucher for the sum therein expressed to have been expended: *Provided*, That no part of such fund shall be available for allocation to finance a function or project for which function or project a budget estimate of appropriation was transmitted pursuant to law during the Eightieth Congress and such appropriation denied after consideration thereof by the Senate or House of Representatives or by the Committee on Appropriations of either body. (*Independent Offices Appropriation Act, 1948.*)

PHILIPPINE ALIEN PROPERTY ADMINISTRATION

Special deposit, trust account:

Administrative Expenses, Philippine Alien Property Administration—

Administrative expenses, Philippine Alien Property Administration: The Philippine Alien Property Administrator is hereby authorized to pay out of any funds or other property or interest vested in him or transferred to him, necessary expenses incurred in carrying out the powers and duties conferred on him pursuant to the Trading With the Enemy Act, as amended (50 U. S. C. App.), and the Philippine Property Act of 1946 (60 Stat. 418): *Provided*, That not to exceed $440,000 shall be available for the fiscal year [1948] *1949* for the general administrative expenses of the Philippine Alien Property Administration, including the salary of the Administrator at $10,000 per annum; printing and binding; not to exceed [$400] *$100* for deposit in [the general fund of] the Treasury for [cost of] penalty mail [as required by the Act of June 28, 1944] (*39 U. S. C. 321d*); rent *of private or Government-owned space* in the District of Columbia; employment outside the United States of persons without regard to the civil service and classification laws including temporary services as authorized by section 15 of the Act of August 2, 1946 ([Public Law 600] *5 U. S. C. 55a*); personal services in the District of Columbia and expenses of attendance at meetings of organizations concerned with the work of the agency: *Provided further*, That on or before November 1, [1947] *1948*, the Philippine Alien Property Administrator shall make a report to the Appropriations Committees of the Senate and the House of Representatives giving detailed information on all administrative and nonadministrative expenses incurred during the fiscal year [1947] *1948*, in connection with the activities of the Philippine Alien Property Administration. (*Independent Offices Appropriation Act, 1948.*)

FOREIGN AID

European Interim Aid, Executive Office of the President—

[Foreign aid: To enable the President to carry out the provisions of the Act entitled the "Foreign Aid Act of 1947" (Public Law 389, Eightieth Congress) insofar as applicable to Austria, France, and Italy, $522,000,000, and to enable the President to carry out the provisions of Public Law 84, in respect to China, $18,000,000; in all, $540,000,000: *Provided*, That any administrative expenses which may be incurred by the Department of State in carrying out duties assigned to it under said Act may be paid from any funds available to said Department for administrative expenses, except that funds herein appropriated shall not be available for such purpose: *Provided further*, That none of the funds appropriated or made available by this Act shall be used or made available for use for the acquisition of nitrates or nitrogenous fertilizer, or petroleum products, or wheat, wheat flour, or cereal grain in the United States or the shipment thereof from the United States unless the President shall first—]

[(1) survey the requirements of other countries which are dependent upon the United States for a portion of their supplies of such commodities, and]

[(2) estimate the quantities of such commodities which probably will be made available to such countries from the United States, and]

[(3) estimate the total amount of such commodities available for export from the United States to the recipient countries, after giving due consideration to the quantity thereof required in this country to meet essential domestic needs and for wastage, food, feed, seed, and industrial uses, and for the needs of other countries dependent upon the United States for supplies of such commodities. In determining the amount of such commodities available for export from the United States the President shall allow for a carry-over of wheat in the United States as of July 1, 1948, of not less than one hundred and fifty million bushels, and: *Provided further*, That the funds appropriated in this Act shall not be made available or used to acquire a quantity of wheat, wheat flour, and cereal grain in the United States which, after taking into consideration the amount estimated for export to other countries, and the amount needed for domestic consumption in the United States, will leave a carry-over of less than 150,000,000 bushels of wheat on July 1, 1948.]

[The losses incurred by agencies of the Government through sales of commodities in accordance with the terms of subsection (e) of section 11 of the Foreign Aid Act of 1947 shall not exceed $57,500,000.] (*Third Supplemental Appropriation Act, 1948.*)

Statement of proposed obligations for purchase and hire of passenger motor vehicles for the fiscal year 1949

AMERICAN BATTLE MONUMENTS COMMISSION

Appropriation	Vehicles (motor unless otherwise indicated) to be purchased		Old vehicles to be exchanged		Net cost of vehicles to be purchased	Old vehicles still to be used	Cost of hire of motor vehicles	Public purpose and users
	Number	Gross cost	Number	Allowance (estimated)				
Salaries and expenses, American Battle Monuments Commission.	2	$2,600	----------	----------	$2,600	3	----------	Used by members and secretary of the Commission on inspection trips to American cemeteries and memorials overseas; and by officers and employees engaged in supervision and maintenance of World War I cemeteries and memorials and construction of World War II cemeteries and memorials.

ATOMIC ENERGY COMMISSION

Salaries and Expenses, Atomic Energy Commission—

For expenses necessary to carry out the purposes of the Atomic Energy Act of 1946, including personal services in the District of Columbia and employment of aliens; purchase of land and interests in land; services as authorized by section 15 of the Act of August 2, 1946 ([Public Law 600] *5 U. S. C. 55a);* purchase of passenger motor vehicles[, including two at not to exceed $2,500 each]; purchase, maintenance, and operation of aircraft; printing and binding; health-service program as authorized by [the Act of August 8, 1946 (Public Law 658] *law (5 U. S. C. 150)*; publication and dissemination of atomic information; not to exceed [$100,000] *$50,000 for deposit in the Treasury* for penalty mail [costs as required by the Act of June 28, 1944] *(39 U. S. C. 321d)*; payment of claims [determined and settled] pursuant to [part 2] *section 403* of the Federal Tort Claims Act [of August 2, 1946 (Public Law 601] *(28 U. S. C. 921)*; [and] purchase, repair, and cleaning of uniforms; [$175,000,000, of which amount there shall be available to the Commission for cancer research work such sums (not exceeding $5,000,000) as the Commission believes can be efficiently used without duplicating the cancer research work of other public and private agencies; and] *purchase of newspapers and periodicals and travel expenses without regard to the general provisions of title I of this Act; and payment of obligations incurred under prior year contract authorizations; $625,000,000,* of which amount $200,000 may be expended for objects of a confidential nature and in any such case the certificate of the Commission as to the amount of the expenditure and that it is deemed inadvisable to specify the nature thereof shall be deemed a sufficient voucher for the sum therein expressed to have been expended; from which appropriation transfers of sums may be made to other agencies of the Government for the performance of the work for which this appropriation is made, and in such cases the sums so transferred may be merged with the appropriation to which transferred; and in addition to the amount herein provided, the Commission is authorized to contract for the purposes of this appropriation during the fiscal year in an amount not exceeding [$250,000,000: *Provided*, That no part of this appropriation shall be used after November 30, 1947, to pay the salary of any officer or employee (except such officers and employees whose compensation is fixed by law, and scientific and technical personnel) whose position would be subject to the Classification Act of 1923, as amended, if such Act were applicable to such position, at a rate in excess of the rate payable under such Act for positions of equivalent difficulty or responsibility] *$400,000,000. (42 U. S. C. 1801 et seq.; Independent Offices Appropriation Act, 1948.)*

Annual appropriation, general account:

CIVIL SERVICE COMMISSION

Salaries and Expenses, Civil Service Commission—

Salaries and expenses: For necessary expenses, including personal services in the District of Columbia; not to exceed [$10,000] *$19,000* for [temporary] services as authorized by section 15 of the Act of August 2, 1946 ([Public Law 600] *5 U. S. C. 55a*); not to exceed $10,000 for medical examinations performed for veterans by private physicians on a fee basis; travel[ing] expenses of examiners acting under the direction of the Commission, and expenses of examinations and investigations held in Washington and elsewhere; not to exceed $500 for payment in advance for library membership in societies whose publications are available to members only or to members at a price lower than to the general public; not to exceed [$350,000] *$500,316* for printing and binding; [$12,000,000] *purchase of not to exceed four passenger motor vehicles; $24,945,000*, of which not to exceed [$56,000] *$75,000* shall be available for performing the duties imposed upon the Civil Service Commission by the Act of July 19, 1940 (54 Stat. 767); not to exceed [$362,198] *$751,945* for deposit in the [general fund of the] Treasury for [cost of] penalty mail [as required by the Act of June 28, 1944] (*39 U. S. C. 321d*); for a health service program as authorized by [the Act of August 8, 1946 (Public Law 658)] *law (5 U. S. C. 150)*; for payment of claims [under part 2] *pursuant to section 403* of the Federal Tort Claims Act [of August 2, 1946 (Public Law 601] (*28 U. S. C. 921*); and not to exceed $5,000 for actuarial services by contract, without regard to section 3709, Revised Statutes, as amended: *Provided*, That no details from any executive department or independent establishment in the District of Columbia or elsewhere to the Commission's central office in Washington or to any of its regional offices shall be made during the fiscal year ending June 30, [1948] *1949*, but this shall not affect the making of details for service as members of the boards of examiners outside the immediate offices of the Commission in Washington or of the regional directors, nor shall it affect the making of details of persons qualified to serve as expert examiners on special subjects: *Provided further*, That the Civil Service Commission shall have power in case of emergency to transfer or detail any of its employees to or from its office or field force: *Provided further, That members of the Loyalty Review Board in Washington and of the regional loyalty boards in the field may be paid actual transportation expenses and reimbursement for the use of privately owned vehicles in accordance with the Act of February 14, 1931, as amended, and not to exceed $10 per diem in lieu of subsistence while traveling on official business away from their homes or regular places of business, and while en route to and from and at the place where their services are to be performed: Provided further, That nothing in sections 109 and 113 of the Criminal Code (18 U. S. C. 198, 203) or in section 190 of the Revised Statutes (5 U. S. C. 99) shall be deemed to apply to any person because of his appointment for part-time or intermittent service as a member of the Loyalty Review Board or a regional loyalty board in the Civil Service Commission.*

[Salaries and expenses: For an additional amount for "Salaries and expenses", Civil Service Commission, including $100,000 additional for printing and binding and $150,000 additional for penalty mail, $3,500,000: *Provided*, That such sums as the Bureau of the Budget may approve may be transferred from this appropriation to other agencies of the Government for investigating Federal employees: *Provided further*, That nothing in sections 109 and 113 of the Criminal Code (18 U. S. C. 198 and 203) or in section 190 of the Revised Statutes (5 U. S. C. 99) shall be deemed to apply to any person because of his appointment for part-time service as a member of the Loyalty Review Board in the Civil Service Commission.] (*5 U. S. C. ch. 12; 18 U. S. C. 611; 31 U. S. C. 588; Executive Orders 6670, Apr. 7, 1934; 6731, June 5, 1934; 7915 and 7916, June 24, 1938; Independent Offices Appropriation Act, 1948; Second Supplemental Appropriation Act, 1948.*)

[No part of the appropriations herein made to the Civil Service Commission shall be available for the salaries and expenses of the Legal Examining Unit in the Examining and Personnel Utilization Division of the Commission, established pursuant to Executive Order Numbered 9358 of July 1, 1943.]

No part of appropriations herein shall be used to pay the compensation of officers and employees of the Civil Service Commission who allocate or reallocate supervisory positions in the classified civil service solely on the size of the group, section, bureau, or other organization unit, or on the number of subordinates supervised. References to size of the group, section, bureau, or other organization unit or the number of subordinates supervised may be given effect only to the extent warranted by the work load of such organization unit and then only in combination with other factors, such as the kind, difficulty, and complexity of work supervised, the degree and scope of responsibility delegated to the supervisor, and the kind, degree, and value of the supervision actually exercised. (*Independent Offices Appropriation Act, 1948.*)

DISTRICT OF COLUMBIA REDEVELOPMENT LAND AGENCY—Continued

Trust account:

District of Columbia Redevelopment Land Agency Special Trust Fund—

The act of August 2, 1946, authorizes the appropriation of $20,000,000 to be placed to the credit of a special trust fund. In addition, all revenues, rentals, proceeds, and other funds received by the District of Columbia Redevelopment Land Agency are to be deposited in the Treasury to the credit of this fund. Funds so credited are available for the purposes of carrying out the provisions of the District of Columbia Redevelopment Act of 1945. As of the last day of the tenth fiscal year beginning after approval of the act or as of such later date as may be fixed by the Congress, the remaining balance in this account, less (a) such amount as may be necessary for the completion of any approved project the acquisition of which has been begun and (b) such amount for operating expense of the Agency for 1 year as may be approved by the District Commissioners, shall be returned to the Treasury as miscellaneous receipts. *(60 Stat. 790.)*

Permanent appropriation, special account:

Payments From Proceeds of Sales, Motor-Propelled Vehicles, Etc., Federal Communications Commission—

Under the act of August 2, 1946, proceeds of sales of vehicles, equipment, accessories, and other items, the exchange of which is authorized by law, may be applied in whole or in part payment toward the purchase of similar items. Receipts from this source are set up in a special appropriation account, available for the fiscal year in which the obligation to purchase the new equipment is incurred; any unobligated balance is subsequently adjusted to miscellaneous receipts. (*5 U. S. C. 118d–1.*)

Appropriated (estimate) 1948, **$10,000** Estimate 1949, **$15,000**

Obligations: 09 Equipment—1947, $14,763; 1948, $10,000; 1949, $15,000.

Total, Federal Communications Commission, general and special accounts:

Appropriated 1948, **$6,250,000** Estimate 1949, **$6,555,000**

Trust account:

International Telecommunication Settlements, Federal Communications Commission—

This fund represents collections made by the Federal Communications Commission for reimbursement to ships of United States registry of tolls pertaining to international telecommunications in compliance with the Communications Act of 1934. (*48 Stat. 1224.*)

Appropriated (estimate) 1948, **$200,000** Estimate 1949, **$200,000**

Obligations: 13 Refunds, awards, and indemnities—1947, $86,520; 1948, $200,000; 1949, $200,000.

Permanent appropriations, special accounts:

Payments to States Under Federal Power Act—

By the act of June 10, 1920, as amended, 37½ percent of the receipts from certain licenses issued by the Federal Power Commission for the occupancy and use of national forests and public lands within the boundaries of any State is appropriated for payment to such State. Payments of the amounts so appropriated are made each year to the States. *(16 U. S. C. 810.)*

Appropriated (estimate) 1948, **$25,200** Estimate 1949, **$26,300**

Obligations: 11 Grants, subsidies, and contributions—1947, $23,906; 1948, $25,200; 1949, $26,300.

Payments From Proceeds of Sales, Motor-Propelled Vehicles, Etc., Federal Power Commission—

Under the act of August 2, 1946, proceeds of sales of vehicles, equipment, accessories, and other items, the exchange of which is authorized by law, may be applied in whole or in part payment toward the purchase of similar items. Receipts from this source are set up in a special appropriation account, available for the fiscal year in which the obligation to purchase the new equipment is incurred; any unobligated balance is subsequently adjusted to miscellaneous receipts. *(5 U. S. C. 118d–1.)*

	Actual, 1947	Estimate, 1948	Estimate, 1949
FUNDS AVAILABLE FOR OBLIGATION			
Appropriation or estimate	$450		
Adjusted to miscellaneous receipts	−450		
Total obligations			

Total, Federal Power Commission, general and special accounts:

Appropriated 1948, **$3,943,200** Estimate 1949, **$4,246,300**

Statement of proposed obligations for purchase and hire of passenger motor vehicles for the fiscal year 1949

FEDERAL POWER COMMISSION

Appropriation	Vehicles (motor unless otherwise indicated) to be purchased		Old vehicles to be exchanged		Net cost of vehicles to be purchased	Old vehicles still to be used	Cost of hire of motor vehicles	Public purpose and users
	Number	Gross cost	Number	Allowance (estimated)				
Salaries and expenses, Federal Power Commission.	3	$4,200	3	$900	$3,300	12	$500	For use by engineers and other members of the Commission's staff in regional offices for inspection of electric utility and gas plants; also for inspection of hydroelectric projects during construction; and miscellaneous field investigations.

Railroad Safety, Interstate Commerce Commission—

Railroad safety: For expenses necessary in performing functions authorized by law (45 U. S. C. 1–15, 17–21, 35–46, 61–64; 49 U. S. C. 26) to insure a maximum of safety in the operation of railroads, including authority to investigate, test experimentally, and report on the use and need of any appliances or systems intended to promote the safety of railway operation, including those pertaining to block-signal and train-control systems, as authorized by the joint resolution approved June 30, 1906, and the Sundry Civil Act of May 27, 1908 (45 U. S. C. 35–37), and to require carriers by railroad subject to the Act to install automatic train-stop or train-control devices as prescribed by the Commission (49 U. S. C. 26), including the employment of inspectors, engineers, and personal services in the District of Columbia, $908,000. (*Independent Offices Appropriation Act, 1948.*)

Grade 15. Range $9,975 to $10,000:						
Executive secretary	1	10,000	1	10,000	1	10,000
Executive officer	1	9,975	1	10,000	1	10,000
Grade 13. Range $7,102 to $8,060:						
Personnel officer	1	7,342	1	7,342	1	7,342
Budget examiner	1	7,102	1	7,342	1	7,342
Classification-organization officer	1	7,102			1	7,342
Grade 12. Range $5,905 to $6,863:						
Classification-organization officer	1	5,905	1	6,145	1	6,145
Placement and utilization officer	1	5,905	1	6,145	1	6,384
Grade 11. Range $4,902 to $5,905:						
Personnel policy and procedures analyst	1	4,902	1	5,153	1	5,153
Chief, finance division	1	5,153	1	5,404	1	5,404
Grade 9. Range $4,150 to $4,902:						
Chief, purchase division	1	4,651	1	4,777	1	4,902
Surplus property and contract claims officer	1	4,275	1	4,400	1	4,526
Technical information specialist	1	4,150	1	4,150	2	8,300
Administrative assistant					1	4,150
Assistant chief, finance division					1	4,150
Fiscal inspector					1	4,150
Grade 8. Range $3,773 to $4,526	4	16,348	4	16,725	4	17,002
Grade 7. Range $3,397 to $4,150	10	36,104	10	37,612	12	45,659
Grade 6. Range $3,021 to $3,773	9	29,446	8	27,303	8	27,303
Grade 5. Range $2,645 to $3,397	15	41,678	14	39,286	25	68,503
Grade 4. Range $2,394 to $2,845	32	80,295	25	65,466	35	89,483
Grade 3. Range $2,168 to $2,620	30	71,068	11	26,711	11	26,711
Grade 2. Range $1,954 to $2,394	6	12,647	4	8,976	4	8,976
Subprofessional service:						
Grade 7. Range $3,021 to $3,773	4	13,714	2	7,171	2	7,421
Grade 5. Range $2,394 to $2,845	2	4,938				
Grade 4. Range $2,168 to $2,620	2	4,487				
Crafts, protective, custodial service:						
Grade 3. Range $1,822 to $2,168	1	1,888	1	1,954	1	2,020
Grade 2. Range $1,690 to $2,020	3	5,268	2	3,644	2	3,710
Total permanent, departmental	157	546,125	126	515,000	167	692,700
Deduct lapses	15.6	54,306	10	41,000	10.2	44,748
Net permanent, departmental (average number, net salary)	141.4	491,819	116	474,000	156.8	647,952
W. A. E. employment, departmental		4,375		10,000		7,800
Regular pay in excess of 52-week base, 5 U. S. C. 944				6,000		2,700
Overtime and holiday pay, departmental		3,136		2,000		2,000
All personal services, departmental		499,330		492,000		660,452
Field:						
Professional service:						
Grade 8. Range $9,975 to $10,000:						
Director	2	20,000	2	20,000	2	20,000
Executive engineer	1	10,000	1	10,000	1	10,000
Assistant director of aeronautical research	2	20,000				
Assistant director			1	9,975	1	10,000
Chief, research department	1	10,000	1	10,000	1	10,000
Chief of research	1	10,000	1	10,000	1	10,000
Chief, administrative and technical service department	1	10,000	1	10,000	1	10,000
Assistant chief, research department	2	19,950	2	20,000	2	20,000
Technical assistant in Europe			1	10,000	1	10,000

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS—Continued

Salaries and Expenses, National Advisory Committee for Aeronautics—Continued

	Actual, 1947		Estimate, 1948		Estimate, 1949	
DETAIL OF PERSONAL SERVICES—Con.						
Field—Continued						
Professional service—Continued	Number	Total salary	Number	Total salary	Number	Total salary
Grade 8. Range $9,975 to $10,000—Con.						
Chief, compressibility research division	1	$9,975	1	$10,000	1	$10,000
Chief, flight research division	1	10,000	1	10,000	1	10,000
Chief, pilotless aircraft research division	1	9,975	1	10,000	1	10,000
Chief, full scale and flight research division	1	9,975	1	10,000	1	10,000
Chief, theoretical and applied research division			1	9,975	1	10,000
Chief, high speed research division			1	9,975	1	10,000
Chief, fuels and thermodynamics research division	1	9,975	1	9,975	1	10,000
Chief, engine performance and materials research division	1	9,975	1	10,000	1	10,000
Chief, compressor and turbine research division	1	9,975	1	9,975	1	10,000
Chief, wind tunnel and flight research division	1	9,975	1	10,000	1	10,000
Head, flight research section	1	9,975	1	10,000	1	10,000
Engineer test pilot	1	9,975	1	10,000	1	10,000
Aeronautical research scientist			2	19,950	3	29,975
Electrical consultant	1	9,975	1	9,975	1	10,000
Grade 7. Range $8,180 to $9,377:						
Assistant director	1	8,479	1	8,778	1	9,077
Executive assistant to the director	1	9,377	1	9,377	1	9,377
Western coordination officer	1	8,180	1	8,180	1	8,479
Head, service department	1	8,479	1	8,778	1	9,077
Chief, instrument research division	1	8,180	1	8,479	1	8,778
Chief, aircraft loads division	1	8,479	1	8,778	1	9,077
Chief, full-scale research division	1	8,479	1	8,479	1	8,778
Chief, hydrodynamics division	1	8,180	1	8,479	1	8,778
Chief, physical research division	1	8,180	1	8,479	1	8,778
Chief, stability research division	1	8,479	1	8,778	1	9,077
Chief, structures research division	1	8,479	1	8,778	1	9,077
Chief, theoretical and applied research division	1	9,077				
Chief, high speed research division	1	8,180				
Chief, service division	1	8,180	1	8,180	1	8,479
Chief, engineering services division	1	8,479	1	8,479	1	8,778
Assistant chief, compressibility research division	1	8,180				
Assistant chief, flight research division	1	8,180	1	8,479	1	8,778
Assistant chief, full-scale research division	1	8,180	1	8,479	1	8,778
Assistant chief, stability research division	1	8,180	1	8,479	1	8,778
Assistant chief, structures research division	1	8,180	1	8,180	1	8,479
Assistant chief, full-scale and flight research division	1	8,180				
Assistant chief, theoretical and applied research division	1	8,180	1	8,180	1	8,479
Assistant chief, high speed research division			1	8,180	1	8,479
Chief, thermodynamics research branch	1	8,180	1	8,180	1	8,479
Chief, icing research branch	1	8,479	1	8,479	1	8,778
Chief, flight branch	1	8,180	1	8,479	1	8,778
Chief, altitude wind tunnel research branch	1	8,180	1	8,479	1	8,778
Assistant chief, flight branch	1	8,778	1	8,778	1	9,077
Engineer, section head	1	8,778	2	16,958	7	58,454
Engineer test pilot					2	16,360
Physicist	1	8,180	1	8,479	1	8,778
Aeronautical research scientist	1	8,180			1	8,180
Research analyst	1	8,180	1	8,180	1	8,479
Grade 6. Range $7,102 to $8,060:						
Assistant to director	1	7,581	1	7,581	1	7,820
Assistant to chief of research	1	7,581	1	7,581	1	7,820
Assistant to executive engineer			1	7,102	1	7,342
Assistant chief, administrative and technical service department	1	7,581	1	7,581	1	7,820
Chief, engineering service division	1	7,820	1	7,820	1	8,060
Chief, mechanical service division	1	7,342	1	7,581	1	7,820
Chief, maintenance division	1	7,342	1	7,581	1	7,820
Chief, instrument division	1	7,342	1	7,342	1	7,581
Chief, building and grounds division	1	7,342	1	7,581	1	7,820
Chief, fabrication division	1	7,342	1	7,342	1	7,581
Assistant chief, instrument research division	1	7,102	1	7,342	1	7,581
Assistant chief, aircraft loads division	1	7,342	1	7,581	1	7,820
Assistant chief, compressibility research division			1	7,102	1	7,342
Assistant chief, hydrodynamics division	1	7,102	1	7,342	1	7,581
Assistant chief, pilotless aircraft research division	1	7,342	1	7,581	1	7,820
Chief, combustion research branch	1	7,102	1	7,342	1	7,581
Chief, fuels research branch	1	7,102	1	7,102	1	7,342
Chief, fundamental compressor and turbine research branch			1	7,102	1	7,342
Chief, applied compressor and turbine research branch	1	7,102	1	7,342	1	7,581

	Actual, 1947		Estimate, 1948		Estimate, 1949	
DETAIL OF PERSONAL SERVICES—Con.

Permanent appropriation, special account:

Payments From Proceeds of Sales, Motor-Propelled Vehicles, Etc., National Archives—

Under the act of August 2, 1946, proceeds of sales of vehicles, equipment, accessories, and other items, the exchange of which is authorized by law, may be applied in whole or in part payment toward the purchase of similar items. Receipts from this source are set up in a special appropriation account, available for the fiscal year in which the obligation to purchase the new equipment is incurred; any unobligated balance is subsequently adjusted to miscellaneous receipts. *(5 U. S. C. 118d–1.)*

Trust accounts:

Franklin D. Roosevelt Library, Income Account—

The joint resolution to provide for the establishment and maintenance of the Franklin D. Roosevelt Library (53 Stat. 1062–1066) establishes a Board to be known as the Trustees of the Franklin D. Roosevelt Library and authorizes it to accept gifts and bequests of personal property (sec. 205 (a), (c)). "The income from any trust funds held by the Board . . . shall be deposited with the Treasurer of the United States, who shall enter it in a special account . . . subject to disbursement by the Archivist, except where otherwise restricted by the instrument of gift, in the purchase of equipment for the Franklin D. Roosevelt Library; in the preparation and publication of guides, inventories, calendars, and textual reproduction of material in the said Library; and in the purchase . . . of historical material for the said Library" (sec. 205 (d)). Proceeds from the sale of publications and duplicate printed material and from fees collected from visitors are also paid into the special account and available for disbursement by the Archivist as provided above (secs. 203, 205 (d), 207).

The foregoing appropriations for salaries and miscellaneous expenses of the Board shall be available for a health-service program as authorized by [the Act of August 8, 1946 (Public Law 658)] *law (5 U. S. C. 150). (Labor-Federal Security Appropriation Act, 1948.)*

Total, Railroad Retirement Board, annual appropriations, general accounts:

Appropriated 1948, **$690,793,000** Estimate 1949, **$642,416,000**

Permanent appropriation, special account:

Railroad Unemployment Insurance Administration Fund, Railroad Retirement Board—

The act of June 25, 1938, established the Railroad Unemployment Insurance Administration fund, to which there is credited 10 percent of contributions collected pursuant to section 8 of said act. All moneys credited to the fund are permanently appropriated for administrative expenses necessary in carrying out that act, except that so much of the balance in the fund as is in excess of $6,000,000 as of June 30 of each year is transferred from this fund and credited to the railroad unemployment insurance account in the unemployment trust fund. *(45 U. S. C. 361.)*

Appropriated (est.) 1948, **$14,200,000** Estimate 1949, **$14,700,000**

Railroad Retirement Account (Trust Fund)—

By authority of act of June 24, 1937, and public resolution of July 1, 1937, there was established a "Railroad retirement account" into which all funds appropriated for annuity and pension payments, together with interest from investments, would be credited and available until expended and the provision made that such amounts not necessary for immediate expenditure would be invested by the Secretary of the Treasury in accordance with the provisions of the Railroad Retirement Act of June 24, 1937. *(45 U. S. C. 228a–228r.)*

Appropriated (estimate) 1948, [a] **$798,488,000**
Estimate 1949, [b] **$629,570,000**

[a] Includes $758,488,000 in payments received from "Railroad retirement appropriated account" (general account) and $40,000,000 interest on investments.

[b] Includes $574,570,000 in payments received from "Railroad retirement appropriated account" (general account) and $55,000,000 interest on investments.

Total, Smithsonian Institution, annual appropriations, general accounts:

Appropriated 1948, **$2,749,738** Estimate 1949, **$3,156,000**

Permanent appropriations:

Expenses of Smithsonian Institution, Interest Account—

Under sections 5590 and 5591, Revised Statutes, there is appropriated, out of any money not otherwise appropriated, a sum equal to interest at the rate of 6 percent per annum on a trust fund of $1,000,000 derived from the original bequest of James Smithson and other deposits in the Treasury on the same terms. Moneys so appropriated are paid semiannually to the Board of Regents for the maintenance and support of the Smithsonian Institution. (*20 U. S. C. 54, 55.*)

Appropriated 1948, **$60,000** Estimate 1949, **$60,000**

Obligations: 07 Other contractual services—1947, $60,000; 1948, $60,000; 1949, $60,000.

[Reconversion of vessels, $100,000: *Provided*, That the Commission may make allowances to purchasers of vessels for cost of putting such vessels in class, such allowances to be determined on the basis of competitive bids, without regard to the provisions of the last paragraph of section 3 (d) of the Merchant Ship Sales Act of 1946;]

[Maintenance of shipyard facilities, $800,000;]

[Operation of warehouses, $849,180;]

[Operating-differential subsidies, $10,000,000;]

[Reserve fleet expense, $10,000,000;]

[Maintenance and operation of terminals, $561,000;]

[Miscellaneous expenses, $500,000;]

[Cost of penalty mail as required by the Act of June 28, 1944, for deposit in the general fund of the Treasury, $60,000;]

[Entertainment of officials of other countries when specifically authorized by the Chairman, $1,125;]

[Services as authorized by section 15 of the Act of August 2, 1946 (Public Law 600), $18,750.]

[Funds available to the Commission shall be available for payment of claims under part 2 of the Federal Tort Claims Act of August 2, 1946 (Public Law 601).]

[Except as hereinbefore provided no obligation shall be incurred against such construction fund during the fiscal year 1948 and the expenditures from such fund during the fiscal year 1948 shall not exceed $208,206,774.]

[The balance of such fund in addition to such amount of $208,206,774, as of June 30, 1947, shall be carried to the surplus fund and covered into the Treasury. All receipts which otherwise would be deposited to the credit of such construction fund during the fiscal year 1948 shall be covered into the Treasury as miscellaneous receipts.] (*Independent Offices Appropriation Act, 1948.*)

NOTE.—Funds under above title are proposed to be appropriated for under "Salaries and expenses, United States Maritime Commission."

Salaries and Expenses, United States Maritime Commission—

Salaries and expenses: For expenses necessary for carrying into effect the Merchant Marine Act of 1936 and other laws administered by the United States Maritime Commission, $75,419,121, within limitations as follows:

Administrative expenses, including personal services in the District of Columbia; printing and binding; not to exceed $2,000 for newspapers and periodicals; not to exceed $18,750 for services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a); not to exceed $40,000 for deposit in the Treasury for penalty mail (39 U. S. C. 321d); and not to exceed $1,125 for entertainment of officials of other countries when specifically authorized by the Chairman; in all, not to exceed $11,606,621;

New ship construction, including reconditioning and betterment, $24,180,000; and, in addition, the Commission is authorized to enter into contracts for new ship construction in an amount not to exceed $15,320,000: Provided, That all authority granted to incur obligations for these purposes during 1948 and prior fiscal years not exercised prior to July 1, 1948, is hereby revoked;

Maintenance of shipyard facilities, $475,000;

Operation of warehouses, $563,500;

Operating-differential subsidies, $30,000,000;

Reserve fleet expense, $7,509,000;

Maintenance and operation of terminals, $585,000;

Miscellaneous expenses, including payment of claims pursuant to section 403 of the Federal Tort Claims Act (28 U. S. C. 921), $500,000.

Estimate 1949, [a] **$75,419,121**

[a] Estimate is for activities previously carried under "Construction fund, United States Maritime Commission," "Operations of functions of War Shipping Administration, United States Maritime Commission," and "Salaries and general administrative expenses, liquidation of functions of War Shipping Administration, United States Maritime Commission." The amounts provided for 1947 and 1948 are shown in the schedule as comparative transfers.

Operations of Functions of War Shipping Administration, United States Maritime Commission—

[The operating receipts made available to the United States Maritime Commission by the Third Deficiency Appropriation Act, 1946 (60 Stat. 614), as amended by the Act of February 26, 1947 (Public Law 6), and the Act of June 28, 1947 (Public Law 127), shall be available for the purpose of carrying out the operating functions transferred to the Maritime Commission by section 202 of the Naval Appropriation Act, 1947 (60 Stat. 501), until March 1, 1948, for the following purposes and in the following amounts:]

[Salaries and general administrative expenses, $4,650,000: *Provided*, That such amount shall remain available from March 1, 1948, to June 30, 1948, for salaries and other administrative expenses in connection with liquidation of such operating functions;]

[Vessel and voyage operations, $100,000,000;]

[Maintenance and repairs, $14,000,000;]

[Charter hire, $846,000;]

[Insurance, $1,164,000;]

[Cost of placing vessels into reserve fleet, $5,500,000;]

[Delivery expenses on vessels withdrawn from reserve fleet for sale, $1,099,000;]

[Miscellaneous expenses, $600,000;]

[Unliquidated obligations as at June 30, 1947, $44,600,000;]

[Reserve for contingencies, including claims arising from operations during the period, January 1, 1947, to February 29, 1948, $30,000,000;]

[In all, $192,059,000, and all receipts to such fund, during the fiscal year 1948, in excess of such amount shall be carried to the surplus fund and covered into the Treasury.] (*Second Supplemental Appropriation Act, 1948.*)

Appropriated 1948, **$89,890,513**

NOTE.—Estimate for activities previously carried under this title has been transferred in the estimates to "Vessel operating functions, United States Maritime Commission," and "Salaries and expenses, United States Maritime Commission." The amounts provided for 1947 and 1948 are shown in the schedule as comparative transfers.

The United States Maritime Commission shall not incur any obligations during the fiscal year 1949 from the construction fund established by the Merchant Marine Act of 1936, or otherwise, in excess of the appropriations and limitations contained in this Act, and all receipts which otherwise would be deposited to the credit of said fund shall be covered into the Treasury as miscellaneous receipts.

Total, United States Maritime Commission, annual appropriations, general accounts:

Appropriated 1948, **$302,310,513** Estimate 1949, **$121,511,121**

Permanent appropriations, special accounts:

Payments From Proceeds of Sales, Motor-Propelled Vehicles, Etc., United States Maritime Commission—

Under the act of August 2, 1946, proceeds of sales of vehicles, equipment, accessories, and other items, the exchange of which is authorized by law, may be applied in whole or in part payment toward the purchase of similar items. Receipts from this source are set up in a special appropriation account, available for the fiscal year in which the obligation to purchase the new equipment is incurred; any unobligated balance is subsequently adjusted to miscellaneous receipts. *(5 U. S. C. 118d–1.)*

Appropriated (estimate) 1948, **$700**

Obligations: 07 Other contractual services—1947, $1,436; 1948, $700.

Defense Aid, Special Account (Allotment to United States Maritime Commission, War Shipping Administration Functions)—

	Actual, 1947	Estimate, 1948	Estimate, 1949
FUNDS AVAILABLE FOR OBLIGATION			
Prior year balance available	$159,836	$2,159,836	
Transferred to Defense aid special fund		1,786,350	
Transferred from Defense aid special fund	3,846,571		
Total available for obligation	4,006,407	373,486	
Balance available in subsequent year	−2,159,836		
Total obligations	1,846,571	373,486	
OBLIGATIONS BY OBJECTS			
07 Other contractual services	$1,846,571	$373,486	

Special account:

Salaries and Expenses, War Assets Administration, Special Fund (Allotment to United States Maritime Commission)—

	Actual, 1947	Estimate, 1948	Estimate, 1949
FUNDS AVAILABLE FOR OBLIGATION			
Transferred from "Salaries and expenses, War Assets Administration, special fund"	$1,430,000		
Unobligated balance, estimated savings	−3,200		
Total obligations (see schedules under War Assets Administration)	1,426,800		

Total, United States Maritime Commission, annual appropriations, general and special accounts:

Appropriated 1948, **$302,311,213** Estimate 1949, **$121,511,121**

Trust accounts:

Unearned Moneys, Merchant Ship Sales, War-Built Vessels, United States Maritime Commission—

For refund of unearned portions of deposits for purchase of war-built vessels under the Merchant Ship Sales Act (Public Law 321, approved Mar. 8, 1946).

Appropriated (estimate) 1948, **$500,000** Estimate 1949, **$100,000**

Obligations: 07 Other contractual services—1947, $1,100,000; 1948, $500,000; 1949, $100,000.

Unclaimed Moneys Due Creditors of Contractors With the United States Under Cost-Plus-a-Fixed-Fee Contracts, United States Maritime Commission—

For deposit of wages and other sums due former employees and other creditors of shipbuilding contractors remaining unclaimed (48 Stat. 1233).

Appropriated (estimate) 1948, **$200,000**

Obligations: 07 Other contractual services—1947, $5,000; 1948, $200,000.

Total, United States Maritime Commission, trust accounts:

Appropriated 1948, **$700,000** Estimate 1949, **$100,000**

VETERANS' ADMINISTRATION

Salaries and Expenses, Veterans' Administration—

Administration, medical, hospital, and domiciliary services: For necessary expenses of the Veterans' Administration, including maintenance and operation of medical, hospital, and domiciliary services, in carrying out the functions pursuant to all laws for which the Administration is charged with administering, including personal services in the District of Columbia; examination of estimates of appropriations in the field, including actual expenses of subsistence or per diem allowance in lieu thereof; furnishing and laundering of such wearing apparel as may be prescribed for employees in the performance of their official duties; health service program as authorized by [Act of August 8, 1946 (Public Law 658)] *law (5 U. S. C. 150)*; purchase of three hundred and [twenty-three] *ninety* passenger motor vehicles, *of which two hundred and twenty-eight shall be for replacement only*; utilization of Government-owned automotive equipment in transporting children of Veterans' Administration employees located at isolated stations to and from school under such limitations as the Administrator may by regulation prescribe; services as authorized by section 15 of [Public Law 600, Seventy-ninth Congress] *the Act of August 2, 1946 (5 U. S. C. 55a)*; maintenance and operation of farms; recreational articles and facilities at institutions maintained by the Veterans' Administration; expenses incidental to securing employment for war veterans; funeral, burial, and other expenses incidental thereto for beneficiaries of the Veterans' Administration except burial awards authorized by Veterans' Administration Regulation Numbered 9 (a), as amended; the purchase of tobacco to be furnished, subject to regulations of the Administrator, to veterans receiving hospital treatment or domiciliary care in Veterans' Administration hospitals or homes; aid to State or Territorial homes in conformity with the Act approved August 27, 1888, as amended (24 U. S. C. 134), for the support of veterans eligible for admission to Veterans' Administration facilities for hospital or domiciliary care; the purchase of printed reduced-fare requests for use by veterans when traveling at their own expense from or to Veterans' Administration facilities; not to exceed [$3,500] *$5,765* for newspapers and periodicals; and not to exceed [$120,200] *$57,905* for the preparation, shipment, installation, and display of exhibits, photographic displays, moving pictures, and other visual educational information and descriptive material, including the purchase or rental of equipment; [$898,040,780] *$936,771,000*, from which allotments and transfers may be made to the Federal Security Agency (Public Health Service), the [War] *Army*, Navy, and Interior Departments, for disbursement by them under the various headings of their applicable appropriations, of such amounts as are necessary for the care and treatment of beneficiaries of the Veterans' Administration, including minor repairs and improvements of existing facilities under their jurisdiction necessary to such care and treatment: *Provided*, That no part of this appropriation shall be used to pay in excess of one hundred persons engaged in public relations work: *Provided further*, That no part of this appropriation shall be expended for the purchase of any site for or toward the construction of any new hospital or home, or for the purchase of any hospital or home; and not more than [$7,807,000] *$8,534,800* of this appropriation may be used to repair, alter, improve, or provide facilities in the several hospitals and homes under the jurisdiction of the Veterans' Administration either by contract or by the hire of temporary employees and the purchase of materials. *(3 U. S. C. 43; 5 U. S. C. 17a, 22a, 26a–26b, 29–97, 103a, 103b, 118d–1, 118g, 661–738, 823, 902, 912, 921–922, 931–932, 942a–943a, 947, 949–954; 15 U. S. C. ch. 16; 24 U. S. C. 30, 71–154; 28 U. S. SEC. 605. (a) There is hereby created in the Treasury a permanent trust fund to be known as the national service life insurance fund. All premiums paid on account of national service life insurance shall be deposited and covered into the Treasury to the credit of such fund, which, together with interest earned thereon, shall be available for the payment of liabilities under such insurance, including payment of dividends and refunds of unearned premiums. Payments from this fund shall be made upon and in accordance with awards by the Administrator.

(b) The Administrator is authorized to set aside out of such fund such reserve amounts as may be required under accepted actuarial principles to meet all liabilities under such insurance; and the Secretary of the Treasury is hereby authorized to invest and reinvest such funds, or any part thereof, in interest-bearing obligations of the United States or in obligations guaranteed as to principal and interest by the United States, and to sell such obligations for the purposes of such fund.

SEC. 607. (a) The United States shall bear the excess mortality cost and the cost of waiver of premiums on account of total disability traceable to the extra hazard of military or naval service, as such hazard may be determined by the Administrator.

(b) Whenever benefits under such insurance become payable because of the death of the insured as the result of disease or injury traceable to the extra hazard of military or naval service . . . the liability for payment of such benefits shall be borne by the United States. . . . The Administrator is authorized and directed to transfer from time to time from the national service life insurance appropriation to the national service life insurance fund such sums as may be necessary to carry out the provisions of this section. *(38 U. S. C. 801–818, 805a.)*

Appropriated (estimate) 1948, [a] **$706,742,472**
Estimate 1949, [b] **$646,786,000**

[a] Includes $364,800,000 from premiums, $201,410,000 from interest on investments, and $140,532,472 in payments received from national service life insurance appropriated fund, Veterans' Administration.
[b] Includes $396,000,000 from premiums, $210,000,000 from interest on investments, and $40,786,000 in payments received from national service life insurance appropriated fund, Veterans' Administration.

Statement of proposed obligations for purchase and hire of passenger motor vehicles for the fiscal year 1949

VETERANS' ADMINISTRATION

Appropriation	Vehicles (motor unless otherwise indicated)		Old vehicles to be exchanged		Net cost of vehicles to be purchased	Old vehicles still to be used	Cost of hire of motor vehicles	Public purpose and users
	Number	Gross cost	Number	Allowance (estimated)				
Salaries and expenses, Veterans' Administration.	390	$1,352,500	[1] 1,231	82,800	$1,269,700	667	----------	The passenger vehicles are to be used in the efficient and economical operation of the Veterans' Administration stations for the primary purpose of transporting claimants and beneficiaries; also in connection with adjustment and investigation of claims to the interest of the Government and/or the veteran; for the transportation of sick and disabled veterans from point to point for the best interest of proper medical care for the veteran. The vehicles are to be operated by designated employees or officials of the various Veterans' Administration stations.

[1] Includes 1,057 vehicles to be turned in to War Assets Administration and 174 vehicles to be traded.

WAR ASSETS ADMINISTRATION

Special account:

Salaries and Expenses, War Assets Administration—

[Salaries and expenses: There is hereby appropriated from the special fund account in the Treasury as provided for in the First Deficiency Appropriation Act, 1946, not to exceed $257,149,270 for the fiscal year 1948 for necessary expenses of the War Assets Administration established by Executive Order 9689; for allocation or reimbursement by the War Assets Administrator to Government agencies designated by the Administrator as disposal agencies by or pursuant to the Surplus Property Act of 1944, and for payment to Government agencies designated by the Administrator for rendering special services in connection with the disposal of surplus property, in such amounts as shall be approved by the Bureau of the Budget; and for allocation or reimbursement to owning agencies for the care and handling (including pay and allowances and subsistence of military and naval personnel) of surplus property subsequent to the filing of a declaration of surplus covering such property with a disposal agency designated by the Administrator, or, if the Administrator prescribes procedures whereby declarations of surplus are made at approximately the time of disposal or removal, subsequent to notice by the owning agency to the disposal agency that property has been determined to be surplus and is subject to such procedures, such funds to be available for personal services in the District of Columbia; fees and mileage of witnesses at rates provided by law for witnesses attending in the United States courts (28 U. S. C. 600c); payment of claims pursuant to part 2 of the Federal Tort Claims Act of August 2, 1946 (Public Law 601); services as authorized by section 15 of the Act of August 2, 1946 (Public Law 600), and other special services and reports by contract without regard to section 3709 of the Revised Statutes, as amended; for a health service program as authorized by Public Law 658, approved August 8, 1946 (not to exceed $154,000) acceptance and utilization of voluntary and uncompensated services; printing and binding; expenses of attendance at meetings of organizations concerned with the work of the Administration; procurement in the field of supplies, equipment, reports, and services in connection with the care, handling, and disposition of surplus property without regard to the provisions of section 3709 of the Revised Statutes, as amended, upon determination by the Administrator or by any official designated by him for this purpose that such method of procurement is necessary; purchase and procurement of reports of experts or consultants or organizations thereof; advertising, including radio time; purchase of passenger motor vehicles; maintenance, operation, and repair of aircraft in the Territories and possessions in connection with disposal activities and, in the continental limits of the United States in connection with the disposition of aircraft and airports; acquisition of buildings, lands, leaseholds, and other interests therein, and temporary use thereof for the care, handling, and disposition of surplus property; payments to States or political subdivisions thereof of sums in lieu of and equivalent to taxes accruing against real property declared surplus to the Administration by Government corporations; advance of funds to Administration cashiers and collection officials upon furnishing bond, for the purpose of handling cash transactions and making change at surplus property sales: *Provided,* That any employee of the War Assets Administration is authorized, when designated for the purpose by the Administrator, to administer to or take from any person an oath, affirmation, or affidavit, when such instrument is required in connection with the performance of the functions or activities of the War Assets Administration: *Provided further,* That the Administration may procure by contract or otherwise and furnish to governmental em-

INDEPENDENT OFFICES—GENERAL PROVISIONS

[SEC. 102. During the fiscal year ending June 30, 1948, the salaries of the Commissioners of the United States Tariff Commission and of the United States Maritime Commission, with the exception of the Chairman, shall be at the rate of $10,000 each per annum.]

SEC. [103] *102.* No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided*, That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or that such person does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further*, That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation contained in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penal clause shall be in addition to, and not in substitution for, any other provisions of existing law.

SEC. [104] *103.* No part of any appropriation or authorization in this Act shall be used to pay any part of the salary or expenses of any person whose salary or expenses are prohibited from being paid from any appropriation or authorization in any other Act; but this prohibition shall be effective only during the period for which such prohibition in such other Act is effective.

SEC. [105] *104.* Where appropriations in this Act are expendable for travel expenses of employees and no specific limitation has been placed thereon, the expenditures for such travel expenses may not exceed the amount set forth therefor in the budget estimates submitted for the appropriations.

SEC. [106] *105.* Where appropriations in this Act are expendable for the purchase of newspapers and periodicals and no specific

Federal Reserve Bank of St. Louis

limitation has been placed thereon, the expenditures therefor under each such appropriation may not exceed the amount of $50: *Provided*, That this limitation shall not apply to the purchase of scientific, technical, trade, or traffic periodicals necessary in connection with the performance of the authorized functions of the agencies for which funds are herein provided.

SEC. [107] *106*. No part of any appropriation contained in this Act shall be available to pay the salary of any person filling a position, other than a temporary position, formerly held by an employee who has left to enter the armed forces of the United States and has satisfactorily completed his period of active military or naval service and has within ninety days after his release from such service or from hospitalization continuing after discharge for a period of not more than one year made application for restoration to his former position and has been certified by the Civil Service Commission as still qualified to perform the duties of his former position and has not been restored thereto.

SEC. [108] *107*. Appropriations contained in this Act, available for expenses of travel, shall be available, when specifically authorized by the head of the activity or establishment concerned, for expenses of attendance at meetings of organizations concerned with the function or activity for which the appropriation concerned is made.

SEC. [109] *108*. No part of any appropriation or fund contained in this Act shall be available for installing or maintaining systems for administrative appropriation, fund or inventory accounting except such systems as are prescribed or approved by the Comptroller General: *Provided*, That all agencies for whose activities provision is made in this Act shall hereafter maintain fiscal accounting control of all inventories of supplies, materials or equipment which may be owned by or be in the custody of such agencies.

TITLE II—GENERAL PROVISIONS

SEC. 201. Unless otherwise specifically provided, the maximum amount allowable, in accordance with section 16 of the Act of August 2, 1946 (Public Law 600), for the purchase of any passenger motor vehicle (exclusive of busses, ambulances, and station wagons), is hereby fixed at [$1,300] *$1,400*.

SEC. 202. Unless otherwise specified and until July 1, [1948] *1949*, no part of any appropriation contained in this or any other Act shall be used to pay the compensation of any officer or employee of the Government of the United States (including any agency the majority of the stock of which is owned by the Government of the United States) whose post of duty is in continental United States unless such person (1) is a citizen of the United States, (2) is a person in the service of the United States on the date of enactment of this Act who, being eligible for citizenship, had filed a declaration of intention to become a citizen of the United States prior to such date, or (3) is a person who owes allegiance to the United States: *Provided*, That for the purpose of this section, an affidavit signed by any such person shall be considered prima facie evidence that the requirements of this section with respect to his status have been complied with: *Provided further*, That any person making a false affidavit shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penal clause shall be in addition to, and not in substitution for, any other provisions of existing law: *Provided further*, That any payment made to any officer or employee contrary to the provisions of this section shall be recoverable in action by the Federal Government. This section shall not apply to citizens of the Republic of the Philippines or to nationals of those countries allied with the United States in the prosecution of the war.

SEC. 203. Appropriations for the executive departments and independent establishments for the fiscal year [1948] *1949* available for travel expenses shall be available for the payment of per diem allowances in lieu of subsistence expenses without regard to the Subsistence Expense Act of 1926, as amended (5 U. S. C. 821–833), to civilian officers and employees of such departments and establishments while traveling on official business outside the continental limits of the United States and away from their designated posts of duty: *Provided*, That the amount of such allowances shall be determined by the head of the department or independent establishment concerned or by such official as he may designate for the purpose, but shall, in no case, notwithstanding any other provision of law, exceed the maximum established by regulations prescribed by the President for the locality in which the travel is performed.

SEC. 204. Appropriations of the executive departments and independent establishments for the fiscal year [1948] *1949*, available for expenses of travel or for the expenses of the activity concerned, are hereby made available for living quarters allowances in accordance with the Act of June 26, 1930 (5 U. S. C. 118a), and regulations prescribed thereunder, and cost of living allowances similar to those allowed under section 901 (2) of the Foreign Service Act of 1946, in accordance with and to the extent prescribed by regulations of the President, for all civilian officers and employees of the Government permanently stationed in foreign countries: *Provided*, That the availability of appropriations of the Department of State under the caption "Foreign Service" shall not be affected hereby.

SEC. 205. No part of any appropriation for the fiscal year [1948] *1949* contained in this or any other Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate has voted not to approve of the nomination of said person.

SEC. 206. No part of any appropriation contained in this or any other Act shall be used to pay in excess of $4 per volume for the current and future volumes of the United States Code Annotated and such volumes shall be purchased on condition and with the understanding that cumulative annual pocket parts shall be furnished free of charge, or in excess of $4.25 per volume for the current or future volumes of the Lifetime Federal Digest. (*Independent Offices Appropriation Act, 1948.*)

[SEC. 400. No appropriation or fund made available by this or any other appropriation Act to the executive departments and establishments, including corporations, for personal services shall be available to pay any increased cost resulting from the allocation or reallocation hereafter of a position to a higher grade, or resulting from the creation of a new position, if such increased cost would result in an increase in the total obligations on an annual basis under such appropriation or fund: *Provided*, That this prohibition shall not apply to the initial creation of positions to carry out new programs or functions for which specific appropriations are made available.] (*Second Deficiency Appropriation Act, 1947.*)

[1] In addition, $35,054,850 presently available to cover salaries and expenses of the bureau of old-age and survivors insurance authorized for payment from the Federal old-age and survivors insurance trust fund.

[2] In addition, $37,819,000 to cover salaries and expenses of the bureau of old-age and survivors insurance authorized for payment from the Federal old-age and survivors insurance trust fund.

EXPLANATORY STATEMENT

American Printing House for the Blind

The amount recommended for this institution located at Louisville, Ky., has been appropriated annually since 1937. This entire amount is used to manufacture special equipment and materials for free distribution to schools for the blind throughout the country. Additional materials produced for the blind are sold direct.

Bureau of Employees' Compensation and Employees' Compensation Board of Appeals

The estimates for 1949 provide funds for the administration of the Federal Employees' Compensation Act, approved September 7, 1916, as amended; the Longshoremen's and Harbor Workers' Act, approved March 4, 1927, as amended; and the act of December 2, 1942, as amended,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

providing compensation benefits to employees of Government contractors and persons engaged by the United States under personal service contract outside the continental United States whose injury or death results from war-risk hazard and accrual of wages by any such employees held by the enemy or missing or not returned to their homes because of failure of the United States and its contractors to furnish transportation. Funds for travel expenses and printing and binding, heretofore centrally appropriated to the Office of the Administrator, are decentralized and now included in these estimates. In addition, the estimates include funds for the payment of disability and death benefits under the Federal Employees' Compensation Act.

The estimates show an apparent decrease of $781,200 below total requirements for 1948. This is in anticipation of an additional $1,500,000 which may be required in the fiscal year 1948 to supplement the special fund, "Employees' compensation fund," to meet the settlement of claims adjudicated under the requirements of the Federal Employees' Compensation Act. In comparison, however, with presently available funds totaling $11,566,200, and in addition $60,000 of decentralized travel and printing and binding funds, there is an actual increase of $658,800 consisting of $550,000 in the "Employees' compensation fund" and $108,800 in the fund for administrative expenses. In addition to nominal sums for within-grade salary advancements and pro rata costs of the recently inaugurated employee health services program, the recommended increase for administrative expenses in 1949 will provide for a more adequate and prompt examination of injury and death claims and equitable awards under the laws administered, more expeditious payment of claims and maintenance of a current schedule of hearings required in disputes under the Longshoremen's and Harbor Workers' Act. The net increase in the special fund is almost wholly due to statutory disability compensation costs which are offset in part by the completed accrued wage program and the decreasing load of the war-risk hazard program.

Columbia Institution for the Deaf

This institution provides instruction for deaf persons at two levels. Below the college level students from the District of Columbia and a few private students are educated in Kendall School. Gallaudet College provides for the education of deaf persons from the States and Territories on the basis of congressional scholarships. A slight increase of $22,900 is recommended for fiscal year 1949. Plans for expanding the facilities of this institution are now in such a stage as to indicate a sharp increase in requirements for 1950.

Food and Drug Administration

The enforcement of the Food, Drug, and Cosmetic Act in providing adequate protection for the American public by promoting the purity, identity, standard quality, and truthful and informative labeling for foods, drugs, cosmetics, and related products entering interstate commerce or imported into this country, held to a minimum during the war years, is now facing greater problems than ever before. Expansion in the aggregate number of outlets, together with large imports, increase the volume and variety of goods moving in interstate commerce. Scarcities, high prices, deterioration in equipment, in standards and controls are being reflected to an extensive degree in the products offered for consumption. An increase of 46 percent in the aggregate fines imposed by the courts in 1947 over 1946 indicates the trend of detected violations and the increasing severity of penalties imposed by the courts. The level of the appropriation for 1949 is about 9½ percent above 1948. It contemplates a continuation of the expansion, deferred by the war, and provides for a partial solution of the many problems in the area of enforcement.

All of the costs for operating this program including legal services, travel, and printing and binding, hitherto appropriated for elsewhere, have been consolidated in a single appropriation. Similarly, all of the services wholly supported by fees paid by the users of the services have been consolidated under the appropriation titled "Certification and inspection services."

Freedman's Hospital

This hospital renders medical and hospital care to Negroes. It consists of a general unit of 385 beds (including 52 bassinets), a tuberculosis unit of 150 beds, and an out-patient department. The hospital derives funds from Federal appropriations and from direct payment by patients. The Federal Government is reimbursed by the District of Columbia for the care of indigent legal residents of the District. In 1949 the Federal Government's share of the cost of operation will be approximately 63 percent. The estimates for the hospital are based on 86 percent utilization of the general hospital and 90 percent utilization of the tuberculosis annex. Freedmen's Hospital is affiliated with the Howard University School of Medicine and serves as a teaching center for medical trainees. The hospital also conducts a school of nurse education and trains other types of hospital personnel. In fiscal year 1949, Freedmen's Hospital will operate its own venereal disease clinic which accounts for a slight increase over fiscal year 1948 obligations.

Howard University

Howard University receives funds from the Federal Government for the partial support of undergraduate, graduate, and specialized education and training. Facilities are at present crowded to the limit, chiefly with veterans, with the result that enrollment cannot be increased in 1949. To provide a lower teacher-student ratio, an additional $145,000 is recommended for salaries and expenses. To complete the construction authorized and provided for in 1947 and 1948, an additional contract authorization of $750,750 is recommended. An appropriation of $507,240 is needed to make alterations and installations in the powerhouse and the science hall, made necessary by the new construction program. An amount of $50,000 is recommended for a master plan of development of this institution. The net decrease for 1949 under 1948 is accounted for by a reduction in the direct appropriations for building plans and construction.

Office of Education

For the Office of Education, an increase of $203,300 is recommended for salaries and expenses to improve the efficiency of the research, publication, and consultative services provided to schools, school systems, and colleges by the several divisions which deal with specialized educational problems, particularly as these problems relate to the national strength and security.

The Vocational Education Act of 1946 increased the authorization of funds for the further development of

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

vocational education from $14,483,000 to $29,301,739. The States have funds available to match the full authorization in fiscal year 1949. It is recommended that the $17,750,000 appropriated in 1948 be increased to the full amount of the authorization.

Office of Vocational Rehabilitation

The Office of Vocational Rehabilitation administers the grants to States for carrying out the rehabilitation program established by the Vocational Rehabilitation Act of 1943. Funds are appropriated to the Federal Security Administrator to pay for the total cost of State administration of the program, the guidance and placement activities, and one-half the services purchased for clients, such as hospitalization, physical restoration, and tuition. Payments to States for 1949 are estimated at $21,475,000, an increase over estimated requirements for 1948 of $3,475,000. The 1949 estimate will provide for expanded workload, but contemplates increased use by the vocational rehabilitation agencies of the placement facilities of the State employment services recently returned to State operation by the Federal Government.

Public Health Service

The Public Health Service is the principal Federal agency concerned with the protection and improvement of the public health. Necessary development of health programs approved by Congress will require appropriations in 1949 which are 41 percent higher than in 1948.

MEDICAL CARE

The Public Health Service operates marine hospitals, narcotic hospitals, and relief stations; furnishes medical services to the Coast Guard; and provides miscellaneous services to other Federal agencies. The marine hospitals and relief stations, operated by the Hospital Division, render medical, dental, and hospital care to beneficiaries of the Public Health Service as prescribed by law (42 U. S. C. ch. 6A). Principal beneficiaries are merchant seamen and members of the United States Coast Guard. In 1949 it is anticipated that the hospital patient load will decrease slightly due principally to reduction in the estimated strength of the merchant marine. A sanatorium is also operated for the care of leprous persons. The Hospital Division furnishes professional personnel on a reimbursable basis for medical programs of other Federal agencies, such as the Office of Indian Affairs and the Bureau of Employees' Compensation.

The Division of Mental Hygiene operates two hospitals which provide care for drug addicts and mental patients and also furnishes clinical psychiatric services to the Juvenile Court, District of Columbia. As provided by Reorganization Plan No. 3, 1946, Army and Navy mental patients formerly cared for by Saint Elizabeths Hospital became the responsibility of the Departments of the Army and Navy, respectively, and are being cared for in the Mental Hygiene Division hospitals on a reimbursable basis. Beginning in fiscal year 1947 Veterans' Administration mental patients have also been cared for on a reimbursable basis. The 1949 budget envisions little change in the patient loads of these two hospitals with the decrease in the Army, Navy, and Veterans' Administration patient-days being offset by an increase in the addict patient load.

The 1949 budget provides the same number of personnel as authorized in 1948 for Public Health Service surveys and recommendations on the employee health programs of other Federal agencies as required by law (5 U. S. C. 150). Federal agencies cannot establish preventive health services for their employees until they have received the Public Health Service recommendations on the services to be provided. Funds are also included for the operation of an employee health program for Public Health Service employees located in the Washington, D. C., metropolitan area. In addition, Public Health Service operates the employee health programs for several Federal agencies on a reimbursable basis.

STATE-AID PROGRAMS

Total appropriations estimated for 1949 for State-aid programs are more than double 1948 funds; however, the great bulk of this increase is for grants for hospital construction. Seventy-five million dollars additional contract authority is provided in fiscal year 1949 for grants to States and local nonprofit groups for hospital construction in accordance with the provisions of the Hospital Survey and Construction Act, approved August 13, 1946. Funds appropriated in 1947 are sufficient for the Federal share of the State expenses of making an inventory of existing hospital and health facilities and planning for the additional facilities required.

Other State-aid programs provide health services of various kinds throughout the Nation, in cooperation with State and local health agencies. These programs are provided for in appropriations for venereal disease control, tuberculosis control, communicable disease control, and general assistance to States. Aid to States for mental health programs is included in general assistance. Some State aid is also included in the appropriation for the National Cancer Institute. Various methods of assistance are utilized, including matched and unmatched money grants; grants of services through assignment of Federal personnel; demonstrations; consultative services; training programs; and direct operations by the Public Health Service with the cooperation and approval of State and local authorities. Major accomplishments during the past year include the development of practical techniques for mass case finding in tuberculosis control, and the inauguration of mental health and cancer control activities. The estimates for 1949 provide increases principally to extend the mass case finding tuberculosis campaign, to conduct large-scale studies in the use of BCG vaccine in tuberculosis control and to provide additional funds for general health assistance, principally monetary grants and training of personnel. Some decrease in Federal operations in communicable disease control will be possible in 1949 and is reflected in the estimates.

RESEARCH AND TRAINING

Appropriations for research and training under the National Institute of Health, National Cancer Institute, and National Institute of Mental Health (the last constituting a part of the mental health activities appropriation) provide both for direct Federal research and for grants-in-aid to universities, scholars, and other recipients. Grant funds are used for research and training purposes, including fellowships. About twice as much money will be obligated in 1949 for grants as will be obligated for direct Federal research.

During the past year the research grant program was established on a major scale and research activities conducted directly by the Public Health Service were increased in recognition of the importance of research in the

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

field of medicine. In the current fiscal year 1948, further expansion of both intramural research and research grants are accompanied by the inauguration of a research grant program in mental health and by the development of grants for training of medical and scientific personnel in mental health and in cancer. Some additional expansion of these programs in research and training is provided in 1949.

Following an initial appropriation in 1948 for purchase of site and preparation of plans for a clinical research hospital for general medical research, including cancer and cardiovascular diseases, and a similar appropriation for a National Mental Health Institute, the 1949 estimates provide under "Construction of research facilities" for the initiation of construction work on a single combined project to be undertaken for the Public Health Service by the Public Buildings Administration.

MISCELLANEOUS ACTIVITIES

Additional activities of the Public Health Service include training for nurses, foreign quarantine service, various programs under the Office of Surgeon General provided for in the appropriation "Salaries and expenses," international health relations, and other miscellaneous projects.

There is a major decrease in the funds required in 1948 for nurses training program since enrollment in the cadet nurse corps was terminated in October 1945. Payment of stipends to cadet nurses will be completed in 1948. The 1949 estimates provide funds for completion of the auditing of nursing-school accounts and the final liquidation of the program.

An increase in the estimate for 1949 for the Foreign Quarantine Service reflects added responsibilities resulting from increased work load and provides also for needed renovation of launches.

Work of the Office of Surgeon General will continue in 1949 with relatively minor changes, principally consisting of increased activities in the Division of Sanitary Engineering, including the War and Sanitation Investigations Station; development of the Division of Nursing; and small increases in the management staff commensurate with the expansion of programs in the Public Health Service.

An accurate picture of the costs of the programs carried on under the various appropriations of the Public Health Service is available for the first time in the 1949 estimates for the reason that funds for the number of regular commissioned officers estimated to be required are included with other salaries in the appropriation for each program, and all travel and printing and binding costs have been included with other obligations for each program. Funds for a relatively small number of regular officers have been retained in 1949 in the special appropriation for pay of commissioned officers to provide for those who are not paid from operating program appropriations.

The authorization for the regular commissioned corps of the Public Health Service is increased from a total of 1,246 to a total of 1,556 as a further step in the development of the regular corps.

SAINT ELIZABETHS HOSPITAL

This Government operated institution renders medical and hospital care to mental patients of whom approximately 78 percent are residents of the District of Columbia. The hospital is reimbursed for patients received from the District of Columbia, the Veterans' Administration, the Indian Service, and the United States Soldiers' Home. Direct beneficiaries for whom no reimbursement is received are principally mental patients of the following categories: Federal prisoners, American citizens adjudged insane in Canada, residents of the Virgin Islands, and foreign service officers and employees. The total patient load at Saint Elizabeths Hospital itself, estimated to average 6,400 patients per day for the fiscal year 1949, represents an increase of 105 patients per day over that estimated for fiscal year 1948. An additional daily average of 34 Saint Elizabeths patients will receive care in Public Health Service hospitals. The estimate for 1949 provides for the cost of hospitalization of all patients whether at Saint Elizabeths Hospital or the mental hospitals of the Public Health Service. Increases recommended for fiscal year 1949 of approximately $3,000,000 result from the hospital's plan to complete construction of the storeroom and a treatment building, planning for additional construction, and major items of repair and preservation of buildings and grounds.

SOCIAL SECURITY ADMINISTRATION

The Social Security Administration is charged with the over-all administration of those social security programs established by the Social Security Act which give protection to the individual against economic insecurity. The Bureau of Public Assistance, the Bureau of Employment Security, the Bureau of Old-Age and Survivors Insurance, and the Children's Bureau constitute the program operating arms of the Administration. The Office of the Commissioner exercises supervisory control over the operating bureaus, and, through the Bureau of Accounts and Audits, the Bureau of Research and Statistics, and the Informational Service, provides service and coordination.

The Office of the Commissioner has been drastically curtailed in size and function in fiscal year 1948. Certain activities previously carried at this level have been decentralized to the operating bureaus.

The 1949 budget proposes extensive rearrangement and consolidation of the appropriation structure of the Administration. Principal purpose of the proposal is substantial reduction in the number of appropriations. For the Office of the Commissioner the only staff increases provided are for the Bureau of Accounts and Audits to enable it to cope with increasing backlogs in the auditing of Social Security's large grant programs.

BUREAU OF PUBLIC ASSISTANCE

Under titles I, IV, and X of the Social Security Act, Federal grants are made to States for old-age assistance, aid to dependent children, and aid to the blind. Within limitations established under the Social Security Act and on the basis of plans approved by the Commissioner for Social Security, the Federal Government matches payments made by the States to needy individuals falling within these categories and pays part of the cost of administration of these programs. Until September 30, 1946, this matching was on a 50–50 basis. The 1946 amendments to the Social Security Act increased the Federal share and matching maxima on monthly payments to individuals.

At the time of the submission of the 1948 budget, the 1946 amendments were scheduled to expire on December 31, 1947. The budget and appropriation were based on this expiration date. Public Law 379, approved August 6, 1947, extended the life of the amendments to June 30, 1950. This extension makes necessary a supplemental

Federal Reserve Bank of St. Louis

appropriation of $101,000,000 for fiscal year 1948. Total cost of this program in 1948 will therefore amount to $726,000,000.

The $797,000,000 recommended for fiscal year 1949 is an increase of $71,000,000 over total 1948 requirements. Of this increase approximately $60,000,000 is based on expected further increases in case loads; $11,000,000 is based on increasing average payments to individuals.

The moderate increases provided for administrative expenses of the Bureau of Public Assistance will enable the Bureau to handle the heavy work loads involved in these expanding and changing programs.

BUREAU OF EMPLOYMENT SECURITY

The Bureau of Employment Security has the Federal responsibility for the administration of title III of the Social Security Act which provides for grants to States for the operation of unemployment insurance systems, and under title XIII for reconversion unemployment benefits for seamen.

The unemployment insurance program operates under State laws and through State administrative systems which vary in detail, but meet the minimum standards established in the Social Security Act.

Unemployment benefit payments have continued to decline since the reconversion period immediately following the war, but the savings in administrative costs resulting from this decline have been more than offset by the increases incident to the extension of coverage of workers and employers, the substantial increase in salaries paid to State employees, and the introduction of more elaborate operating procedures in certain States as prescribed by State laws.

Appropriation estimates for grants to States for 1949 total $73,650,000; in addition, $750,000 is estimated for the payment of Federal benefits to seamen who have been employed on Government controlled ships prior to the coverage of such workers under State unemployment insurance laws.

BUREAU OF OLD-AGE AND SURVIVORS INSURANCE

This Bureau carries out a program of social insurance designed to provide a partial replacement of lost earning power to aged workers who retire, and to survivors of workers who die.

Its principal activities are the recording of workers' earnings, the development and payment of claims for benefits based upon such earnings, and the continuing payment of benefits each month.

The growth in the number of workers qualifying for benefits is continuous, especially during periods of high industrial activity. The number of claims for benefits made by those retiring likewise grows steadily as the working population ages, but the rate of growth is retarded when business is good by the greater opportunity provided aged workers to continue in employment. The number of beneficiaries to whom benefit checks are sent each month increases cumulatively and will continue to accumulate each month until the system reaches maturity half a century hence.

Amendments to title II of the Social Security Act providing for servicemen's social insurance, the costs of which are to be borne by the Federal Government, account for $277,000 for administrative expenses and for a separate appropriation of $2,974,000 to reimburse the trust fund for benefits paid wholly because of these amendments.

Following the recommendations of Congress, all of the direct operating expenses of the Bureau are now included in the authorization for payment of salaries and expenses from the trust fund. Travel expenses for the legal staff and penalty mail costs have been included in the 1949 estimate as well as legal services, travel expenses, printing and binding, miscellaneous expenses, and certain costs of the Social Security Administration formerly appropriated for elsewhere but authorized for inclusion in this appropriation in the 1948 appropriation act. As the result of this consolidation of appropriations and the growth of the program, the authorization for payment from the trust fund has grown from $26,708,100 in 1947 to $35,054,850 in 1948 and to an estimate of $37,819,000 in 1949.

CHILDREN'S BUREAU

The basic legislative charter of the Children's Bureau requires it to investigate and report to the Nation upon matters pertaining to child life and the welfare of children. Its activities include the conduct of research and the provision of information and advisory services to Federal, State, and private agencies, and to the public generally.

Title V of the Social Security Act, as amended in 1946, authorizes appropriations totaling $22,000,000 annually (the previous authorization was for $11,000,000) for grants to States for maternal and child health services, services for crippled children, and child-welfare services. These grant programs are administered by the Children's Bureau.

In order that the Children's Bureau may more effectively administer its grant programs and deal with the most urgent needs in the field of child health and welfare, moderate increases in administrative expenses are included in the estimates for 1949.

OFFICE OF THE ADMINISTRATOR

The Administrator's staff has been augmented by the addition of two assistants. Other small increases in the service units of the Office of the Administrator are necessary because of the transfer of certain service functions from constituents. A substantial increase is provided for the Office of the General Counsel for legal services for the expanding programs of the agency.

In fiscal year 1948, travel and printing and binding funds for the entire agency were carried in central appropriations. For 1949 it is proposed that there be no central appropriations for these purposes; funds therefor are provided in the administrative expense appropriations.

ESTIMATES OF APPROPRIATION

AMERICAN PRINTING HOUSE FOR THE BLIND

To Promote the Education of the Blind, Federal Security Agency—

Education of the blind: For carrying out the Act of August 4, 1919, as amended (20 U. S. C. 101), $115,000. (*Labor-Federal Security Appropriation Act, 1948.*)

Annual appropriation, general account:

Appropriated 1948, **$115,000** Estimate 1949, **$115,000**

Obligations: 11 Grants, subsidies, and contributions—1947, $115,000; 1948, $115,000; 1949, $115,000.

Permanent appropriation:

Education of the Blind, Interest—

The act of June 25, 1906, appropriates, out of any money not otherwise appropriated, an amount equal to interest at 4 percent per annum on a fund of $250,000 held in trust in the Treasury for the purpose of aiding the education of the blind in the United States through the American Printing House for the Blind. Moneys so appropriated are paid into a trust account for subsequent payment to the trustees of the American Printing House for the Blind. (*20 U. S. C. 101, 102; 31 U. S. C. 725s (82).*)

Appropriated 1948, **$10,000** Estimate 1949, **$10,000**

Obligations: 14 Interest—1947, $10,000; 1948, $10,000; 1949, $10,000.

Total, American Printing House for the Blind, general accounts:

Appropriated 1948, **$125,000** Estimate 1949, **$125,000**

Trust account:

To Promote the Education of the Blind, Interest—

There is received from the general fund each year an amount equivalent to interest at 4 percent per annum on a fund of $250,000 held in trust. These moneys are appropriated for payment semi-annually to the American Printing House for the Blind. (*20 U. S. C. 101, 102; 31 U. S. C. 725s (82).*)

Appropriated 1948, **$10,000** Estimate 1949, **$10,000**

Obligations: 11 Grants, subsidies, and contributions—1947, $10,000; 1948, $10,000; 1949, $10,000.

BUREAU OF EMPLOYEES' COMPENSATION

Salaries and Expenses, Bureau of Employees' Compensation, Federal Security Agency—

Salaries and expenses: For necessary administrative expenses, including personal services in the District of Columbia; [temporary] *travel expenses; printing and binding, including purchase of reprints;* services as authorized by section 15 of the Act of August 2, 1946 [(Public Law 600), but, in the case of stenographic reporting services on a fee basis, without regard to the limitation on rates in such section and, in the case of other services, at rates not in excess of $35 per diem for individuals; purchase of five passenger motor vehicles], (*5 U. S. C. 55a*); and not to exceed $41,000 for the Employees' Compensation Board of Appeals; [$1,316,200] *$1,485,000: Provided,* That section 3709, Revised Statutes, as amended, shall not apply to any purchase or service outside continental United States when the aggregate amount involved does not exceed $500. (*5 U. S. C. 751–800; 33 U. S. C. 901–950; 42 U. S. C. 1651–1659, 1701–1717; 45 Stat. 600; Labor-Federal Security Appropriation Act, 1948.*)

Appropriated 1948, **$1,316,200** Estimate 1949, [a] **$1,485,000**

[a] Includes $65,500 for activities previously carried under appropriations as follows:
"Travel expenses, Federal Security Agency" $45,500
"Printing and binding, Federal Security Agency" 20,000

Employees' Compensation Fund, Bureau of Employees' Compensation, Federal Security Agency—

Employees' compensation fund: For the payment of compensation and other benefits and expenses (except administrative expenses) authorized by law and accruing during the current or any prior fiscal year, including payments to other Federal agencies for medical and hospital services pursuant to agreement approved by the Bureau of Employees' Compensation; the advancement of costs for enforcement of recoveries in third-party cases; [rehabilitation expenses, including fees or other payments to other agencies of the United States and public or private agencies, including individuals, for services or facilities rendered or furnished pursuant to agreement approved by the Bureau;] the furnishing of medical and hospital services and supplies, treatment, and funeral and burial expenses, including transportation and other expenses incidental to such services, treatment, and burial, for such enrollees of the Civilian Conservation Corps as were certified by the Director of such Corps as receiving hospital services and treatment at Government expense on June 30, 1943, and who are not otherwise entitled thereto as civilian employees of the United States, and the limitations and authority of the Act of September 7, 1916, as amended (5 U. S. C. 796), shall apply in providing such services, treatment, and expenses in such cases; [$10,250,000] *$10,800,000. (5 U. S. C. 785; 42 U. S. C. 1701; Labor-Federal Security Appropriation Act, 1948.)*

Special account:

Certification and Inspection Services, Food and Drug Administration, Federal Security Agency—

Salaries and expenses, certification and inspection services: For expenses necessary for the certification or inspection of certain products in accordance with sections 406, 504, 506, 507, 604, 702A, and 706 of the Federal Food, Drug, and Cosmetic Act, as amended (21 U. S. C. 346, 354, 356, 357, 364, 372a, and 376), the aggregate of the advance deposits during the fiscal year 1949 to cover payment of fees by applicants for certification or inspection of such products, to remain available until expended; and in addition thereto, the aggregate of advance deposits made prior to July 1, 1948, and remaining to the credit of depositors for certification or inspection of such products during the fiscal year 1949, which shall also remain available until expended. The total amount herein appropriated shall be available for personal services in the District of Columbia; travel expenses; purchase of twelve passenger motor vehicles (of which three shall be for replacement only); printing and binding, including purchase of reprints; services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a); and the refund of advance deposits for which no service has been rendered: Provided, That in the fiscal year 1949 not to exceed $20,500 of such total amount shall be available for transfer to the appropriation "Salaries, Office of the General Counsel".

Estimate 1949, [a] **$875,100**

[a] Includes $750,000 for activities previously carried under "Certification services, Food and Drug Administration, Federal Security Agency," and $125,100 previously carried under "Sea-food inspections, Food and Drug Administration" (trust account). The amounts provided for 1947 and 1948 are shown in the schedule as comparative transfers.

Trust accounts:

Coal-Tar Colors Certification Fees, Food and Drug Administration—

The certification of coal-tar colors is wholly supported by fees paid by the producers and distributors of these products. Advance deposits are required from each user of these services against which are charged the fees for certification, established by regulation. Deposits, not covered by fee charges, are refunded when requested by the depositor.

Beginning in 1949, this service will be included in the special account appropriation "Certification and inspection services, Food and Drug Administration." Refunds will be made, when required, from the special account. (*21 U. S. C. 376.*)

Appropriated (estimate) 1948, **$25**

Obligations: 13 Refunds, awards, and indemnities—1947, $19; 1948, $25.

Sea-Food Inspections, Food and Drug Administration—

This service, in 1948, is wholly supported by fees paid by packers of sea-food products for the inspection of these products. Advance deposits are made by each packer against which are charged the inspection fees as provided by regulation. The unused deposits are annually refunded. In 1949, this service will be included in the special account appropriation "Certification and inspection services, Food and Drug Administration." Provision is made for the transfer to the special account of advance deposits received in 1948 but applicable to 1949 inspection service. (*21 U. S. C. 372a.*)

Total, Office of Education, annual appropriations, general accounts:

Appropriated 1948, **$21,998,900** Estimate 1949, **$33,916,739**

Permanent appropriations:

Colleges for Agriculture and the Mechanic Arts-

Permanent specific appropriation to pay each State and Territory for the more complete endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts now established, or which may be hereafter established, in accordance with an act of Congress approved July 2, 1862.

That there shall be, and hereby is, annually appropriated, out of any money in the Treasury not otherwise appropriated, to be paid as hereinafter provided, to each State and Territory for the more complete endowment and maintenance of agricultural colleges now established, or which may hereafter be established, in accordance with the act of Congress approved July 2, 1862 (U. S. C., title 7, secs. 301–308), and the act of Congress approved August 30, 1890 (U. S. C., title 7, secs. 321–328), the sum of $5,000 in addition to the sums named in the said act, for the fiscal year ending June 30, 1908, and an annual increase of the amount of such appropriation thereafter for 4 years by an additional sum of $5,000 over the preceding year, and the annual sum to be paid thereafter to each State and Territory shall be $50,000, to be applied only for the purposes of the agricultural colleges, as defined and limited in the act of Congress approved July 2, 1862, and the act of Congress approved August 30, 1890.

That the sum hereby appropriated to the States and Territories for the further endowment and support of the colleges shall be paid by, to, and in the manner prescribed by the act of Congress approved August 30, 1890, entitled "An Act to apply a portion of the proceeds of the public lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts established under the provisions of the act of Congress approved July 2, 1862," and the expenditure of the said money shall be governed in all respects by the provisions of the said act of Congress approved July 2, 1862, and the said act of Congress approved August 30, 1890: *Provided*, That said colleges may use a portion of this money for providing courses for the special preparation of instructors for teaching the elements of agriculture and the mechanic arts. *(7 U. S. C. 301–308, 321–328.)*

Appropriated 1948, **$2,550,000** Estimate 1949, **$2,550,000**

Obligations: 11 Grants, subsidies, and contributions—1947, $2,550,000; 1948, $2,550,000; 1949, $2,550,000.

Promotion of Vocational Education, Act Feb. 23, 1917, Office of Education—

That there is hereby annually appropriated, out of any money in the Treasury not otherwise appropriated, the sums provided in sections 2, 3, and 4 of the act entitled "An Act to provide for the promotion of vocational education, etc.," approved February 23, 1917 (20 U. S. C. 11–14), to be paid to the respective States for the purpose of cooperating with the States in paying the salaries of teachers, supervisors, and directors of agricultural subjects, and teachers of trade, home economics, and industrial subjects; and in the preparation of teachers of agricultural, trade, industrial, and home economics subjects.

OFFICE OF VOCATIONAL REHABILITATION

Payments to States, Vocational Rehabilitation Act, as Amended, Office of Vocational Rehabilitation, Federal Security Agency—

Payments to States (including Alaska, Hawaii, and Puerto Rico): For payments to States (including Alaska, Hawaii, and Puerto Rico) in accordance with the Vocational Rehabilitation Act, as amended (29 U. S. C. ch. 4), including payments, in accordance with regulations of the Administrator, for one-half of necessary expenditures for the acquisition of vending stands or other equipment in accordance with section 3 (a) (3) (C) of said Act for the use of blind persons, such stands or other equipment to be controlled by the State agency, [$18,000,000] *$21,475,000*, of which not to exceed [$200,000] *$282,925* shall be available to the Federal Security Administrator for providing rehabilitation services to disabled residents of the District of Columbia, as authorized by section 6 of said Act, which latter amount shall be available for administrative expenses in connection with providing such services in the District of Columbia, [including] printing and binding, *including the purchase of reprints*, and travel: *Provided*, That not to exceed 15 per centum of the appropriation shall be used for administrative purposes: *And provided further*, That section 3709 of the Revised Statutes, as amended, shall not apply to any purchase made or service rendered when the aggregate amount involved does not exceed $400.

Payments to States (including Alaska, Hawaii, and Puerto Rico), fiscal year 1950: For making, after May 31, 1949, payments to States in accordance with the Vocational Rehabilitation Act, as amended (including the objects specified in the preceding paragraph), for the first quarter of the fiscal year 1950, such sums as may be necessary, the obligations incurred and the expenditures made thereunder to be charged to the appropriation therefor for the fiscal year 1950. (Labor-Federal Security Appropriation Act, 1948.)

Appropriated 1948, **$18,000,000** Estimate 1949, **$21,475,000**

PUBLIC HEALTH SERVICE

For necessary expenses in carrying out the Public Health Service Act, as amended (42 U. S. C. ch. 6A) (hereinafter referred to as the Act), and other Acts, including (with the exception of the appropriation "Pay, and so forth, commissioned officers, Public Health Service") personal services in the District of Columbia; *travel expenses; printing and binding;* purchase of reports, documents, and other material for publication and of reprints; [temporary] services as authorized by section 15 of the Act of August 2, 1946 ([Public Law 600), but, in the case of stenographic reporting services on a fee basis without regard to the limitation on rates in such section and, in the case of all other services, at rates not in excess of $35 per diem for individuals] *5 U. S. C. 55a); pay, uniforms and subsistence allowances, increased allowances for foreign service and the commutation of quarters for commissioned officers on active duty (except as otherwise provided for under this head);* preparation and display of posters and exhibits by contract or otherwise; packing, unpacking, crating, uncrating, drayage, and transportation of personal effects of commissioned officers and transportation of their dependents on change of station; [increased allowances to Reserve officers for foreign service;] furnishing, repairing, and cleaning of wearing apparel prescribed by the Surgeon General for use by employees in the performance of their official duties; and transporting in Government-owned automotive equipment, to and from school, children of personnel who have quarters for themselves and their families at isolated stations; as follows: (*Labor-Federal Security Appropriation Act, 1948.*)

Control of Venereal Diseases, Public Health Service—

Venereal diseases: To carry out the purposes of sections 314 (a) and 363 of the Act with respect to venereal diseases, including the operation and maintenance of centers for the diagnosis, treatment, support, and clothing of persons afflicted with venereal diseases; transportation and subsistence of such persons and their attendants to and from the place of treatment or allowance in lieu thereof; diagnosis and treatment (including emergency treatment for other illnesses) of such persons through contracts with physicians and hospitals and other appropriate institutions without regard to section 3709 of the Revised Statutes, as amended; fees for case finding and referral to such centers of voluntary patients; reasonable expenses of preparing remains or burial of deceased patients; recreational supplies and equipment; leasing of facilities and repair and alteration of leased facilities; the purchase of [twenty-eight] *eight* passenger motor vehicles *for replacement only,* and for grants of money, services, supplies, equipment, and use of facilities to States, as defined in the Act, and with the approval of the respective State health authorities, to counties, health districts, and other political subdivisions of the States, for the foregoing purposes, in such amounts and upon such terms and conditions as the Surgeon General may determine; [$17,399,500, of which $516,500 shall be immediately available] *$17,300,000.* (*Labor-Federal Security Appropriation Act, 1948.*)

Appropriated 1948, **$17,399,500** Estimate 1949, [a] **$17,300,000**

[a] Includes $450,102 for activities previously carried under appropriations as follows:
"Travel expenses, Federal Security Agency" $104,000
"Printing and binding, Federal Security Agency" 17,300
"Pay, etc., commissioned officers, Public Health Service" 328,802
The amounts provided for 1947 and 1948 are shown in the schedule as comparative transfers.

Hospital and Construction Activities, Public Health Service—

[Hospital and construction activities: For administrative expenses incident to carrying out title VI of the Public Health Service Act, as amended (Public Law 725, 79th Cong.), $865,000, including printing and binding; purchase of eight passenger motor vehicles; and travel, including attendance at meetings of organizations concerned with the purposes of this appropriation. There shall be allotted to the several States for the fiscal year 1948, as provided in such Act, a sum not exceeding $75,000,000, a part of the sum authorized to be appropriated for the fiscal year 1948 by part C of the Act. Whenever the Surgeon General shall have approved an application for a construction project in accordance with section 625 of the Act, the Federal share of the cost of such project, as provided by the Act, shall constitute a contractual obligation of the Federal Government: *Provided*, That the aggregate contractual obligation during the fiscal year 1948 shall not exceed $75,000,000.] (*Labor-Federal Security Appropriation Act, 1948.*)

Appropriated 1948, **$865,000**

NOTE.—Estimate of $1,212,806 and contract autbority of $75,000,000 for activities previously carried under this title have been transferred in the estimates to appropriations as follows:

"Administrative expenses, assistance for hospital construction, Public Health Service"	$1,212,806
"Grants for hospital construction, Public Health Service" (contract authorization)	(75,000,000)

The amounts and contract authorization provided for 1947 and 1948 are shown in the schedule as comparative transfers.

Grants for Hospital Construction, Public Health Service—

Grants for hospital construction: For liquidation of contractual obligations, incurred under the Federal Security Agency Appropriation Act, 1948, and under this appropriation, for construction grants pursuant to part C, title VI, of the Act, $60,000,000, to remain available until expended. Allotments under such part C to the several States for the fiscal year 1949 shall be made on the basis of $75,000,000, a part of the sum authorized to be appropriated for the fiscal year 1949. Whenever the Surgeon General shall have approved an application for a construction project in accordance with section 625 of the Act, the Federal share of the cost of such project, as provided by the Act, shall constitute a contractual obligation of the Federal Government: Provided, That the aggregate contractual obligations against the allotments for the fiscal year 1949 shall not exceed $75,000,000.

Estimate 1949, [a] **$60,000,000**

[a] In addition, contract authority in the amount of $75,000,000 for activities previously carried under "Hospital and construction activities, Public Health Service." The contract authorization provided for 1948 is shown in the schedule as a comparative transfer.

Working Capital Fund, Narcotic Hospitals, Public Health Service—

NOTE.—The act of July 1, 1944, established a fund to which there are credited receipts from the sale of commodities. The Federal Security Agency Appropriation Act, 1948, provides that any balance in the fund thereafter in excess of $150,000 at the end of each fiscal year shall be remitted to the surplus fund of the Treasury. (*42 U. S. C. 253.*)
